The usefulness of the telephone has heretofore been restricted to cities and having been found absolutely indispensable, spreading to the rural districts—the greater field—and here it will be found the greatest boon, going away with the isolation, loneliness and meagre means of protection. The telephone for farmers will result in putting him in touch with the markets, the news, the weather reports, saving weary miles of travel in ordinary transaction of business. The demand is growing greater for the farmer to live in closer touch with the world. The telephone will sell hogs, cattle, products. Knowledge of best quotations quickly buys for the service. It will help to keep the young folks on the farm, it will make neighborhoods of homes stretched along a road for miles. The inclemency of the seasons with their effects on the health, may be avoided in a hundred instances, illness may be checked as quickly by its use as if in town, dollars saved in a hundred ways. Thus the farm life may be made ideal. A life must be built in a workmanlike manner and conducted in a way to give efficient service. A private wire for a co-operative company seldom best conserves the public, and cannot give the outside service that a line built by the man who makes it his business. The telephone is a saver of time, an annihilator of distance and the time is coming when every remote hamlet and nearly every home will be in hourly communication with the outside world, and the farmer using the phone to their business and social advantage.—Exchange.

STRANGE AND THRILLING AFFAIR

Party of Picnickers in Indian Territory Hemmed in by Flames, and Wild Animals and Snakes Also.

COOKSON, I. T., March 17.—Hemmed in by an impassable circle of fire, with all the kinds of animals, both wild and tame, to be found in the Indian Territory, for company, was the lot of a party of picnickers on Mount Cookson, a circular mountain, rising solitary in the valley of the Illinois River, four miles north of this place. It has long been a resort for pleasure seekers, its location and configuration rendering it almost an ideal spot. Almost a perfect circle, its slope, covered by a thick forest, extends gradually upward for nearly 1,400 feet, where it ends in a perfectly level plateau, entirely denuded of timber, of several acres in extent. Owing to the long continued drought forest fires have become of common occurrence and attract but little attention, generally being of small extent and confined to particular localities. Several small fires had been discovered at the base of Mount Cookson, but they caused no alarm, and bright and early last Thursday morning a party of young Cherokees, consisting of half a dozen, laden with baskets and hampers, ascended to the summit of the mountain.

Surrounded by Fire. Shortly before noon the party discovered that the woods below were on fire. Hurdled they sought to escape from their picnic grounds, but discovered that they were trapped, hemmed in by a broad circle of fire, through which no living thing could pass. Their only refuge was the broad and barren plateau at the top of the hill.

Soon they saw they had other dangers to contend against besides fire. The latter, extending around the base of the mountain, had caught in a net all manner of creeping things and beasts. Over the mountain top they came, mustang, deer, wood wolves and wildcats, while close behind came a stampede of cattle, with tails erect and fiery eyes, maddened with terror. Senator Cookson's flock of Angora goats and droves of hogs were followed by rattlesnakes, copperheads and other reptiles.

Realizing their peril, the picnickers fled into an old Indian temple, which has long been the wonder of sightseers in these parts. Fortunately the door of their stronghold was of thick wood. As night drew on the party suffered greatly from the intense heat, but fortunately had a good supply of water. The animals outside had no water, and began to grow irritable and savage.

Beasts in Wild Fight. For a time the strange danger surrounding them had seemed to subdue them, but as the heat grew more intense and the lack of water more apparent they began to fight. Pandemonium broke loose; panthers, wolves and wildcats seemed at once to regain their ferocious instincts. It was Dante's inferno with territorial trimmings.

From almost 11 o'clock Saturday morning until 7 o'clock Tuesday morning, or forty-four hours, their imprisonment continued. Anxious friends and relatives aware of their plight could be of no assistance. Then as if the windows of heaven were opened, a flood of water descended upon the smoking mountain, the fires were extinguished, and, weary, blistered and worn out, the entire party were rescued by their anxious friends.

