The ninth annual Thanksgiving party given under the auspices of Booth Lake Camp No. 575, Modern Woodmen of America, goes upon record as the best in the history of the order. One hundred and forty-three tickets were sold and a better or more jolly lot of people never assembled on a similar occasion at the opera house in this city and to say they had a most delightful time is putting it mildly. The must by that

well known organization—Tullar's orchestra—was up to the usual standard of excellence and most highly spoken of by all, while the supper at the Buena Vista House was a first class one and heartily partaken of by the merry dancers. The local camp will net over \$61, a large portion of which amount will go to defray the expenses of the Woodmen's annual banquet. That the committee on arrangements is deserving of special credit for the success of the party none will doubt and in fact all who lent a helping hand to make the dance an enjoyable one have the sincere thanks of the members of Booth Lake Camp No. 575. In connection with the above we will state that Tullar's orchestra has already been engaged for the 10th annual ball to be given on Thanksgiving night in 1903. Good for the Woodmen.

Great tonic, braces body and brain, drives away all impurities from your system. Makes you well. Keeps you well. Rocky Mountain Tea. 35c. J. J. Lorge.

### A GOOD COUGH MEDICINE.

(From the Gazette, Toowoomba, Australia.)

I find Chamberlain's Cough Remedy is an excellent medicine. I have been suffering from a severe cough for the last two months, and it has effected a cure. I have great pleasure in recommending it.—W. C. Wockner. This is the opinion of one of our oldest and most respected residents, and has been voluntarily given in good faith that others may try the remedy and be benefited, as was Mr. Wockner. This remedy is sold by J. J. Lorge.

### AN EVENING HOLD UP.

A hold up on Wednesday evening lost to a couple of farmer boys their robe and whip until the following morning. When a return of goods is voluntarily made, much leniency is exercised by the law. We had cases where whips were taken from carriages by others than the owner without asking. In such cases an investigation by the village marshal would be appreciated. It is our duty to maintain law and order and to protect those who come here to deal with our people.

A. J. Snell wanted to attend a party, but was afraid to do so on account of pains in his stomach, which he feared would grow worse. He says, "I was telling my troubles to a lady friend, who said: 'Chamberlain's Colic, Cholera and Diarrhoea Remedy will put you in condition for the party.' I bought a bottle and take pleasure in stating that two doses cured me and enabled me to have a good time at the party." Mr. Snell is a resident of Summer Hill, N. Y. This remedy is for sale by J. J. Lorge.

# CONCERNING EDUCATION IN WISCONSIN

(Written for The Freeman by Prof. A. F. North.)

A well known teacher often says that the finest compliment he ever received, and which he prizes accordingly, was given him by one of his scholars, now prominent in his profession in this state. It was this: "I never knew what it was to think until I studied under you." And I believe he says the subject of study was confined mainly, if not entirely, to the third grade branches, showing that it is not so much what subject is taught but how it is taught that gives character to it.

The same teacher draws attention to teaching of different stamp. He says: "Visiting a rather popular school, the teacher called up a class in reading. The subject of the lesson was in the Fourth reader and entitled a Pioneer. It was evidently one of his stock pieces and the class went through it triumphantly and with all the graces of mechanical inflection in superabundance. After getting through, evidently expecting the usual compliment, the visitor simply put the question 'What is a pioneer?' They were evidently perplexed and to the question 'Have not any of you ever seen one?' There came out a hearty and unanimous 'Oh no!' as if it was one of the terms used by geologists to designate a fossil of the Tertiary Era." Of course such teaching is valueless. Instead of cultivating the reasoning faculties and stimulating thought, it serves only to stultify both.

But how shall we teach reading so as to get the most and best out of it? And first as to text books? They should be specimens of plain, pure English language, and so graded that the student with a reasonable amount of effort, with the help of an abridged dictionary, a copy of which should be on every desk, taking the place of the grammars, all of which should be banished from the school, excepting one constructed on the principle of "Brown's Grammar of English Grammars," one of which should be placed beside that amazing monument of intellectual power, industry, skill and acumen, the Unabridged International English Dictionary.

