YOUR NEW SOCIAL SECURITY

By K. A. Albrecht

In my first article, I described the social security law as your policy for old-age and survivors insurance and your social security card as the symbol of that policy. Perhaps you are among the millions now protected by this program. It may be that you are among the more than three million now receiving monthly insurance payments under this law. If you're one of the latter, your September check, scheduled to reach you early in October, will show the increased payments given you under the newly amended social security law.

How much will your increase be? Well, to be fair to you and the other current beneficiaries serviced by the office, I would have to give 23,000 answers to that question. There are that many people now getting old-age and survivors insurance payments in this area.

Obviously, I can't be specific. We must ask you to be patient and wait until your September check reaches you in early October. That check will tell you in dollars and cents just how much your benefit payments have been increased.

I do want to say, however, that increases range from about 50% for highest benefit groups to about 100% for low benefit groups. For example—the average benefit of approximately \$26 per month for a retired insured worker will be increased to about \$46. If you are now getting \$40 per month in payments as a retired worker your September check will be for about \$64.

Family benefits will be increased also. For instance, the present maximum family benefit of \$85 will be \$150 under the new law. A widow with two children now receiving \$55 monthly will get about \$110 under the new law. Each of these increased payments to wives, parents, widows and dependent children must be figured individually. The amounts of these increases will depend largely on the amount of the insured retired worker's enlarged benefit. In no case will increased family benefit payments exceed eighty percent of his average monthly wage.

All of the increases I have mentioned apply to present beneficiaries. The new law makes it easier for the workers to qualify for social security protection and become future beneficiaries under old-age and survivors insurance. In my next article I shall discuss this important phase of your new social security.

BIG HARVEST SQUARE DANCE PARTY AT HIGH SCHOOL

Friday night, October 20th is the date of the Harvest Square Dance Party being sponsored by the Palmyra Future Home Makers of America chapter. Games, songs, skits and square dancing will provide an evening of fun. This is to be put on by the University of Wisconsin students, who are members of the Blue Shield Country Life Club. Refreshment will be served and a small admission will be charged. Everyone is welcome. This is to be given at the Palmyra high school gym.

LITTLE PRAIRIE SCHOOL PLANS PUBLIC CARD PARTY

There is a sudden hush, a still silence in the Little Prairie schoolroom. The blinds are drawn, the light dimmed as all the 36 pupils—from tiny six-year olds to the tall eighth graders—and their mothers, too, are waiting expectantly. A click as the films are put into the machine on the screen flashes a Mickel Mouse Cartoon, followed by a Travelogue and then a lesson on "How to Use the Apostrophe."

All felt a surging pride in their new possession, for each individual had worked hard last October so as to make their Card Party a success and thus purchase a much needed movie projector and camera.

This year, too, this month-in fact, Friday, October 20th they will all once again put forth their best efforts towards another Card Party. Now their goal is a radio-phonograph combination for their radio is old, and its sound does not travel through out the school room.

What better way could we find to arouse the children's interest in school work than by providing for them the most modern educational facilities of today.

Do try to come on Friday, October 20th at 8:00 to the Community Hall at Little Prairie, which is located five miles southwest of Eagle. The games of Euchre, 500, Bridge and Sheephead are scheduled and the prizes are very well worth while. The admission fee is nominal—50 cents and a substantial lunch of sandwiches, relishes, cake and coffee will be served. We'll all be looking for you.

CAREER NIGHT TO BE HELD THURSDAY EVENING, OCT. 16

Seniors at the high school will have an opportunity to confer with specialists in a wide range of vocational fields at the fourth annual Career Night Thursday evening, October 16. Keynote speaker at the guidance program is Dr. John Rothney, of the University of Wisconsin. The program will begin at 7:30, in the Waukesha high school auditorium.

Following Dr. Rothney's discussion, seniors and their parents will have an opportunity to consult with men and women who will inform small groups about the educational, personal, and general requirements of vocations in which they are experienced. Some 40 adults will serve as career consultants.

N. J. Panella, director of guidance, explained that the evening would be divided into three sessions following the address. Two conference periods will be provided, as in past year, but a third conference will follow, allowing parents and students to return for additional information or to confer with a third consultant.

The career night program is planned to assist students in crystalizing their plans for post-high school living. By consulting with those who have been in the field, current trends as well as information relative to job opportunities may be obtained first hand.