FOR THE COMPLEXION. The complexion always suffers from biliousness or constipation. Unless the bowels are kept open the impurities from the body appear in the form of unsightly eruptions. DeWitt's Little Early Risers keep the liver and bowels in healthy condition and remove the cause of such troubles. C. E. Hooper, Albany, Ga., says: "I took DeWitt's Little Early Risers for biliousness. They were just what I needed. I am feeling better now than in years." Never gripe or distress. Safe thorough and gentle. The very best pills. A. C. Estberg.

HARD POLITICAL FIGHT.

Illinois Appears to be Having it Just Now.

CHICAGO, March 17.—There is sorrow in the camp of the Lormier-Yates-Hopkins combination. The "failure" of McLean County to stand by the standards of the state administration shocked and scared the supporters of Governor Yates, and the chief executive himself hurried home to Springfield immediately following the Atgeld obsequies.

McLean County, the home of former Governor Pifer, himself a stalwart in the days of the elder Yates, which of the big counties in the state was first to endorse the present executive's gubernatorial candidacy, entirely repudiated him at the primary polls Saturday. It was the reception of the detailed reports yesterday that trimmed the lamp of hope to an exceedingly small blaze in the house of the "regulars." The "antis" at the headquarters of Speaker Lawrence Y. Sherman in the Bravort House were jubilant. A relative of former Governor Pifer of the fight against Railroad and Warehouse Commissioner Neville, and as latter only carried his own district in the City of Bloomington by three votes.

Stirling in Control. Advice received from Bloomington last night relative to the McLean County returns showed that Stirling, candidate for Congress and an anti-Yates man, controlled four-fifths of the 238 delegates. This will enable the anti-administration folk to draft resolutions arraigning the state administration. At a caucus held in Bloomington yesterday those resolutions were discussed. It was said there that it is not probable that the convention will instruct for Charles G. Dawes, but that the delegates will be friendly toward anyone who is not a follower of Yates.

NIGHT WAS HER TERROR. "I would cough nearly all night long," writes Mrs. Chas. Applegate, of Alexandria, Ind., "and could hardly get any sleep. I had consumption so bad that if I walked a block I would cough frightfully and spit blood, but when all other remedies failed, three \$1.00 bottles of Dr. King's New Discovery wholly cured me and I gained 58 pounds." It is absolutely reliable for cure Coughs, Colds, La Grippe, Bronchitis and all Throat and Lung troubles. Price 50c and \$1.00. Trial bottles free at R. D. Townley's drug store.

MISERY OF BOER PRISONERS.

Fighters Under Cronje on Way From Bermuda to England.

BOSTON, March 17.—Thanks to the efficacy of the British censor, the arrival at Halifax of a number of Boer prisoners of war on the steamer Harlock Castle on her way from Bermuda. England has been allowed to pass unnoticed, and very few of the people of Halifax knew of the abject misery of the unhappy Boers, or that they were en route to the English insane asylums after already having been months in the English prison camps in South Africa and the West Indies. All were fighters under Cronje. They were at Magersfontein when the famous Highland brigade was sent in against the Boers and cut to pieces in such thorough fashion by the Boers that it was necessary to organize a new Highland brigade, which is like its predecessor only in name. When Cronje gave up his sword and they were taken prisoners all the men brought from Bermuda on the Harlock Castle were strong and robust men, tanned by campaigning and toughened by hardship and battle.

PRINCE HENRY'S NAVAL PLANS.

During Coming Summer He Will Re-sign First Squadron Command.

BERLIN, March 17.—Admiral Prince Henry of Prussia, after completing the fleet maneuvers during the coming summer, will resign the command of the first squadron, which he has held for two years.

Prince Henry has held all of the positions in the German navy up to that of admiral. The only possible higher command is that of the double squadron maneuvers, which have hitherto been conducted under a general inspector of the navy. It is expected that Prince Henry will be in command of the double squadron maneuvers next year.

Emperor William has ordered the battle ships Wuerttemberg and Baden to appear before Cuxhaven next Tuesday to welcome Prince Henry upon his return to Germany on board the seahound. While the official programme of Prince Henry's reception has not yet been published, the newspapers say that Emperor William will receive his brother on shore at Cuxhaven.

THE STORY OF METHUEN'S DEFEAT.