But seeing you exclude grammar from the list of your text books, are you to exclude the study of grammar from your curriculum? Certainly not, for I hold that one who is ignorant of the grammar of a language cannot with certainty read or speak that language with propriety, and therefore at this stage the study of the grammar, that is the study of the laws that determine the form of the words and the place they should occupy according to the sense intended to be expressed by them in the sentence,

should go hand in hand with the lesson read. Now every person must know more or less of the grammar of his native language because it is embodied in his daily speech, although he may be unaware of the fact, and the rational way of perfecting his knowledge is first to ascertain how much he knows and find out his weak spots.

To this end, let every member of the class read and after drawing their attention to the facts that every word represents an idea, that certain combinations express thought, and that words are classified with regard to the functions they perform in human speech, have them, for a first lesson, pick out and arrange in two neatly written columns, first all the words in their lesson representing names, and in another column all the words which in combination express thought. Insist as a sine qua non, as an important part of its educational value, that the penmanship be neat and intelligible, a lack of these qualities subjecting such a paper to be thrown aside and their credit for it on their standing in every paper because they are within the compass of every one in the class and their great value cannot be overestimated as aids to study throughout their whole course. The teacher must determine how long this work shall be continued, and also whether it is better in his case to proceed in the same way with the adjective or take up the noun and verb—not the awkward name-word and thought-sets in. If you desire a good farm, here is the opportunity, it will not be on the market long, come and see me at once. Price is \$4500.

## TO IMPROVE THE SHORE.

Dredging of Bay and Building of Breakwater at Pewaukee Lake Reported.

Property owners at Rocky Point and Waukesha Beach are endeavoring to make that the most attractive shore on Pewaukee lake. Gen. Louis Auer, Ferdinand Kieckhefer, Capt. Pabst, of Milwaukee, and Senator A. M. Jones of this city are said to be the parties directly interested in the project. Mr. Kieckhefer has already made many improvements on his property, besides acquiring large additions of adjoining land, and this lends color to the report that these persons intend to dredge the bay and make a large natural yacht harbor perfect by the erection of several hundred feet of breakwater. Col. Jones may erect a summer home on the property.

## Boys' Life Saved From Membranous Croup.

lege, Milwaukee East and South Side high schools, during the current season.

The high school aggregation lost to Lake Mills high school at Lake Mills Thursday afternoon by a score of 24 to 0. The locals were clearly out-classed. Lake Mills has a veteran team and they did not fumble once. They made but one touchdown the first half.

The high school team record shows victories over Milwaukee South Side high school second eleven and Mukwonago high school, a tie with the Mukwonago town team, and a defeat by Lake Mills. The high school ought to have a strong eleven next year, as most of the boys will be back in school.

## AMONG OUR NEIGHBORS

East Troy.

News: S. K. Adams, founder of the East Troy News, but now publisher of the *Biramwood*, Wis., News, arrived here last Saturday morning for a few days' visit with old friends and acquaintances, among whom the News scribe is numbered. He finds many improvements and changes for the better in our village since leaving it, some six and a half years ago, and says that the memory of East Troy and her people will always be a pleasant one to him no matter where he is. At present he is nicely located at *Biramwood*, doing a very satisfactory business and the town in which he resides is a progressive village of some 475 people or over, having advanced quite a bit during his stay there of over two and a half years. He departed yesterday on his return home.

Mukwonago.

Chief: On Friday evening of last week several loads of members of Amethyst Camp, R. N. of A., surprised Mr. and Mrs. G. W. Hudson at their home in Vernon. They found Geo. busy placing a new stove in position and all wrought up as men usually are when engaged at such a task when the stove pipe will not fit. All had an "immense time." Luncheon was served, and a little souvenir was presented to Mr. and Mrs. Hudson, as an expression of the members of the camp of their worth as associates. A force of about one hundred men are grading at Vernon station for a long side tracks. A water tank and coal sheds will be incorporated there. It is rumored that an eating house for trainmen will also be erected.—The Mukwonago man who picked up a roll of bills in a Waukesha hotel, Saturday, the 15th inst., has evidently not regained consciousness since.—Arctus Bayley of Caldwell, completed the ninety-first annual circuit of a useful and exemplary life last Sunday. He has been a resident of Caldwell in the neighborhood of sixty years. He has a brother residing near the center of the state whose life has completed ninety-three such circuits, and a brother, a neighbor, who is close to the ninety tally.—Twenty-five members of East Troy Chapter of Eastern Stars, visited the Chapter at this place last Saturday evening.

