Bible Comment:

#### Jesus of Nazareth Did Not Invent Organized Cult

The insistent question that underlies all organized Christianity is one of the personal relationship of men and women to the Christ—Jesus of Galilee of the New Testament.

To what extent does His example and His teaching dominate their lives? Does the love that He enjoined in the two great commandments show up in the outlook of these people—in their daily lives and conduct?

These two commandments: to love God with all the heart and soul and mind, and to love one's neighbor as one's self are not, of course, limited to the Christian religion.

of course, limited to the Christian religion.

They were not inventions of the Master, but a basic part of the Jewish religion and of the law of the prophets which, Jesus said, He had come to fulfill, not to destroy.

In one sense, Jesus was not the founder of Christianity. He was not the originator as others have been founders of cults or religions.

If one looks deeply into the life, teaching and mission of Jesus one finds that what the Gospels show is not a religion, but a religion in all its essence and basis in God's relation to man and man's relation to God man and man's relation to God and the relation of men to each

and the relation of Jesus, other.

The religions world of Jesus, like the world of the universe in whith we live, is a world of spiritual facts and laws. It is not a world in which there is anything artificial or inversed

Today, many investments pay more, but few have a return that is guaranteed, compounded and paid twice a year like interest.

Few investments can equal the security of an insured bank deposit. Few offer a return of the principal, dollar for dollar, the moment you want it.

For safety and reliability, you're wise to save in a bank. Perhaps it's time for us to get acquainted.