The General Says It Was a Stampede and the Attack was Furious.

LONDON, March 17.—A dispatch from Kitchener says: "Lord Methuen has sent staff officers with a dictated dispatch, from which it appears that certain particulars previously given are inaccurate. The rear screen of mounted troops was rushed and overwhelmed at dawn. There was a gap of a mile between the ox and the mule convoys. The mounted supports to the rear of the screen, with General Methuen, immediately re-enforced by all the available mounted troops and a section of the thirty-eight battery, maintained themselves for an hour, in without disorder.

"In the meanwhile 200 infantry were being disposed by Lord Methuen to resist the Boer attack, which was outflanking the left of the rear guard. The Boers pressed that attack hard, and the mounted troops, attempting to fall back on the infantry got completely out of hand, carrying away with them in the rout the bulk of the mounted troops.

Every Man Hit. "Two guns of the thirty-eighth battery were thus left unprotected, but continued in action until every man, with the exception of Lieutenant Nesham, was hit. Lieutenant Nesham was called on to surrender and upon refusing to do was killed.

"Lord Methuen, with 200 of the Northumberland Fusiliers and two guns of the Fourth battery, then found himself isolated, but held on for three hours. During this period the remaining infantry, namely 100 of the Lancshires with some forty mounted men, mostly Cape police, who had occupied the kraal near the wagons, also continued to hold out against the repeated attacks of the Boers.

Lord Methuen was wounded and his casualties were exceedingly heavy. Their ammunition was mostly expended, and the surrender was made at about 9:30 o'clock in the morning.

Last To Give In. "The party in the kraal still held out and did not give in until two guns and a pompon were brought to bear upon them at about 10 o'clock, making their position untenable.

It is confirmed that most of the Boers wore our khaki uniforms. Many also wore our badges. Even at close quarters they could not be distinguished from our own men."

COULD NOT BREATHE. Coughs, colds, croup, grip, bronchitis, other throat and lung troubles are quickly cured by One Minute Cough Cure. One Minute Cough Cure is not a mere expectorant, which gives only temporary relief. It softens and liquefies the mucous, draws out the inflammation and removes the cause of the disease. Absolutely safe. Acts at once. "One Minute Cough Cure will do all that is claimed for it," says Justice of the Peace, J. Q. Hood, Crosby, Miss. "My wife could not get her breath and was relieved by the first dose. It has been a benefit to all my family." A. C. Estberg, druggist.

UNION WILL FIGHT TO FINISH.

Paper Makers Hold Enthusiastic Meeting at Stevens Point.

STEVENS POINT, Wis., March 17.—The Papermakers' union held an enthusiastic meeting Sunday. The principal address was made by William Hamilton, national organizer of the brotherhood. The union claims to be more in earnest than ever before and says that this is to be a fight to the finish. David F. Sullivan is assisting Mr. Hamilton in his work here and at Grand Rapids. It is also expected that Samuel Gompers will send a representative here to organize the pulp-makers and other laborers. Two machines in the Wisconsin mill have been shut down since six o'clock Saturday night. Mr. Whiting says they will be started up Monday morning.

MILES' PLANS NOT SANCTIONED.

His Request to Be Sent to the Philippines Denied by the Secretary of War, in Which Action the President Concurs.

WASHINGTON, March 18.—It has developed that Lieutenant General Miles of the army made a specific request to the War Department a month ago to be sent to the Philippines, and in connection therewith submitted a plan by which, in his opinion, the war could be brought to an end without further loss of life on either side. He proposed to employ similar means to those used by him so successfully in his Indian campaigns.

Secretary Root, after due consideration, denied General Miles' request and disapproved the plan submitted. "The papers so indorsed by the secretary were sent to the White House, and the President subsequently concurred in the secretary's action.

The final indorsement, disposing of the matter, is said to bear date of March 5. In effect, President Roosevelt and Secretary Root hold that the war in the Philippines is already at an end, or virtually so, and that the adoption of General Miles' plan involving a change of policy in dealing with the inhabitants of the archipelago, would be unfair to those officials, military and civil, whose work has brought about almost complete pacification.

