Mr. and Mrs. Dewey Stocks and Barbara of North Prairie visited Mrs. Piper Wednesday.

### Farm Bureau Meeting

The 15th annual meeting of stockholders of the Farm Bureau Co-Op of Jefferson county is the most important meeting in their history as they must have at least 15% of the Common Stock holders present in order to change their name to that of the Farm and Home Co-Op as planned. This name was chosen in a County-wide contest held about a year ago.

The ladies of the Methodist church of Fort Atkinson will serve one of their famous luncheons for members, who are asked to bring along their wives or lady friends for an afternoon of pleasure away from the farm.

A special program has been arranged for the ladies including music and motion pictures. It is hoped the ladies will encourage their menfolk to attend this all-important meeting.

March 20 to 25 has been proclaimed Wisconsin Cooperative Week by Governor Goodland and 1944 is the 100th anniversary of the Founding of the Cooperative Principle in England.

The Farm Bureau Co-Op of Jefferson County just concluded the most successful year of their existence.

The Allocation of \$51,672.66 to its patrons is to be one of the topics of discussion at the annual meeting. Also the election of three directors John Scollard of Sullivan; Anton Steinhoff, Eagle and William Hackbarth of Ft. Atkinson will be held at this meeting.

Be sure and attend and don't forget the date, Wednesday noon, March 22, 1944 at the Methodist Church, Fort Atkinson, Wisconsin. A grand time is guaranteed to all who attend.

### MISS NORMA KRUSE

Miss Norma Kruse, daughter of Mr. and Mrs. John Kruse Sr. of North La Grange, passed away at the home of her parents early Monday morning, March 6th, at the age of 44 years 4 months and 4 days. Although she had never been in the best of health her death was very unexpected. She is survived by her beloved parents, one sister Gertrude Duffin of La Grange, four brothers, Walter of Milwaukee, John Jr. La Grange, Raymond of Ridge Farm Ill., Hilmer of La Grange one brother in law, four sisters in law one nephew one niece Robert and Marilyn Kruse.

She was a member of the La Grange Methodist Church from where the funeral services were held on Wednesday at 2 o'clock in the afternoon, March 8th, conducted by Rev. Ralph Witmer, assisted by the former Rev. Mrs. Raby, with burial at Little Prairie.

Bearers: Francis Connely, Tony Przybyles, Earl Littlejohn, Ralph Bartholif, Edward Pethick, and George Harwood.

Flower assistants: Helen Connolly, Mrs. George Harwood and daughter Georgiana.

Music by Mrs. Fred Bromley, accompanied by Mrs. J. A. Rhoades.

### SAFETY CAMPAIGNS

A number of Wisconsin sportsmen's clubs are planning to launch safety campaigns between now and next hunting season. Groups are studying the records of the last season in the hope that the list of casualties can be shortened in the future.

The Wisconsin accident record last season was substantial but one of the lowest in recent years. Safety posters have been used in recent years but more effective means of making the hunters safety conscious are being sought.

### Heart Prairie

By Mrs. John Bourenske

Mr. and Mrs. Will Papecke entertained a large company of relatives for dinner Sunday, honoring their daughter Bessie's birthday.

John Duerst of New Glarus is visiting his brother Edwill and family.

### Troy Center

By Iva L. Branfort

Town of Troy drive for \$505.20 for the Red Cross Fund March 20th to 25th opens next Monday morning according to Mrs. Seneca Chatfield, the local chairman. The drive will be made with the cooperation of all the School Boards and other solicitors. A meeting of all solicitors is called at the Troy Center School Friday evening, March 17th at 8 o'clock. There will be an out of town speaker.

Let's all help to put the Town of Troy over the top. This all helps our boys in service and our own local chapter to do for them the coming year.

Firemen meeting Monday evening.

Fireman Auxiliary meets with Mrs. Francis Johnson Monday evening.

R. N. A. met last Tuesday evening with Mrs. Laura Branfort.

Mr. and Mrs. Kenneth Mill, Milwaukee spent the week end with their parents, Mr. and Mrs. Frank Mill.

Several from here attended the missionary meeting at East Troy Methodist church Friday afternoon.

### Hebron

Mrs. A. A. Hoffmann

ARTHUR POLLOCK

The death of Arthur Pollock, 72, occurred in his home at 7:30 P. M. Tuesday following a second stroke. Five weeks ago he suffered a stroke and had been ill since that time.

Mr. Pollock who was a retired farmer had lived in this community all his life, the son of David and Sarah Armstrong Pollock was born on April 24th 1871. On April 12, 1900, he married Edith Kuhn who survives him.

Other survivors include a son Harold O. Pollock of Milwaukee and three sisters, Mrs. Elizabeth Pratt and Mrs. Janie VanLone, Rice Lake and Mrs. Marybelle Hackett, Whitewater.

