OUR SUFFRAGE PARADE.

The suffrage parade, one of the most interesting spectacular features of the grand Homecoming, will take place Monday morning, July 3, in connection with the floral parade. The floral parade starts on North street and the suffrage autos will mobilize on Barstow street, at 11 o'clock, ready to swing into line following the floral

A score or more of motor cars are already promised for the suffrage parade and many more are expected. The automobiles in this parade will be eligible for the \$25 prize offered by the general executive committee. Whoever wishes to help along the suffrage cause, whoever thinks yellow is a good color in which to decorate, whoever is determined to win that \$25 prize, is cordially invited to join the suffrage parade. A number of interesting features are being arranged and it is safe to make the prediction that none of the many parades held here during the Homecoming will be of greater beauty or interest.

Not only Waukesha people, but those in all parts of the county and outside of the county as well, are invited to take part in the parade. Send names to Mrs. John Gredler, Waukesha, chairman, or to the State

Suffrage Headquarters, Waukesha.

The "On Wisconsin" banner, which figured prominently in the Chicago parade, will be borne at the head of the Waukesha procession and some of the Wisconsin tunics, which were so much admired in Chicago, will be worn in the parade here.

THOSE PLATFORM PLANKS.

Democratic convention adopted a platform which contains this plank:

"We recommend the extension of franchise to the women of the country by the states upon the

The wording of the woman suffrage planks in the two national platforms has created a good deal of discussion. In order that the two may be compared the Republican platform is here

"The Republican party, reaffirming its faith in government of the people, by the people, for the people, as a measure of justice to one-half the adult people of this country favors the extension of suffrage to women, but recognizing the right of each state to settle the question for itself."

The final clause of the Republican plank is susceptible of various interpretations. It may mean any one of several things and it may mean not much of anything. My opinion is that it does not mean much of anything, but is merely a statement of a situation which everybody recognizes. Of course each state has the right to set-tle this question for itself, just as each individual voter has the right to settle this or any other question for himself. The state is made up of citizens and these citizens of course have the right to settle any question as they wish. They may prefer to settle the suffrage question through an election by the voters of the state or they may by the voters of the state or they may prefer to settle it through action of their representatives in the United States Congress and the state legislatures. Certainly this is no declarations. Certainly this is no declarations of the state senerally declared in favor of it. A heavy vote was polled, probably reaching 300,000. Des Moines carried for the suffrage amendment by 1,500. tion against a federal amendment for

woman suffrage.
The Democratic plank is different in several particulars. It "recommends" the extension of franchise to women, whereas the Republican plank only "favors" it. Probably the Democratic plank is intended as a square states rights proposition, which is perfectly in harmony with Democratic tradi-tions. This kind of declaration may be of great value to the woman suffrage cause in the south. The south has not been solidly opposed to wom-

The many convincing testimonials constantly published in the newspapers ought to be proof enough to women who suffer from those distressing ills peculiar to their sex that Lydia E. Pinkham's Vegetable Compound is the medicine they need.

This good old root and herb remedy has proved unequalled for these dreadful ills; it contains what is needed to

restore woman's health and strength. If there is any peculiarity in your case requiring special advice, write the Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass., for free advice.

The south largely makes up the Democratic party and the Democratic party is the only party of the south. It seems to me that for the Democratic party to recommend woman suffrage to the southern states certainly indicates woman suffrage will receive more recognition in those states hereafter than it has heretofore.

A report has been printed that Justice Hughes, the Republican candidate for president, intends to make woman suffrage one of the features of his campaign and to talk in favor of a federal amendment. This seems almost too good to be true. But there are certain conditions existing which make it appear not unreasonable. Whether this happens or not I feel that the woman suffrage plank in the two national platforms represents a great victory for our cause, and will help materially in hastening the day when the women of this country will have the ballot on the same terms as

STATE HEADQUARTERS MAY MOVE.

The State Headquarters of the Wisconsin Woman Suffrage association, which have been located in this city are wonderful. Considerably more for two years, may be moved to Milwaukee in the early autumn. The matter was discussed at a meeting of the executive board of the association, held in this city on Saturday. The contract of the property of the pro tropolis. IMPORTANCE OF ONE VOTE.