The incident is now closed, unless the administration should decide to give publicity to all the facts in the case.

SOLDIER'S MYSTERIOUS FATE.

Army Acts on Disappearance of Young New Yorker in Philippines.

WASHINGTON, March 17.—As the result of his unexplained absence for thirteen months, the name of Second Lieutenant Paul R. Stockley, Twenty-first Infantry, is to be stricken from the army register, by direction of the Secretary of War. In order to remove his name from the army rolls it will be necessary to nominate a second lieutenant in his stead. This is the second instance of the removal from the rolls of the name of an officer who has disappeared in the Philippines, and this case is a pathetic one.

Stockley was a member of a wealthy New York family, and he gave up luxury to join the army, going into the ranks. He was ambitious and a splendid soldier, and rose to the rank of second lieutenant. A bright future was predicted for him by officers and men, with whom he was popular.

In January of last year, while campaigning in the Philippines, he disappeared. Since that day he has never been heard from, though his family and the war Department have used every effort to get some trace. He probably was murdered. At any rate, his fate has become one of the unfathomable mysteries of the island.

ROBBED OF VALUABLE GEMS.

Denver Woman Bound and Chloroformed by Two Acquaintances.

DENVER, March 7.—Two men bound and chloroformed Miss Wood in her room at the Avenida Block last night, and stole her diamonds, which are worth from between \$8,000 and \$10,000. The men disappeared in the direction of the Brown Palace Hotel, where they said they were stopping.

Miss Woods made the acquaintance of the men Friday afternoon on the street. They complimented her upon her jewels, which she said had been presented to her. They called upon her last night, and one of the men grabbed both her wrists. Before she

Repairing Neatly Done

Never thought of such a sign for a medicine did you? Well, it's a good sign for Scott's Emulsion. The body has to be repaired like other things and Scott's Emulsion is the medicine that does it.

These poor bodies wear out from worry, from over-work, from disease. They get thin and weak. Some of the new ones are not well made—and all of the old ones are racked from long usage.

Scott's Emulsion fixes all kinds. It does the work both inside and out. It makes soft bones hard, thin blood red, weak lungs strong, hollow places full. Only the best materials are used in the patching and the patches don't show through the new glow of health. No one has to wait his turn. You can do it yourself—you and the bottle.

This picture represents the Trade Mark of Scott's Emulsion and is on the wrapper of every bottle. Send for free sample. SCOTT & BOWNE, 409 Pearl St., New York. 50c. and \$1. all druggists.

could arise his companion ran around behind her chair and held her down. Although she struggled to free herself, they held her fast and tied her hands with a handkerchief. They administered the chloroform and made off with the gems.

Brief Items of Domestic News.

Fifteen thousand crippled and worn out horses are slaughtered annually in Chicago and the meat sold to the unsuspecting public.

At noon Sunday in Hidalgo, a village in Illinois, David Williams killed Edward Ortman, shooting ten bullets into his victim, emptying two revolvers. The men had quarreled several times before, and about a year ago Ortman is said to have attempted Williams' life with a knife, when the latter shot at him twice, but missed.

Last Sunday Mrs. Rixey accompanied Mrs. McKinley on her morning drive to West Lawn Cemetery. Dr. Rixey and Secretary Cortelyou had preceded them, and all entered the vault where President McKinley's remains are, and stood beside the casket as Mrs. McKinley laid a tribute of flowers on it. Dr. Rixey, who was Mrs. McKinley's former physician, found that she takes more interest in people and affairs than she did last September when he left Canton. Her mental and physical condition is good.

Mrs. S. P. Lees of New York City, according to an announcement made by her administrators, has made Central University of Danville, Ky., the beneficiary of a provision in her will bequeathing \$25,000 to the institution and \$15,000 to the S. P. Lees Institute of Jackson, Ky. This makes an increase of \$75,000 in the endowment of Central University in three days.

Suffering among the farmers in the Ozark hills in Missouri and Arkansas along the border line has reached such a degree that extensive relief measures have been made necessary. Many of the country people have been made desperate by the crop failure due to last summer's drought, and 10 per cent of them have felt keen hunger this winter. Offers of aid, however, have been refused.