SHERIFF ROCKTEACHER ISSUES SAFETY WARNING TO AUTOISTS

Chances of a fatal accident are greater on rural highway than on a city street, warns Leslie P. Rockteacher of the county sheriff's office.

State accident figures for 1949, as maintained by the motor vehicle department's safety division, show that three out of every four fatal traffic mishaps in Wisconsin last year occurred in rural areas, the county traffic head declared.

Only 78 out of the 666 drivers involved in rural fatal accidents last year were definitely known to have been farmers or farm laborers, he pointed out.

The following rules were cited as well worth heeding:

1. Obey all posted speed limits, and never exceed the top limits of 65 mi. per hour in daytime and 55 mi. per hour after dark.
2. Stay in the right lane except when passing. Never pass on hills or curves. Slow down for all hillcrests, for you don't know what you may meet on the other side.
3. Do not follow other vehicles too closely.
4. Signal intention to turn right or left.
5. Never drive onto a main highway without stopping.
6. Don't be fooled by the freedom of the open road. Be alert and stay alert to avoid getting hurt.

Manager of the Year

ANYONE DESIRING to walk into a trouble up to his ears can do so easily. All he has to do is pick the manager of the year in baseball—and then prove it.

There have been several managers in both leagues who have done better than a minor job so far. On or off the record, I would say that a few of them had turned out work well above the average and rate at least a sprig or so of laurel or olive.

Grantland Rice There are three managers in the American League who deserve more than a few kind words. They are Red Rolfe, Casey Stengel and Steve O'Neill. There are also three in the National. They are Eddie Sawyer, Leo Durocher and Billy Southworth.

This means six managers out of 16 starters who were above average—leaving only 10 who turned out a routine job, or a trifle worse.

Rolfe started with what looked to be the best pitching staff in the league. Later on he had to use rare judgment to keep it working effectively. He always had a great outfield, especially on the offensive side, but only a fair infield and fair catching.

Stengel had to operate with his two stars, Joe DiMaggio and Tommy Henrich, below par physically. DiMaggio was magnificent on his big days. Ordinary in others, Henrich was of little help. Casey had to lean heavily on Rizzuto, Berra, Johnny Mize, a pretty fair but unheralded outfield and better than a pretty fair pitching staff.

Steve O'Neill apparently inherited disaster. He took over the Red Sox when they had just lost one of the greatest managers of all time, one of the star ballplayers of the decade, Ted Williams, and were eight games out of first place.

The Red Sox were promptly thrown overboard by the critics. O'Neill applied some brand of soothing ointment that was more effective than any cure Tom Yawke's hired men had ever known.

In the National

At this moment Eddie Sawyer and Leo Durocher have the call in the National with Billy Southworth's case depending on the stretch run.

The affable, scholarly Sawyer was far in the lead until his young Whiz Kids started skidding first losing five games in a row, and then skidding a trifle in others.

But it was better than merely normal to take a young team and plant it in first place by a margin of seven games on Labor Day, or shortly thereafter.

After all, when the eight-club field was spread out in April, the assembled experts in a compact body picked the Dodgers on top. A few scattered votes went elsewhere, but the Dodgers were the people. There were five clubs given a chance: Brooklyn, St. Louis, Philadelphia, Boston and New York.

Sawyer's main job, once his young team moved into first place, was to keep them from getting the jitters or the yips, which are too often the result of inexperience roosting too high.

It would be difficult to find a greater job than Leo Durocher has given his Giants.

Durocher had a bad-looking ball club for the first month or so. The pitching especially was on the morbid side. The team couldn't locate itself and back in June was 12 or more games out. There seemed little chance around July fourth that the Giants would finish in the first division. They weren't any better than the Cubs or Reds.

The arrival of Sal Maglie and Jim Hearn was the lifesaver, of course. But it can also be remembered that Durocher had a much better looking outfit working. It was a team that had improved in every way. And much credit for this improvement must be handed to the Lip.

With two weeks left, Leo Durocher could challenge Eddie Sawyer. The Giant manager, always a star field director, was at his best after a poor start. He has had his best year.