Funeral services were held Friday at 2 P. M. in the Hebron Methodist Church, with the Rev. Francis Foulke of Columbus, officiating. Internment in the Hebron Cemetery.

### PLEASANT VALLEY

We had our P. T. A. Friday night. On the program we had some musical selections; numbers by the Mill school of Palmyra, and then games with the audience participating.

Later refreshments were served; consisting of sandwiches, cookies and coffee.

The ones home with the chicken pox are; Geraldine Northey, Allen Reich, and John Northey.

We have a chart of roosters and every time we drink four glasses of milk we get a star on them.

The first, second and third grade have a chart for reading. There are cats on this and every time they have a good lesson they get a green dot.

**Watch Your Kidneys!**  
 Help Them Cleanse the Blood of Harmful Body Waste  
 Your kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—do not act as Nature intended—fail to remove impurities that, if retained, may poison the system and upset the whole body machinery.  
 Symptoms may be nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—a feeling of nervous anxiety and loss of pep and strength.  
 Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.  
 There should be no doubt that prompt treatment is wiser than neglect.—Use Doan's Pills. Doan's have been winning new friends for more than forty years. They have a nation-wide reputation. Are recommended by grateful people the country over. Ask your neighbor!  
**DOAN'S PILLS**

**Old Favorites In Wartime Roles Please Family**

Apples and cheese are old favorites in this pie. The crust is single and baked ahead of time. Only a small amount of cheese is required for topping. The pie may be served hot or cold.

What are your fondest memories of home? My guess is that it's the wonderful aroma of baking day in mother's kitchen!

Baking is fun and the results are more than gratifying. Not only do you enjoy the food immensely in the process of making, but there's great pleasure in placing a pie, muffins, coffee cake or whatever, that you yourself made, in front of the family. Ovens should be checked frequently to assure success in baking. Follow baking temperature and time carefully; they'll help you get good results.

How about an apple pie tonight? Don't say you don't have time because this is as simple as Simon.

If you have ready-made-up pastry in the refrigerator, then it will be simpler than ever to whip up this pie and surprise the family:  
**\*Apple Cheese Pie.**  
 (Serves 6)

1 cup sugar  
 ¾ cup water  
 3 to 4 tablespoons lemon juice  
 1 quart peeled, sliced apples  
 Baked 9-inch pastry shell  
 ½ to ¾ cup grated sharp American cheese

Combine sugar, water and lemon juice in saucepan and bring to a boil. Then add sliced apples and simmer, covered, until apples are soft, stirring occasionally. Arrange apples in baked pastry shell and sprinkle grated cheese over top. Place under broiler to toast cheese topping, or serve without toasting, if desired. Serve pie warm or cold, as preferred.

**Save Used Fats!**  
 Since cocoa is now obtainable in limited quantities, perhaps you might like to indulge in that favorite of cakes:

**One-Egg Chocolate Cake.**  
 1½ cups sifted cake flour  
 2 teaspoons baking powder  
 ½ teaspoon soda  
 ¾ cup sugar  
 2 tablespoons water  
 5 tablespoons semi-sweet chocolate or 4 tablespoons unsweetened cocoa  
 4 tablespoons shortening  
 1 egg  
 ½ cup milk  
 1 teaspoon vanilla

Mix and sift flour, baking powder and soda. Cook 2 tablespoons sugar, water and cocoa for 1 minute, stirring constantly. Cream shortening and remaining sugar together. Add egg; beat well. Add sifted dry ingredients. Add chocolate mixture, milk and vanilla. Bake in small layer cake tins or one square pan in a moderate (350 degree) oven 20 minutes for layer cake; 30 minutes for loaf cake. Frost with Seven Minute Icing.

**Save Used Fats!**  
**Tea-Time Cake.**  
 (One Cake 10 by 7 by 1½ Inches And 2 Small Loaves)  
 1½ packages fast granular yeast  
 ¾ cup tepid water

**Lynn Says**  
 Handy Hints: Berries and fruits will keep in perfect condition for days if stored in refrigerator, spread on a platter with a piece of parchment or waxed paper covering them completely.  
 Strong flavored foods stored in the refrigerator should be wrapped carefully, or would you rather have your chocolate pudding taste of onion and your beef-steak of cantaloupe?  
 Try a dash of ginger with chocolate icings. It's delicious.  
 When you don't use all your memento from a can, place it in a glass jar, and cover with paraffin.

