A PIONEER DIES.

On Wednesday evening at the home of his daughter, Mrs. H. Earle, occurred the death of John Hage. His illness covered a period of several years. He died peacefully surrounded by his children.

He was born in Averham, Notting-hamshire, Eng., Oct. 10, 1811, was mar-ried Nov. 15, 1838 to Miss Mary Bingham of Novemby, Eng., by whom he had six children, three of whom are now living and residents of Eagle. Samuel, Mrs. H. H. Earle and Mrs. Ann Griffin. This young couple came to America in 1839 and after six years at Griggsville, N. Y., came to Eagle, Wis, and located permanently on a farm east of the village. In his early manhood he joined the Wesleyan M.

to preach in his neighborhood. In the year 1860 he purchased the schoolhouse in the village and converted it into a church. Here he preached un-til 18'70 when the present church was built and H. C. Tilton was chosen pastor.

He was the first trustee of the houses church and continued an active and levout member. His was a Christian on the same basis that you deal with catalogue houses, and give us the life with charity for all. He followed farming for a livelihood, and accumu-lated a handsome estate. His health same amount of time to get the goods which it would require to get them began to fail a few years ago when his from them. property interests were placed under the care of his son, Samuel. His estimable wife preceded him in death many years ago. He was of a pleas-ant disposition with a good word for

all and was never known to have an enemy in his neighborhood. He preached upwards of sixty funeral sermons here and offered prayer

at many Fourth of July celebrations. In his later years he was familiarly known as "Grandpa Hage" and his presence in the village always elicited words of praise from those who knew him best and longest.

Paris, and 300 infantry, four guns and a pompon from Wynburg to Litchen-berg and was to meet Grenfell with 1,300 mounted men at Roviranesfontein to-day. Yesterday morning ear-lý he was attacked by Delarey's force, between Twe-Bosch and Palmeiteknill. The Boers charged on three sides.

"Five hundred and fifty men have come in at Maribogs and Kraaipan. They were pursued by the Boers for four miles from the scene of the ac-tion. They report that Methuen and Paris with the guns, baggage, etc., were captured by the Boers. Methuen, when last seen was a prisoner. I think this sudden revival of activity on the part of Delarey is to draw off the troops pressing DeWet."

BIG STEAMER ETRURIA SAFE.

Towed Into Port at Horta on Sunday Last.

NEW YORK, March 10.—After over a week of anxiety, but little real danger, the royal mail steamship, Etruria, of the Cunard Line made port at Horta, Azores, at 6 o'clock Sunday, with all on board well.

The Etruria sailed from New Yark with passengers and mail for Queens-town and Liverpool Saturday, Feb. 22, and when she failed to reach her destination on time there was some uneas-iness on the part of friends, of those on board because of the fact that all incoming vessels reported very heavy weather at sea. The officers of the Cunard Line, however, expressed confidence that the vessels were merely delayed and that their unbroken record of having never lost a passenger would not suffer because of any mishap to her.

Julius E. Haschke, a Chicago electrician, in discovering a way to apply electricty to iron and steel so as to cut or burn the metal as a warm knife blade does a hard chunk of butter, has brought to bankers and other guardians of public treasure a feeling of insecurity. Mr. Haschke did not invent his carbon point-the name given the metal cutting device-for the purpose of opening bank safes, nor does he wish, so he says, to ald or abet in any way the dark-lantern fraternity, yet he is able to cut into two pieces the thickest iron bar or steel plate.

Scarlet fever, the disease in which the final result is more uncertain than in any other-scarlet fever, the dread of mothers, is about to be conquered. The great Von Leiden has discover-ed a scarlet fever serum which he has reason to regard as an antidote against the awe-inspiring disease. The serum is distilled from the

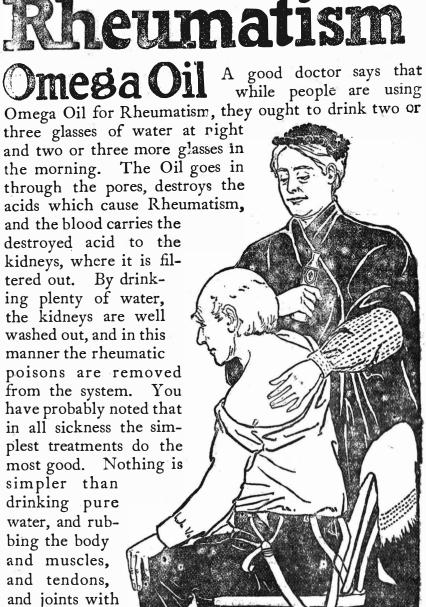

blood of scarlet fever patients on the road to recovery. This is the mode of producing it; After the abatement of the fever which, it should be noted, does not disappear with the rash, but continues in more or less decided form through the progress of the case—after the fever passes away the patient is bled, of course in a man ner that gives no pain, nor is fraught with danger. To obtain the serum the blood is then subjected to a cer tain treatment, the method of which was worked out by Dr. Blumenthal, Professor von Lepden's assistant.

HANNA SUPPORTS ROOSEVELT.

Says the President is Taking the Only Proper Course Respecting Cuba.

Senator Hanna confirms the state-ment that the Cuban tariff problem was inherited by President Roosevelt from the McKinley administration. "I know all about that," said Mr.

Hanna to day, "and I am supporting the President with all my power. He is right. The question came to him from the previous administration, and came in such a way that he could not do otherwise than he has done. When President McKinley passed through Cleveland on his way to Buffalo last summer I visited him in his private car as it was being switched from one road to another. He read me his now famous Buffalo speech and asked me what I thought of it. We discussed the whole question of reciprocity. Mr. McKinley was very much in earnest in that movement, and he laid special stress upon our obligations to Cuba.

"He said a promise had been given the Cubans when they accepted the Platt amendments that the influence of the administration would we used earnestly and sincerely to secure them closer commercial union with the United States. They relied upon that promise and accepted the amendments which solved the vexing question of the relations between Cuba and the United States. If President McKinley had lived he would now be trying to do precisely that which Mr. Roosevelt is trying to do. In my opinion, not only the President but the Republican party is bound to treat Cuba fairly, and I think we will do so before we get through with the question."

Wins Lake Front Suit in Chicago.-R. Crocker must pay Costs.—Sec-ond Victory for Eagle.

Last October Walter A. West of Elkhorn, Wis., purchased the Lake Side farm of Martha V. Johnson, knowing the advantages of Eagle Lake property and being of a speculative turn of mind he engaged a real estate firm of Chicago to negotiate with one J. R. Crocker, an intending purchaser. Mr. Crocker came to Ea-gle to view his prospective property and with large summer home fancies had already named it "Crockerville". He appeared on dress parade in high colors and with all the dignity and earnestness of a million dollar man. entered into a final consumation of the transfer. Mr. West whose motto is "a man, a word" acting in good faith rested his case awaiting the coming of the coin. Days went by but Crocker remained silent. Nothing more was heard of him until the Chicago Dailies contained the startling head lines that Mr. Crocker had commenced an action against Mr. West for expenses incurred while sizing

"Crockerville." Mr. West's honesty and integrity are so well known in Wisconsin that a decision against him on those grounds f20-w4 could not be expected from any court. The decision of Justice Wolff not only exonerates Mr. West from all misrepresentations but furthermore

throws all costs on Mr. Crocker. "Long flow the milky way from Elkhorn West, North to Green Bay."