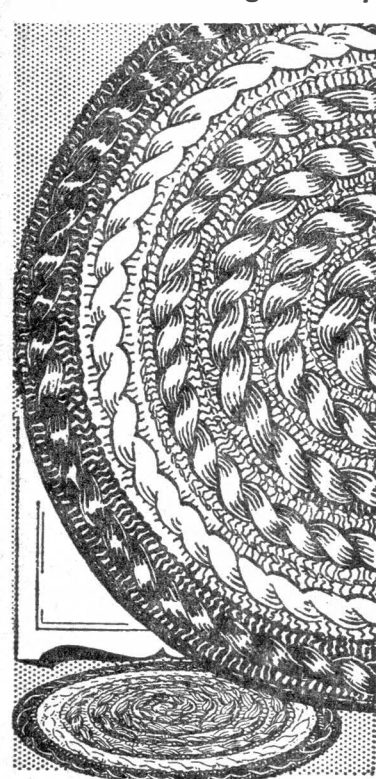

Billy Southworth has never been sensational this season. He has given his fans a good year.

Drive, Approach, Putt

Which is the most important—the drive, the approach or the putt? Johnny Farrell says: "We drive for pleasure, but we putt for money." Jim Barnes says: "The drive sets up the hole."

Hogan can handle all three assignments, day in and day out. Sammy Sneed is a master with wood and iron, but he only wins when he is putting well—and he isn't as consistent around the greens. Yet he tied Hogan in the Los Angeles Open.

But gentle FEEN-A-MINT, taken as recommended, works chiefly in the lower bowel where it removes only waste, not good food! You avoid that weak, tired feeling. Use FEEN-A-MINT and feel fine. Full of life! 25¢, 50¢, or only 10¢.

Without Painful Backache

As we get older, stress and strain, over-exertion, excessive smoking or exposure to cold sometimes slows down kidney function. This may lead many folks to complain of nagging backache, loss of pep and energy, headaches and dizziness. Getting up nights or frequent passages may result from minor bladder irritations due to cold, dampness or dietary indiscretions.

If four discomforts are due to these causes, don't wait, try Doan's Pills, a mild diuretic. Used successfully by millions for over 40 years. While these symptoms may often otherwise occur, it's amazing how many times Doan's give happy relief—helping 15 miles of kidney tubes and filters flush out waste. Get Doan's Pills today!

To keep the children from dirtying various parts of a roller towel before the parts in between are used, pin the back and front of the towel together near the top with a safety pin. Since the towel won't roll then, they'll have to wipe their hands on the front part. When that's dirty, take out the pin, roll the back part to the front and put the pin in again.

The better portions of otherwise worn out bedsheets can be cut up and used as dish towels, especially if you run an embroidered hem around the edges.

HOUSEHOLD MEMOS... by Lynn Chambers

Hot Milk Makes an Easy Sponge Cake (See Recipes Below)

Let's Bake Cake

WHY BAKE a cake? First of all there's a personal satisfaction in it to you and second to your family. Third, it's nice to have a home-baked cake on hand, "just in case," if there are afternoon callers, or if the folks in your house are just plain hungry for something sweet during a busy week-end.

Good cakes are easy to turn out, even though you may be trying one for the first time, if you use standard measuring equipment, and follow instructions to the letter. If you want a cake success every time you bake, you'll always follow measurements accurately, because that leaves nothing to guesswork.

Measure ingredients and set them out before you start mixing. This assures you of not forgetting anything. It also makes mixing the cake easier than starting to blend a few ingredients, then stopping to measure out the next one or two.

Many of the cakes, we have now found, are easier to mix and give better results if ingredients are allowed to stand at room temperature for two hours or so. This makes measuring them at one time a necessity.

A HOT MILK sponge cake is easy to mix and delicate to eat. Frosting is easy as you can see from the picture if you place a lace paper doily on the cake and sprinkle with powdered sugar.

Hot Milk Sponge Cake (Makes 2 8-inch layers)

2 cups cake flour
1/2 teaspoon salt
2 teaspoons baking powder
4 eggs
1 1/2 cups sugar
1 cup milk, scalded
1 teaspoon vanilla
3 tablespoons butter, melted

Sift flour; measure; sift three times together with salt and baking powder. Beat eggs with rotary beater until light and lemon-colored. Add sugar gradually and beat until fluffy. Fold in flour mixture. Add scalded milk, flavoring and melted butter last. Fold until well blended. Pour into two round buttered 8-inch cake pans, bottoms of which have been lined with waxed paper. Bake in a moderate (350° F.) oven for 30 minutes. Cool in pans. Serve with chocolate filling, berries or sugared fruit in-between layers.

HERE'S A small-sized recipe for a fudge cake that uses the egg yolks in the cake, while the whites go into a delicious frosting.