**Lynn Chambers' Point-Saving Menus**

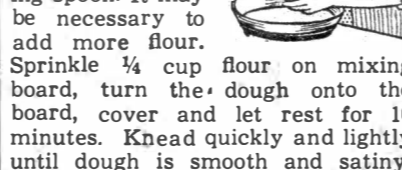

Roast Leg of Lamb  
 Whipped Potatoes Asparagus  
 Celery Cabbage Salad with Thousand Island Dressing  
 Parker House Rolls  
 \*Apple Cheese Pie  
 Beverage  
 \*Recipe Given

1 teaspoon syrup or sugar  
 1½ teaspoons salt  
 3 tablespoons sugar  
 ½ cup lukewarm peach juice  
 ½ cup lukewarm water  
 1 egg, well beaten  
 ½ cup currants or raisins  
 5 tablespoons melted shortening  
 ¼ teaspoon cloves\*  
 ½ teaspoon cinnamon\*  
 ¼ teaspoon nutmeg\*  
 4 to 5 cups sifted flour

\*If these spices are not at hand, use 1 teaspoon vanilla extract for flavoring.

Pour the yeast into the tepid water, add the 1 teaspoon syrup or sugar, stir and let stand 5 minutes or until yeast is thoroughly softened. Put the salt and remaining sugar in the mixing bowl and pour in the peach juice and water, mixed. Add the yeast mixture and 2 cups of the flour. Beat until smooth, then blend in the beaten egg. Stir in the washed, dried currants or raisins, which have been lightly dusted with flour, and add the melted, but not hot, shortening. Sift the spices with 2 more cups of the flour and add to batter, mixing well. At this point the dough should cling to the mixing spoon. It may be necessary to add more flour.

Sprinkle ¼ cup flour on mixing board, turn the dough onto the board, cover and let rest for 10 minutes. Knead quickly and lightly until dough is smooth and satiny. Put into a lightly greased bowl, turning the dough around in the bowl until all sides are coated with fat. Cover and set to rise in a warm place until double (about 1½ hours). Sprinkle the board lightly with flour, turn the dough onto the board, and divide in halves. Cover and let rest 10 minutes.

**Save Used Fats!**  
 Your family appreciates hot breads with its dinner, and these apple muffins with bran are just the thing for hearty appetites. Serve with Swiss steak and vegetables.

**To make coffee cake?** Pull one-half of dough into oblong shape and finish rolling with rolling pin until about the size of pan to be used for baking. Place in the greased pan. Cover and let dough double (about 1 hour). Brush top with egg white, diluted with 1 tablespoon water. Bake in a 375-degree oven for 25 to 30 minutes or until done. Cool, uncovered, on a rack.

**To make 2 small loaves:** Divide remaining half of dough into two parts and shape to fit small greased pans, filling them about half full. Cover and let rise until double. Brush tops with egg white. Bake at 375 degrees for 25 to 30 minutes. Cool, uncovered, on a cake rack.

**Save Used Fats!**  
 Apple muffins can fill your kitchen with delightful fragrance and bring calls for encores at dinner:  
**Apple Muffins.**  
 (Makes 8 medium)  
 2 tablespoons shortening  
 ¼ cup sugar  
 1 egg  
 ¾ cup grated raw apple  
 1 cup bran  
 ½ cup milk  
 1 cup flour  
 ¾ teaspoon salt  
 2½ teaspoons baking powder

Blend shortening and sugar thoroughly. Add egg and beat well. Stir in apple, bran and milk. Let soak until moisture is taken up. Sift flour with salt and baking powder; add to first mixture and stir only until flour disappears. Fill greased muffin tins ¾ full and bake in a moderately hot (400-degree) oven about 30 minutes.

**RUB FOR COLD MISERY**  
Spread Penetro on throat, chest, back—cover with warm flannel—eases muscular aches, pains, coughs. Breathed-in vapors comfort irritated nasal membranes. Outside, warms like plaster. Modern medication in a base containing old-fashioned mutton suet, only 25c, double supply 35c. Get Penetro.

**TRY THEM TODAY!**

\*Spiced or nut muffins!

**Kellogg's ALL-BRAN Muffins**

- 2 tablespoons shortening
- 1/4 cup sugar
- 1 egg
- 1 cup Kellogg's All-Bran
- 1/2 cup milk
- 1 cup sifted flour
- 1/2 teaspoon salt
- 1/2 teaspoon baking powder

Blend shortening and sugar thoroughly. Add egg and beat well. Stir in All-Bran and milk. Let soak until most of moisture is taken up. Sift flour with salt and baking powder; add to first mixture. Stir only until flour disappears. Fill only until muffin pans 2/3 full. Bake greased muffin pans 25 full. Bake in hot oven (400°F.) about 30 minutes. Yield: 8 large muffins.

And remember, too, KELLOGG'S ALL-BRAN by itself is a rich, natural source of the whole grain "protective" food elements—protein, the B vitamins, phosphorus, calcium and iron!

**SNAPPY FACTS ABOUT RUBBER**

In 1912 tropical Americas produced their greatest output of rubber—62,000 tons. It is expected that we will have imported 41,000 tons from these countries in 1943, an important supplement to our synthetic supplies.

Some experts estimate that there are around 300 million Hevea (rubber) trees in Latin America. Most of them are in jungles, difficult to get at.