Knights of Pythias from seven of the middle western states will meet in Chicago this Thursday to engage in a notable jubilee and competition. Illinois, Indiana, Michigan, Wisconsin, Ohio, Iowa, Kentucky, will join forces at the meetings. The knights will gather in the afternoon at the Coliseum. It is expected that no fewer than 20,000 knights from many sections of the middle west will be present.

THEY CRUSH THE POWERS

This is written in mid-October. The long, oppressive summer is quite gone. The fields are signs of the season. Fog, frost, rain, snow,—they are coming. You remember last winter; of 1900 and 1901. The weather was cruel. Ah! the thousands it killed, and the hundreds of thousands it maimed and crippled. Oh, the rough grasp it laid on men at work, women at home, and children in cribs and cradles. Coughs that began before Thanksgiving Day are racking and tearing them still; yes, and growing worse as they dig deeper into the poor, tired throat and lungs. Many were cured by using Benson's Porous Plaster. For the soothing and healing power of these Plasters is wonderful. They conquer the complaints.

THAT ARE KILLING THE PEOPLE.

No other plaster, no other medicine or application, can compare with them. Coughs, colds, backache, rheumatism, lumbago, kidney and liver troubles, asthma, influenza,—they all go down before Benson's Plasters like a snow image in the sun. You can't throw money away on a Benson's Plaster. Everybody is going to use them this season. But make certain you get the genuine. Weak Backs Omega Oil

If you happen to be one of those unfortunate people with a weak, lame, tired, aching back, it is time you were finding out about Omega Oil. Go ahead and try it, anyhow. Once in a while Omega Oil fails to cure a very bad case of long standing,

but there never was a case where it failed to give great relief. Be fair about it, and give the Oil a chance. Have your back rubbed with it every night for a week or two. While you are using the Oil, be careful not to strain the back, and if you can you should not do any hard work. The rubbing should be kept up about ten minutes or more each time Omega Oil is applied. A bad back needs more rubbing and longer treatment than a mild case, and you must be patient. Weak back is sometimes very stubborn, but Omega Oil will be found to work wonders if constantly used. New cases are much easier to cure.

ARNOLD'S PHARMACY, Waukesha, Wis.

A Most Liberal Offer.

All our former readers should take advantage of the unprecedented clubbing offer we this year make, which includes with this paper The Wisconsin Farmer, its special Farmers' Institute Editions and The Poultry Farmer. These three publications are the best of their class and should be in every farm home. To them we add, for local, county and general news, our own paper, and make the price of the four, one year only \$1.50. Never before was so much superior reading matter offered for so small an amount of money. The three papers named, which we club with our own, are well known throughout the West and command themselves to the reader's favorable attention upon mere mention. The Wisconsin Farmer is the great agricultural and live stock paper of the state; The Poultry Farmer is the most practical poultry paper for the farmer, while The Special Farmers' Institute Editions are the most practical publications for the promotion of good farming ever published. Take advantage of this great offer, as it will hold good for a short time only. Samples of these papers may be examined by calling at this office. m4-ml.

Gossipy Notes of Present and Coming Fashions

Points on What is Now in Vogue and What Few Weeks More Will Bring.

WHITE, pure angelic white, will be worn this season, but for the woman with a sallow complexion, white is impossible, and cream becomes the only way out of the difficulty. Blondes will affect coral, and yet only the pink coral is suitable to fair women with honey-colored hair. Yet, how charming it can look on dark beauties with pure pink and white skins!

The most trying fashions are to be found in sleeves. Not every woman can venture with impunity on the "Pagoda" or wide-open sleeves now seen in carriage and open mantles; or approach the sleeves which are tight-fitting to the elbow and burst forth into an immense "puff" from elbow to wrist.

Just now there is a tendency to over-trim everything, and we must guard

or a shoulder-knot of black velvet with a paste or jet butterfly.