Fudge Fluff Cake (Makes 1 8-inch layer)

1 cup sifted flour
1 1/2 teaspoons baking powder
1/2 teaspoon salt
1/2 cup sugar
1/2 cup shortening
2 egg yolks
1/2 teaspoon vanilla
1/2 cup milk

Sift together flour, baking powder, salt and sugar. Add shortening and egg yolks. Mix vanilla and milk and add to flour mixture. Stir to combine ingredients. Beat 3 minutes (450 strokes) scraping batter down sides of bowl. Pour into

greased, paper-lined 8-inch pan. Bake in a moderate (375° F.) oven about 25 minutes. Let cool 10 minutes before removing from pan. When cool, cut in half and frost:

Fudge Fluff

2 squares bitter chocolate
1/2 cup butter or substitute
1 cup confectioners' sugar
1 teaspoon vanilla
Dash of salt
2 egg whites

Melt chocolate over boiling water. Cream butter with 1/2 cup of the sugar until light. Add vanilla, salt and chocolate and blend well. Beat egg whites until stiff and gradually beat in remaining 1/2 cup sugar. Gently fold egg whites into chocolate mixture. Spread generously on half of cake, put on top half and spread-top and sides.

HERE ARE TWO good recipes for those of you who frequently get sour milk on hand. They're both the good kind of cakes that sour milk makes, light, fluffy, tender and moist.

Spice Nut Cake (Makes 2 8-inch squares)

1/2 cup shortening
1 teaspoon vanilla
3/4 cup brown sugar
1/2 cup granulated sugar
2 eggs, well beaten
2 cups sifted flour
1/2 teaspoon salt
2 teaspoons baking powder
1/2 teaspoon soda
1 teaspoon cinnamon
1/2 teaspoon cloves
1/2 teaspoon nutmeg
1 cup sour milk or buttermilk

Cream together shortening, vanilla and sugars. Add eggs; beat thoroughly. Add sifted dry ingredients alternately with sour milk. Stir in nuts. Pour into 2 greased, waxed-paper lined 8-inch square pans. Bake in a moderate (350° F.) oven for 30 to 35 minutes.

***Pear-Gingerbread Cake (Makes 1 9-inch pan)**

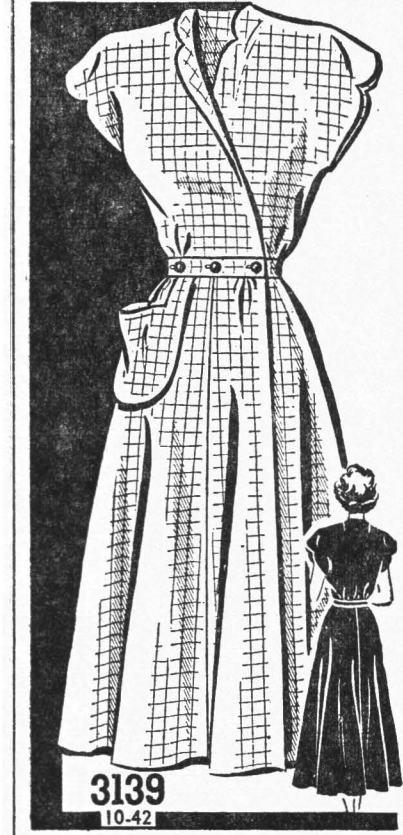

2 tablespoons butter
1/4 cup corn syrup
1/4 cup brown sugar
6 pear halves, cooked or canned
1/2 cup walnut meats
1/2 cup shortening
1/2 cup granulated sugar
1 egg, beaten
3/4 cup molasses
2 cups sifted flour
1/2 teaspoon salt
2 teaspoons baking powder
1/4 teaspoon soda
1 teaspoon cinnamon
2 teaspoons ginger
3/4 cup sour milk

Melt butter in 9-inch round cake pan. Add corn syrup and brown sugar then blend. Place walnut-filled pears in pan. Cream together shortening and granulated sugar; add eggs; beat thoroughly. Add molasses and blend. Add sifted dry ingredients alternately with sour milk. Pour batter over pears. Bake in a moderate (350° F.) oven for 60 to 70 minutes. Invert to serve.

Shortcakes aren't just for summer if you have canned berries. Place rich shortcake dough in a baking dish and cover liberally with cornstarch-thickened berries sweetened and flavored with a dash of nutmeg. Bake in a moderately hot oven until dough is done and serve with thick cream.

Pears make attractive dumplings when they're wrapped with strips of crinkle-edged pastry. Use one-half of a peeled pear for each one. Serve with lemon sauce, spiced with a dash of ginger.