"Alcohol and driving don't mix" may still be a worthy admonition, but nevertheless, millions of gallons of alcohol are needed as a raw material to make synthetic rubber for the production of tires now so essential to driving.

**INOCULATE ALFALFA—SOYBEANS ALL LEGUMES WITH**

It costs about 12¢ an acre and takes only a few minutes to inoculate seed with NITRAGIN. Yet it frequently boosts yields of alfalfa, clover, soybeans, other legumes up to 50% and more. It increases feeding value of legume hay and pasture, helps build fertility. Tests prove it pays to inoculate every seeding of legumes regardless of nodules on roots of previous crops. NITRAGIN provides selected, tested strains of nitrogen-fixing bacteria. NITRAGIN is the oldest, most widely used inoculant—in the yellow can, at your seedsmen.

Twin plots of alfalfa, growing side-by-side produced these vastly increased yields. Inoculation made the difference. Test by Experiment Station.

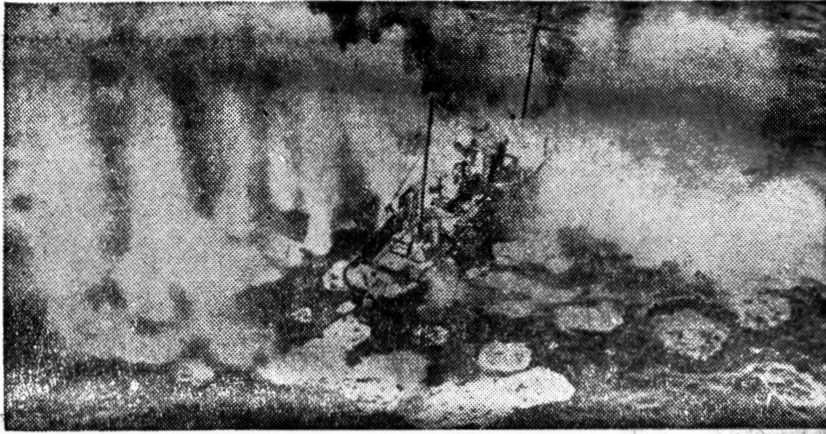

FREE BOOKLETS Properly inoculated legumes can add 50 to 150 lbs. of nitrogen per acre. Free booklet tells how to grow better legumes. Write to the—

**WEEKLY NEWS ANALYSIS**

**National Income Reaches Record Level; Reds Press Closer to Baltic States; See-Saw Fight Marks Anzio Beachhead; U. S. Reinforced in Admiralty Islands**

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysis and not necessarily of this newspaper.) Released by Western Newspaper Union.

Marshall Islands—Caught off Jalait atoll in Marshalls by U. S. naval planes, this Jap freighter was strafed and bombed and set afire.

**NATIONAL INCOME: Record Level**

Boomed by the war effort, the national income of the nation's 50 million workers soared to 142 billion dollars in 1943, with about two-thirds of it spent for goods and services, the department of commerce announced.

Reflecting the country's full swing into high speed production during 1943, income increased 26 billion dollars over 1942, but reflecting the continued shortage of civilian goods, expenditures only went up 8 1/2 billion dollars.

From July to March, government spending reached 60 billion dollars, with 56 billion dollars paid out for the war effort. During this period, government receipts totaled 25 billion dollars, leaving a deficit of almost 35 billion dollars. Because of the recent fourth war loan drive, the government had a cash balance of 19 billion dollars.

**Beverage Purchases**

Of the 90 billion dollars that consumers spent for goods and services in 1943, six billion dollars were expended for alcoholic beverages, the department of commerce revealed. This brought expenditures for liquors up to \$46 per person, compared with \$39 in 1942 and \$26 in 1939.

Despite the record expenditures for alcoholic beverages, however, less liquor was actually drunk, price increases accounting for the rise. Less than 74 million gallons of hard liquor were consumed in 1943, compared with 88 million gallons in 1942. Wine consumption dropped below the 1942 level of 112 million gallons.

Total beer consumed increased during 1943, however, chiefly because of a rise in demand from 10 million to 44 million barrels of the bottled type.

**SOLDIER VOTE: Compromise Bill**

In an effort to give servicemen overseas every chance to vote and yet protect states' rights in supervising elections, congressional conferees drew up a compromise bill.

Under the bill, servicemen overseas from states with no absentee voting laws could use the blank federal ballot with only the names of the political parties designated if their governors approve, or servicemen from states with absentee voting laws could only use the federal ballot if they fail to receive their state ballot by October 1.

So far, 20 states are reported to have adequate absentee voting laws, while nine others are considering such laws or about to convene their legislatures to take up action on the issue.

**RUSSIA: Fighting; Diplomacy**

Nibbling deeper into Nazi defense lines, Red troops pressed ever closer to the Baltic states of Estonia, Latvia and Lithuania, while German forces clung bitterly to their positions behind Russian forces at the southern end of the 800 mile front.