Tea gowns are no longer worn on receiving days; they are only good form for unceremonious wear. A smart indoor coat or a tea jacket has the preference. Square bodices, except for empire gowns, are not seen for ball dresses. The rounded or victorian decollete is more fashionable, the square being reserved for wear at dinners and small functions. Many evening skirts have a hip yoke, and front stole of lace. Pelerine flounces are the latest novelty. They are very slightly undulated, much less so than the shaped flounce, and lie flat. These same flounces trim coat bodices and elbow sleeves, etc. The princess skirts are worn with saque boleros. Louis Quinze coats have waistcoats of oyster white satin, exquisitely embroidered or hand-painted. Bodice revers are

against it carefully. Women with narrow shoulders would do well to adopt the very pretty conceit of bodices cut in a wide square extending over the shoulders. This opening is filled in with lace, and strapped across with narrow velvet fastened with gold buttons.

The new boleros are very quaint. They are miniature "sacques" with a Watteau fold at the back. Others have folded or draped fronts.

Slender figures will rejoice in the "barrel hoop" skirts of black glace silk, with rows upon rows of graduated bands of black velvet. These are amongst the latest novelties.

Net, lace, and all manner of filet brode, are seen in lace, and netted

A NEW MODEL RECEPTION GOWN.

chenille covers many slip bodices of rose-colored or turquoise silk. Gold, mother-of-pearl, spangles, seed pearls, and tiny jewels, are used for the new frocks. Tulle and chiffon are exquisitely embroidered, and the most fairy-like effects are produced.

The costliness of dress is exemplified in the opera mantles, which are dreams of beauty; cloth of gold, ermine, velvet and the most exquisite trimmings and embroideries are lavished on them. The new colors would satisfy the most artistic taste. Cool apple and almond greens, moss greens, pale sky and lavender blues, the richest of reds and crimsons, varying with tints of raspberry and cherry. Gold is on everything, and no dress is complete without a touch of black, such as a rosette of black tulle,

no longer made flat, they undulate like a flounce or pelerine.

Panels are again seen on either side of the skirts, a fashion most suitable to stout figures.

Bodices are made with cape collars for day wear. The Russian blouse is still very fashionable; it is strapped with narrow crossed bands of velvet and tiny gold buttons.

All smart waistcoats are open halfway to show a frill or jabot of lace in front, the collar band being of satin, embroidered or hand-painted to match the waistcoat. Very brilliant, thick, black silk, called taffeta crystal, is a most lovely material, quite unlike the old-fashioned black silks. Cachemire or Paisley patterns, in stripes on colored grounds, have the stripes framed by a border of gold; these look well in panne. Black velvet with a white satin ground in stripes, spots, etc., is used for waistcoats and panels. Millinery is quite at its best. Edelweiss is the favorite flower. It is made not only in its natural colors, but in every possible shade and size. White flowers have white foliage, and white hats are trimmed with uncurled feathers and black velvet ribbon. White lace veils, not the small ones, but large lace veils of real lace draping the hats and falling over the hair at the back, remind one of the Spanish-looking hats affected by the lovely Empress Eugenie in the days of her splendor. Dainty tricorne hats suit viquant faces, and look best with a coat or mantle which is adorned with the highwayman's collar.

Black is made glorious by embroideries of gold, silver, steel, or metallic paint, and flimsy materials are considered far more elegant than heavy silks. Matrons are adopting velvets and brocades, but the dainty gowns, flimsy tulle, and exquisite gaze diamante are reserved for the younger members of the community.

Elastic belts sound simple, but in reality they cost quite a large sum for so small a trifle. Imagine them made of the finest and closest silk elastic, glittering with tiny steel nails, and the most artistic steel buckles set with "cabochons" of coral, turquoise, jade, or some other gem.

Very novel are the white kid, hand-painted belts, but nothing is more becoming than the folded belts of broad ribbon, or bias-wise fold of satin, or gold or silver gauze.

The bolero bodice or coat, as it is also called, will be the leading novelty this spring. Basques of various lengths are making an appearance, while skirts are still most clinging around the hips and full at the feet.

There is a talk of paniers and overskirts, but the present skirts are too becoming and graceful to part with for some time to come.

Mrs. Jarley's Wax Works.