Alby has bought ten acres of land of Henry Plucker, just north of the village and already has ground broken for a new home. John may also build a blacksmith shop in the suburbs where he can serve his farmer trade in connection with gathering other practical ideas of farming.

The Palmyra hunters who went to Marinette county to hunt deer returned last Friday and brought with them seven deer. Everyone got one deer and John Fairbrother got the limit the law allows. Those of the party were A. D. Hiles, E. J. Joliffe, Archie Wilson, A. G. Carlin, Z. C. Wilson, and John Fairbrother.  
 H. W. Hunt leaves next week for San Antonio, Texas, where he will spend the winter. Schye of Avalanche, Wis., has bought the Prof. Junkerman cottage on the lake front. He has moved in and will live there this winter.

Saved at Grave's Brink.

"I know I would long ago have been in my grave," writes Mrs. S. H. Newson, of Decatur, Ala., "if it had not been for Electric Bitters. For three years I suffered untold agony from the worst forms of indigestion, Waterbrash, Stomach and bowel dyspepsia. But this excellent medicine did me a world of good. A very pretty wedding was that of Miss Edna Fuller, only child of Mr. and Mrs. E. H. Fuller of Merton, and Charles H. Wittenberg of this village, which was solemnized at 6:30 o'clock Wednesday evening in the presence of about fifty relatives and near friends at the home of the bride's parents. Miss Cora Schneider played the wedding march, and the Rev. W. J. Lemon of Waukesha, performed the ceremony. The bride was attired in a handsome dress of white silk mull and carried pink carnations. She was attended by Miss Ida Wittenberg, a sister of the groom. She wore pink mull and carried pink carnations. The groom was attended by his brother, August Wittenberg. A wedding dinner followed the ceremony. Mr. and Mrs. Wittenberg have gone to housekeeping in the O'Brien residence on Maple avenue. They are well-known and popular young people and The News joins with their friends in wishing them most happiness and prosperity.—News.

A Thousand Dollars Worth of Good.

A. H. Thurnes, a well known coal operator of Buffalo, O., writes, "I have been afflicted with kidney and bladder troubles for years, passing gravel or stones with excruciating pain. I got no relief from medicines until I began taking Foley's Kidney Cure, then the result was surprising. A few doses started the brick dust like fine stones and now I have no pain across my kidneys and I feel like a new man. It has done me a \$1000 worth of good." Dunlap & Williams, druggists.

The mercantile firm of Rudolph Bros. was dissolved on the 21st inst. Several days prior to that date, Mr. Geo. Loos sold his interest to Mr. F. H. Greengo and subsequently the interests of the other partners were purchased by Mr. A. R. Baer. The late firm was organized about five years ago, and has conducted a general store during that time in the I. R. Baer building. A. R. Baer and F. H. Greengo, who now succeed the firm, are well and favorably known, having lived here all their lives.

There was a pretty wedding at the home of Mrs. Fred Thomas, the contracting plumber. The bride, Miss Pauline Thomas and Mr. Henry Gessert. The ceremony took place in the parlors of the residence. Rev. E. C. Grauer of St. Paul's church con-

ducted the marriage rites in the presence of a company of invited guests. The bride was attended by her sister, Miss Julia Thomas, of Milwaukee, and Mr. Edward Ceaser acted as best man. Miss Katie Thomas acted as maid of honor and Mr. Albert Waudrey, as groomsmen. The bride is one of the best young ladies of our village and Mr. Gessert can be easily ranked as a wide awake, careful and enterprising young business man. They will shortly take up their abode in a nice new home on Second St., which was built this year and is one of the finest residences in the village.

## WEEDS

Consumption is a human weed flourishing best in weak lungs. Like other weeds it's easily destroyed while young; when old, sometimes impossible.