In Finland, there was agitation for better peace terms from the Russians as a basis for withdrawing from the war, with opposition to Moscow's proposals for restoration of the 1940 borders and discussion about disposition of northern Finnish territory.

Crossing the Narva river, Red troops advanced 15 miles into Estonia, while other Russian forces converged on the Latvian gateway of Pskov. Far to the south, the Reds met bitter German resistance as they tried to whittle down Nazi lines to the rear of General Vatutin's troops in Poland.

**EUROPE: Hold Ground**

With concentrations of heavy enemy artillery pouring shells onto their beachhead, and with strong German armored forces stabbing into their lines, U. S. and British troops under command of Allied Gen. Harold Alexander held their own in see-saw fighting below Rome.

Gen. Alexander

Meanwhile, Allied bombers continued to blast at Nazi fighter-plane plants in Germany to reduce aerial resistance to a second front and further attacks on European war industry.

Three times the Nazis lashed at Allied lines below Rome with tanks after heavy artillery preparations, and three times gallant U. S. and British troops gave way, only to bounce back in savage counterattacks restoring lost ground.

**PACIFIC: Gain Admiralties**

Fighting with their backs to the wall in Japan's crumbling string of defensive outposts, enemy troops bitterly resisted U. S. landings on the Admiralty islands to the north of New Britain and the Solomons.

Bringing in strong reinforcements, Gen. Douglas MacArthur's command maneuvered the Japs into spreading their limited strength, however, and robbing them of concerted striking power.

As U. S. doughboys tightened their grip on the Admiralties, American warplanes ranged the whole breadth of the battle area, continuing to pound the big enemy base of Rabaul, on New Britain, former feeder point for Jap barges supplying outlying islands. Occupation of the Admiralties put U. S. bomber forces directly in the path of enemy cargo shipping sailing southward to Rabaul, further weakening the once formidable base.

**AGRICULTURE: Corn Ceiling Sticks**

Shortly after OPA had advised the Chicago Board of Trade president, Philip O'Brien, that the \$1.16 price ceiling on corn would stick through 1944, the War Food administration announced allocation of wheat for food, feed, alcohol, export and lend-lease would begin before June.

In testifying before a senate agriculture subcommittee, O'Brien advocated a \$1.45 corn top to relieve the drain on wheat for feeding hogs, since price supports on pigs make it more profitable to fatten them than sell grain on the market.

O'Brien's statement that the country was consuming more wheat than it produced was substantiated by department of agriculture statistics which show that over one billion bushels of the grain disappeared in 1943 against harvesting of 650 million bushels.

**Support Egg Prices**

Continuing its policy of supporting egg prices at parity, the War Food administration announced that it would pay an average of 30 cents per dozen for the period ending April 15.

Since January 1, WFA bought the equivalent of 3,980,000 cases, or 119,400,000 dozen, of shell eggs. Actually WFA purchased only 280,000 cases of shell eggs, although its acquisitions of dried eggs were the equal of 3,700,000 cases.

Continued WFA carlot purchases will be on the basis of U. S. wholesale No. 1 and No. 2 extras, with 45 pounds minimum net weight.

**IRELAND: Affected by War**

Although war has not come to Ireland, its effects are being felt in the emerald island where the river Shannon flows, with lack of materials contributing toward the closing of many industries.

Recruitment of 130,000 Irish for work in Britain, and enlistment of another 100,000 Irish in the British army have helped relieve unemployment in the country, however. Even so, at least 50,000 are idle. In an effort to hold skilled help for post-war production to balance the nation's economy, many closed industries are keeping people on their pay-rolls.

Certain Irish industries are booming, especially those canning meats and milk for Great Britain. With woolen goods imports cut, Irish textile mills also are humming to produce material for the home market. In all, industries generally are operating at 66 per cent of capacity.

**ARGENTINA: Quell Revolt**

Turbulent South American politics took another dramatic twist with an Argentine army officer's attempted revolt against the new government of ultra-neutral Gen. Edelmiro Farrell, which ousted ex-President Pedro Ramirez because his regime was inclined toward a declaration of war against the Axis.

Because the powerful "Colonels' Club" of army chiefs was behind the move to replace Ramirez, however, the rebellious officer found himself standing alone, with no indication that his 1,000 troops were pining for action. After marching from the capital of Buenos Aires, the rebels surrendered unconditionally.

Argentina's swerving back toward a strict policy of neutrality after the Ramirez government's wavering away from it, revealed that country's insistence on maintaining its complete political independence, linking it up with its sister republic of Bolivia to the northwest.

**COLLEGE EDUCATION: Would Change Titles**

Claiming that professors' titles do not always reflect the real achievements of their holders, President Robert M. Hutchins of the University of Chicago proposed abolishing all teaching distinctions like professor, associate professor, assistant professor and instructors, and calling them all merely "members" of the faculty.