Barnum and Miss Everson played piano solos, and Miss Edna Terry and Miss Sarah Dickie gave readings. Light refreshments were served.

LOCAL COMEDIANS

Will Give Entertainment For Benefit Red Cross.

On Wednesday evening, April 2, the three-act comedy, The Arabian Nights, will be given at the Casino theatre by local talent for the benefit of the Emergency hospital. The cast of characters has been announced as follows:

Arthur Hummingtop, Prof. Alex. Ball; Ralph Armerod, R. A. Warden; Joshua Gillibrand, Walter Haight; Dobson, Roy R. Atkinson; Rosa Colombier, Miss Cora Armin; Mrs. Hummingtop, Miss Mabel Steen; Mrs. Gillibrand, Miss Elsie Vanderpool; Daisy Maitland, Miss Edna Terry; Barbara, Miss Bertha Mueller.

The comedy deals with the trials and tribulations of a young married man with Bohemian notions, who not only compromises himself but his friend as well, through his escapades with a variety actress. There is not a slow moment in the three acts, and an excellent production is expected.

Workmen are busy this week in placing the tiling for the floor of the new Waukesha National bank. In front of the entrance doors a copy of the seal of the city, an Indian maiden dipping water from a spring, is being placed in tiling, the design being circular and perhaps five feet across. Outside of the counters the floor will be of tiling in the main bank-room. The decoration of the walls of the bank is nearly completed and is very handsome. The main banking-room has a mahogany finish.

DESTROYED BY FIRE.

Residence of Mrs. King Burns, and Tenants Have Narrow Escapes.

DELAFIELD, March 19.—On Sunday evening, while the wind was blowing fiercely, a blaze was discovered in the residence of Mrs. King, on the western outskirts of the town. The flames gained headway rapidly and it was soon seen that there was no hope of saving the building. Half of the house was occupied by Mr. Bowe, a tenant who, as well as his family, had retired for the night. The husband heard the crackling of the flames and managed to get out of the building before escape was cut off. The children were carried in their thin night clothes to the house of a neighbor. The house is a total loss and only a few light pieces of furniture were saved.

Mrs. King was absent on a visit at the time of the conflagration, and she first heard of it upon arriving here when she found many priceless keepsakes destroyed by the ruthless flames. It is believed that the fire originated from a defective chimney.—Mr. Archie Campbell went out Monday and circled the neighborhood for the benefit of Mr. Bowe and family, who lost their all in the fire Sunday night and the Delafield people responded most generously.

SMART BROTHERS

Practical Horseshoers, Blacksmiths and Machinists. Dealers in Pumps, Windmills, Buggies, Wagons.

We propose to meet the prices of the department stores or catalogue houses.

All we ask is that you deal with us on the same basis that you deal with catalogue houses, and give us the same amount of time to get the goods which it would require to get them from them.

Plank your money down when you order the goods and we will meet each and every price they make and furnish you the same goods at the same price they offer you.

from home because it sounds big to be able to say they ordered from Chicago, etc.

We know of one party who is actually paying more for goods bought away from Eagle than he could buy them for from his dealer here.

This kind of people we can do nothing for, but the kind who are making the dollar go just as far as they can we can and will do something for. Give us a trial on the proposition we make, if you are one of those who are buying away from home.

Bring your catalogue with you. If we fail to furnish the goods without a reasonable excuse, don't give us your confidence again.

Try us once.

We don't fear the result. We are residents of Eagle. We are home merchants. We help pay taxes.

We have to live and consume your product.

No merchant can sell goods cheap on the credit plan, for the dollar invested in goods to-day and sold for cash to-morrow, can be invested in more goods, the following day and the same process of sale may be repeated, but the dollar invested in goods to-day and sold on credit to-morrow, is tied up just as long as you don't get it back, and its earning capacity is stopped for the merchant until he gets it back again.

Can you wonder why the catalogue house has the advantage in price over most of your home merchants.

The catalogue house won't trust you, even demanding the money in advance, with no goods in sight. We will trust you for goods in sight and sell at catalogue price, goods out of sight.

Yours truly,
SMART BROS.