According to the latest statistics a change of one vote in each election precinct of lowa would have enfranchised the women of that state. There are 2,300 election precincts in Iowa and the vote against woman suffrage was in the neighborhood of 4,500. The defeat is generally attributed to the activities of the "wets" who are making violent effort to defeat the prohibition amendment at the election in November. The river counties which have remained wet in spite of the pro-hibition laws, went heavily against suffrage. The rural sections of the

She's like a young ballplayer who keeps driving 'em' over the right-field fence.

She's there. And the reason is her magnificent 3400 r. p. m. engine. When history in our business is written, 3400 r. p. m. will occupy a thick chapter.

Simply because at the lowest speeds she saves her energy, turns up only 500 r. p. m. at 10 miles an hour, and 1000 r. p. m. at 20 miles an hour.

Thus using only 18 per cent of her power at such speeds and saving 62 to 80 per cent for winding, hilly roads, bad turns, and on occasions when a little extra power gives you possession of the road.

One ride of five miles behind the wheel and you'll own it. Ask your dealer about Chalmers service inspection coupons, negotiable at all Chalmers dealers everywhere. This system is a most important consideration in buying your car.

In YOUR house or barn

(or other buildings)

lumber is more than "just wood"

Buying lumber deserves a little thought. Every kind of wood has its own special uses. Using the wrong kind of wood is no wiser than trying to plow with a cultivator.

We do not recommend "Old Faithful" HEMLOCK for high class interior trim and doors (use Birch for that) though Hemlock makes fine, soft wood trim; nor for shingles, nor posts, nor several other things. BUT—

When it comes to the "hard work" jobs—the studs, rafters, under-floors; rough boarding and siding; the barn floors; station platforms, crossing planks wherever pretty grain and varnish don't count but "stand-up" does — nothing to it but "Old Faithful" HEMLOCK.

Filmore was born March 2, 1888, and had always lived with his parents excepting for the three years, 1906-'07'08, which years he attended Carroll college. At this institution he became quite prominent in dramatic work, but notwithstanding the bright future before him if he had continued in his studies, he thought of home and the welfare of his parents, as he decided to sacrifice his school work and took up the management of the Porthamel Dairy farm. He made a decided success in this venture, not only financially, but this farm was always a place of spiritual sunshine and happiness when Filmore was and Mrs. W. H. PEWAUKEE WINS COUNTY ATHLETIC MEET

Local athletic meets conducted by the County Y. M. C. A. were held at six different points this spring and 235 boys took part in them. The following schools of the county had meets this year: Mukwonago, Farm School (Dousman), Pewaukee, Sussex, Hartland, and Menomonee Falls. The contestants are scored on the basis of 100 points for each event of the weight class into which they are divided, and the points made by each boy are averaged. Every boy who makes 50 points or more in each event of his weight class is awarded an "honor standard" pin. The following 30 boys out of the 235 won this pin this year: Gilbert Mundschau, Emery Bade, John Sheridan, Glenn Bradley, Emmett Sheridan, George Carroll, Aaron Austin, and Erwin Keller, Mukwonago; Kenneth Johnson, Robert Johnson, Edward Schemmelphenning, Albert Jones, Ruben Schwantz, Edward Burdick, and Joe Borhofen, Farm School; Albert Buntrock, Gilbert Roether, Walter Hanson, Russell Jones, Frank Kolander, Carl Zunker, Edwin Green, Pewaukee; George Shepherd, Clarence Hansen, Joe Donovan, Andrew Sullivan, Walter Wein, Frederick Hochmuth, George Gerbenskey, and Stephen Polaski, Hartland.

Investigated

EFORE we decided to sell G & J Tires, we made a most thorough investigation. Finding that G & J 'G' Tread had demonstrated its efficiency as an anti-skid, and had also shown its extra mileage qualities by standing up under the most severe sort of road tests on thousands of cars, we felt that in the G & J we had a tire that we could stand behind, knowing that it would make good. It is because we have investigated

G & J Tires and are certain of the values they offer, that we recommend them so highly.