Hutchins' proposal was his latest in a long list of changes he has recommended for streamlining higher American education, the most noted one adopted so far allowing students to complete an ordinary four year course in two years.

Under Hutchins' latest plan, neither present salaries nor jobs would be affected by classifying all teachers merely as members, but some complained that in hard times when compensations would be stabilized, they would not be able to offset economic loss by obtaining more prestige through higher titles.

**Burma Front**

Fighting raged along Burma's mountainous western border country, with Allied troops freeing two divisions of British-Indians trapped by Japanese moving against their rear (lower arrow). In two other sectors, the Allies drove against the enemy in the China hills (middle arrow), and fought to clear a supply road to China in the north (top arrow).

**WOOL: Stocks Plentiful**

Although the nation now has adequate supplies of wool for clothing, the two-pants suit with a vest is still forbidden by the War Production board. The reason is the shortage of manpower, since it takes more work to make those extra garments. It's the same with pleats in women's dresses, but insufficient rayon goods for linings is another reason given.

Imports of wool from Australia were not halted by the Japanese navy, as was feared. Between 500 and 600 million pounds were brought in last year and in 1942. This, plus a domestic crop stimulated by a subsidy of 18 cents a pound has resulted in a stockpile of large proportions.

**DIAMONDS**

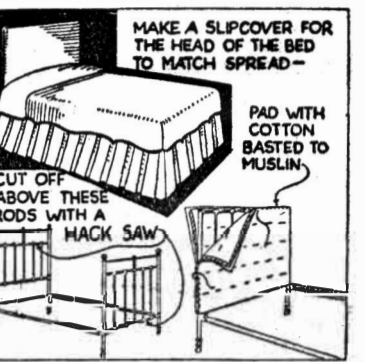

Germany reportedly is receiving industrial diamonds from the Belgian Congo mines by an ingenious smuggling route.

A half million carats have been reaching the Reich from Congo annually, according to London sources.

The diamonds are consigned to neutral Turkey and travel across Egypt, which is under British sovereignty. From Turkey the stones progress through the Axis-controlled Balkan states to Germany, it is believed.

**ON THE HOME FRONT**  
With RUTH WYETH SPEARS

WOMEN who are working in factories are learning about tools. Among other things they have learned that a hack saw will cut iron just as a wood saw cuts wood and that such a saw is a

very handy thing to have around the house. It may, for example, be used for a major operation on an old iron bed. With the aid of such a saw the cage-like bars at the foot may be cut off close to the cross bar at the top of the legs. The head may also be lowered and knobs and projections also may be cut off.

When the bed has been cut down the head may be padded with cotton basted to muslin or with an old quilt. A slip cover may then be made to match the bedspread.

NOTE—This illustration is from BOOK 3 which also contains many other clearly illustrated ways to give your house a

**Mark Twain for Consistent Application of the Rules**

Mark Twain once asked a neighbor if he could borrow a set of books, which he was very anxious to use.

"You're welcome to read them in my library," answered the neighbor, "but it is my rule never to let my books leave my house."

Some weeks later, the neighbor sent over to ask the loan of Mark Twain's lawnmower.

"Certainly," replied Mark Twain, "but since I make it the rule never to let the lawnmower leave my lawn, you will be obliged to use it here."

You breathe freer almost instantly as just 2 drops Penetro Nose Drops open your cold-clogged nose to give your head cold air. Caution: Use only as directed. Use 2-3 times as much for 50c. Get Penetro Nose Drops

**HIGHLIGHTS . . . in the week's news**

**LEGISLATION:** To discourage governmental agencies from issuing directives that do not express the intentions of congress, Rep. Wolcott of Michigan suggested at a committee meeting that hereafter all acts when passed have this footnote added: "By God, we mean it!" He also proposed that all legislation be written in words of one or two syllables.

**JET PLANES:** An article in the official publication "Air Force" states that the new jet-propelled planes can travel at least a hundred miles faster than the present propeller-driven planes. This is because air becomes compressible at speeds of 450 miles per hour, and the effect becomes apparent on the propeller. The jet-driven plane is not bothered by this phenomenon.

WITH SENATOR  
*Alexander Wiley*  
IN WASHINGTON

**DISPOSITION OF PROPERTY**  
This is one of the problems confronting Congress which is receiving serious consideration. The President has turned the job over to Mr. Baruch, but Congress is likely to set up its own machinery for the disposition of surplus property.

**SUBSIDIES**  
On June 30th next, subsidy power in the Executive expires. Recent action in both Houses indicates clearly that Congress is not in favor of consumer subsidies.

**THE O. P. A.**  
On June 30th next the price control powers in the Executive expire. O. P. A. needs to be straightened out. All these conditions clearly point to the conclusion that the Executive will now have to develop a spirit of cooperation with the Congress if he expects to accomplish anything in the solution of problems connected with surplus property, subsidies and O. P. A. Congress is willing to cooperate - is the President?