Strengthen the lungs as you would weak land and the weeds will disappear.

The best lung fertilizer is Scott's Emulsion. Salt pork is good too, but it is very hard to digest.

The time to treat consumption is when you begin trying to hide it from yourself. Others see it, you won't.

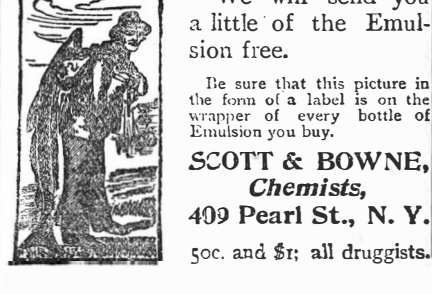

Don't wait until you can't deceive yourself any longer. Begin with the first thought to take Scott's Emulsion. If it isn't really consumption so much the better; you will soon forget it and be better for the treatment. If it is consumption you can't expect to be cured at once, but if you will begin in time and will be rigidly regular in your treatment you will win.

Scott's Emulsion, fresh air, rest all you can, eat all you can, that's the treatment and that's the best treatment.

We will send you a little of the Emulsion free.

Be sure that this picture in the wrapper of every bottle of **SCOTT'S & BOWNE'S** Emulsion you buy.

Current Magazines.

Most prominent and perhaps most interesting among the many special features of *The Outlook's* annual book number is a discussion called "The Most American Books," in which ten authors contribute their views in reply to the question: What are the books most characteristic of American genius and life—literature which could not have been written on any but American soil? Among the writers are Colonel T. W. Higginson, Mr. Brander Matthews, Owen Wister, Hamlin Garland and Dr. Edward Everett Hale. The number has also portraits and sketches of Miss Hegan, author of "Mrs. Wiggs of the Cab bage Patch," Mrs. Lillian W. Betts, whose "The Leaven in a Great City" is attracting attention; H. H. Furness, the great Shakespearean; Booth Tarkington, and Helen Keller—the last a sketch by Edward Everett Hale.

The Christmas number of Scribner's Magazine has been always made notable by the richness and beauty of its pictures, and the fine quality of the sentiment and exquisite workmanship of its stories. The issues of that December number sustain and add to that reputation. It contains eight short stories, most of them illustrated, and special articles and poems, among them a beautiful unpublished poem by Robert Louis Stevenson, written in 1872 when he was a young man. The poem shows the charm of Stevenson's style at the very outset of his career.

The Christmas National comprises one hundred and fifty pages of the brightest and most entertaining text and picture. Admiral Dewey, Secretary Shaw, John Mitchell, Ernest Mc Gaffey and John Bates Clark contribute pithy sentiments for the Christmas season." The Admiral's letter is reproduced in facsimile. There are short stories by ten American writers. Joe Mitchell Chapple discusses Affairs at Washington, illustrated with dozens of new snapshot pictures and portraits of celebrities. Frank Putnam in Note and Comment chats about the intellectual activities of American women. Poultny Bigelow gives us a glimpse of The French Family Point of View. John Bates Clark analyzes compulsory arbitration, and defines its limits. S. Glen Andrus, in The Miracle of the Batopilas Mines, tells how the late "Boss" Shepherd, after his exile from Washington, took millions out of Mexican silver mines—the richest on the continent.

Sauer's Minute Cough Cure cuts the phlegm, draws out the inflammation, heals and soothes the mucous membrane and strengthens the lungs. A. C. Estberg.

## Asthma

"One of my daughters had a terrible case of asthma. We tried almost everything, but without relief. We then tried Ayer's Cherry Pectoral, and three and one-half bottles cured her."—Emma Jane Entsminger, Langsville, O.

Ayer's Cherry Pectoral certainly cures many cases of asthma.

And it cures bronchitis, hoarseness, weak lungs, whooping-cough, croup, winter coughs, night coughs, and hard colds.

Michael Shields was an expert electrician and has been in that business at Omaha for a number of years. He was a Pewaukee lad, born and brought up here. He had but reached his thirtieth year of age at the time of his death.