**A SIGN OF THE TIMES**  
When I ran for the Senate in 1938 there were 15 Republicans in the Senate. I belonged to the first contingent of an ever-increasing number which may mean that after January next, the Senate may be Republican. There are 37 Republicans in the Senate now, the result of a popular revolt against new deal policies.

The recent Barkely revolt and Russel revolt simply mean that these Democrats are sensing the popular trend. The people want Congress to maintain its constitutional independence and not be composed simply of "yes men". The people also want the Congress to know something about the Executive ideas on foreign policy. But unless something happens to change the mind of Mr. Roosevelt between now and next July, President Roosevelt will be the presidential nominee for the Democratic Party.

**THE WAR:**  
One victory after another against the Japanese has raised the hope that Japan may be defeated before Germany. Since Pearl Harbor, America has staged the greatest naval come-back in history. We now have the greatest navy in the world; yet Navy men say the gravest job is still to be done. Japan is contracting her lines, pulling back her forces, just as Germany is doing on the European Continent. Our strategy is to destroy Japan's naval power. But when we come to attack Japan proper, we shall find

**ARE YOU A GOOD NEIGHBOR?**  
America is the land of neighbors. In the United States a man doesn't face the big things of life alone. If he is anxious, there are those to keep vigil with him. If good fortune is unexpectedly his, he need not rejoice in solitude. If calamity sweeps down upon him, he can find strength outside of himself. For America is the land of neighbors.

Two weeks out of the year, people in the Catholic Archdiocese of Milwaukee are asked to be extra good neighbors. The 1944 Archdiocesan Catholic Charities Campaign, March 19 to April 2nd, asks for \$250,000 to continue the work of 32 agencies and institutions which assist the orphan, the aged, the delinquent, the handicapped, the family in trouble. During these two weeks every Catholic adult in the seventeen counties of the archdiocese will be contacted by a cam-

that her island, like Britian, is an island of land-based planes, and that will be "some job". With millions of our boys in Europe, and with the prospect that we may strike at several places at once, these are anxious days for all Americans.

**LETTER FROM SOUTH SEAS**  
A letter received from a friend in the South Seas shows it to be a land filled with mystery and adventure, where cannibalism is still practised and pagan priests initiate one into the brotherhood of the shark. In an hour by air one can be in any one of a dozen worlds. He writes:

"The other night we spent a most enjoyable period at the Anglican Mission School at U. Father Hill an old friend of mine, is a headmaster. We had an excellent dinner of native foods, including the roots of an elephant ear the tuberous-like root of a type of morning glory and a large crab that lives on coconuts. After dinner, sons of cannibal chiefs sang for us not with the deep natural voice of the African Nergro but as the American sings. A hundred feet below us, the turquoise waters above the coral reefs blended to a wine purple, and the fleecy clouds were many shades of apricot, rose and flame.

"The next night found me in another world - not of the black Melanesian but of our brown kinfolk, the Polynesian, the greatest seamen the world has seen not excelling the Vikings. They are primitive people, scarcely touched by our culture, with beautiful dance spears and clubs. My own home is among islands of somber and somewhat sinister magnificence mountains rising abruptly from the shore, covered with extraordinary fine trees, but the foliage is of an unrelieved olive green, and the tops of the mountains almost always hidden in the clouds of mist.

"The other morning as dawn was breaking, I sailed along coral beaches framed by graceful coconut palms, the mirror-like water reflecting the great war canoes that came from almost every village graceful as swans, painted green with white sharks along the edging. "We live on excitement. You miss it if nothing happens. An air attack is as thrilling as a thunder storm, magnificent as breakers on the coast".

These varied experiences are going to leave their impact upon our men. They are coming back loving America more, but with a larger perspective, better fitted to meet the problems of the post war world.

**STATE OF WISCONSIN—WAUKESHA COUNTY.**  
In the matter of the estate of William M. Knight, Deceased.  
In County Court.  
Letters of administration with the will annexed on the estate of William M. Knight, late of the Town of Eagle in said County of Waukesha, deceased, having been granted to Harley B. Knight, of the Town of Eagle, Waukesha County, Wisconsin, by this Court, on the 3rd day of March, 1944:

It is ordered that the time from the date hereof until and including the 15th day of July, A.D. 1944, be and the same is hereby fixed as the time within which all creditors of said William M. Knight, deceased, shall present their claims for examination and allowance.

It is further ordered that all claims and demands of all persons against said William M. Knight, deceased, will be examined and adjusted before this Court at the Court House, in the City of Waukesha, in said County, at a Special term thereof to be appointed to be held on the Third Tuesday of July, A.D. 1944, and all creditors are hereby notified thereof.

It is further ordered that not the time and place at which said claims and demands will be examined and adjusted as aforesaid, and of the time above limited for said creditors to present their claims and demands, be given by publishing a copy of this order and notice for three consecutive weeks, once in each week, in the Eagle Quill, a weekly newspaper, published in the Village of Eagle, in said County, the first publication to be within fifteen days from the date hereof.

Dated March 3rd, 1944.  
By the Court,  
Allan D. Young, County Judge.  
Scott Lowry, Waukesha, Wis. 3-24  
Attorney for Estate.

**V-Mail**  
The United States Navy tells the nation that if it doesn't use V-Mail more widely that overseas airmail might have to be discontinued. This will also affect the Army and result in loss of letters to Palmyra boys over there—unless we co-operate. One average sized transoceanic plane can carry 400,000 V-mail letters, and it would take a fleet of 112 planes to carry the same quantity in ordinary air mail letters. Naturally with the warfare increasing on all fronts, we would not ask for additional planes to carry air mail letters. Mail is as important to many men as medicine. It is the tonic, the spur, the vitamin tablet to a lonesome lad and so V-Mail is given the priority of medicine itself! Since we want the boys to get all the mail possible and since we wouldn't take needed combat planes for mail service, it seems that V-Mail it is.

**Spring Millinery**  
Besides the planning of gardens mentally, since the weather keeps the eager inside with the catalogue, comes the planning of spring millinery which also finds its fashionable following most expectant. February compels the wearer to hold on tight as winds whistle and March doesn't offer much in hatted freedom, either. Windy March is apt to toss a felt for blocks, swish a veil from shoulder to sidewalk and disarrange a top-not of pansies. As the barrenness of winter gives way to the spirited, slightly warmer March days, the nature of man turns to soil while the nature of woman turns to hats. From the spring previews the winds will not have much, in a way of brims, to flutter, but the tons of nodding blossoms and yards of veiling will offer a nice bit of disarray. A feminine reader says women in Palmyra will return to the long hat pins if necessary to keep the millinery in place. Blow gently then, ye winds!

**It's the Truth**  
Every four years the American people exercise the right as citizens to engage in the election of a president. Foreigners do not know the process in which our political parties engage, perhaps, and of the tremendous business of campaigning with its vile mudslinging which follows as part of the office-seekers procedure. There is nothing much refreshing about the scene, for politics seems to be a tough business at best. But other nations know something of it, for from what we read of their elections they too have campaign problems and name-calling. However, during a period of war when unity is so highly desired among the Allied nations, the various angles of so-called "dirty" politics might affect the name of a friendly nation. Winston Churchill has wisely cautioned the British that during our presidential campaign there will be some rough things said about Great Britain, as certain candidates will use method to gain votes from some quarters. Churchill understands politics and advises his countrymen "not to be unduly concerned by anything that should be said or written in the course of that great constitutional process which is taking place." And we are proud that we hold the power and the rights as citizens of this country to proceed with our constitutional process of a presidential election.

**With Music**  
The Office of Civilian Defense is trained to watch and fight fires in case of attack. This precaution seems unnecessary now that the danger of invasion has passed but the custom will not pass into oblivion for it was not a new bit of defense started by this war's need. Back in 1877, published in London, was "Rules for London Fire-Watchers" which was a precautionary measure to protect the town after its Great Fire of the few years previous. "The Sentinel hath a place on top of the highest Steeple whereby he may look all over the Town; one is by day, the other by Night; and every two Hours in the Night he plays half an hour upon a Flagelet, being very delightful in the Night; and he looks round the City; if he observes any smoke or Fire or danger of Fire, he presently sounds a Trumpet and hangs out a Flag toward that Quarter of the City where the Fire is." Our fire wardens missed out on the flute part!

**War Defies**  
The bombing of the monastery in Rome, in order to destroy a fortress of our enemy was unavoidable though regrettable, we understand. Too frequently objects of art, culture and refinement are destroyed by the enemy through wars. History points to the destruction of churches of all sects through all the ages when warring people take a stand. It may be an ecclesiastical center, a corner holding a single shrine or a simple resting place for the weary. Warring man fights his enemy with all the modern equipment of his time and by fair means and too often, foul. Always the sanctity of the sacred is defiled since war itself is not consecrated to the service of love and brotherhood. When an army makes a church a strong hold from which to kill, to destroy the church in battle is not to destroy the faith which built it. Coveting, hating, persecuting and havoc are the hand-maidens of war. Our armies have hesitated to bomb Rome, and have made their military projectiles only those that would impair the enemy and aid our cause. They have tried to protect religious centers since it not the principle of Americans to bomb churches. Nevertheless, the time has come when Rome can no longer be promised safety from attack even its cultural buildings, its historical sites. The Axis are aware of the advantage in making such a city a fortress. Russia knows only too well the outcome! We have been told that Rome is to be the key to the Axis break so then can we fail to attack Rome? If we might sit in Palmyra and choose a spot on our map for our map for waging a battle, it would probably be an open plain far from churches, schools and homes, away from the babies, mothers, the weak and infirm, but we are not given a choice.
