JURY SAYS MURDER

And Recommended That George Bowers Be Held

CRIME OF PARTICIDE RELATED.

Bowers' Behavior and Character Reviewed. Will Have Hearing in Court This Morning.

The inquest on the death of George Bowers, Sr., who was killed by his son, George, on Sunday, Nov. 2, was held Thursday at the court house before Justice C. E. Armin. District Attorney V. H. Tichenor examined a large number of witnesses. The jury brought in a verdict to the effect that George Bowers, Sr., came to his death as the result of a fracture of the skull caused by a blow from some blunt instrument in the hands of George Bowers, Jr., and recommended that he be held for trial on a charge of murder. The story of the killing was practically the same as that previously told in The Freeman. The principal witnesses in this respect were Miss Martha Gerlach and Charles Maves. Mrs. Sarah Connors, formerly Mrs. Sarah Maduska told of the fight between her half brother, George Bowers, and her son, Frank Maduska and Ed. Wild. The fight was the result of some wrangling over dance music. Bowers had but one glass of cider to drink during the afternoon and appeared to be sober. When he left the house he was singing. Mrs. Connors drove him home as her son, Frank Maduska, was afraid to do, Bowers having threatened his life. Before leaving Bowers is said to have assaulted Peter Maduska without any apparent provocation. Henry Passolt and H. J. Silvernail told of Bowers stopping at their places Sunday afternoon. Mrs. Connors says that he insisted on stopping there so as to show them that he could dress his little boy as well as anybody. Both men testified that Bowers knew what he was doing, and Mr. Passolt says that Bowers asked him not to vote for C. E. Armin as a favor to him. Joseph Gauthier's testimony was probably the most interesting as it shows the character of Geo. Bowers. He said that George Bowers had told him frequently that he was going to kill somebody and go to Yaupun, where he belonged; that his people should give him some of their property. He also said that Bowers told him Saturday that if Armin was elected district attorney he would not serve in that office as he would kill him, then offered Gauthier \$1 to go and call Frank Crank out of his line so he could do him up. Justice Armin gave Bowers thirty days last winter and he had a fight with Crank, which accounts for his enmity toward them. Peter Rickert told of a prisoner telling him once that the old folks ought to give him \$2,500 for a ten acre lot. At another time he had said that he was going to get out, and if his parents did not sell the farm he would spring he would get them up. He then there would be set money for him and his parents, and the girls did not need any. Jacob Wallrabenstein said that Bowers came to his brother's house about 6:30 o'clock Sunday evening with his face covered with blood and asked that a doctor be sent for. He expressed fear that he was going to die, and told of his entering the room and knocking the cards off the floor. Then his mother came up and he showed her to one side, but his father entered and hit him over the head with an iron poker. These did them up, according to his statement, and taking his little boy set at for Nick Wallrabenstein's house. Friday morning George Bowers appeared in the municipal court and Justice C. E. Armin, who presided in the absence of Judge Lullar, appointed D. J. Hemlock as attorney, and returned the head until this morning. Bowers had his head bound up in a large bandage and the portion of the cloth covering his forehead was decorated with either his or some other prisoner's work of art, supposed to be the reputation of an equine. Bowers asked that State Senator-elect Ernest Merton be appointed to defend him but he refused to do so, taking the ground that he would defend no man who was guilty of such an atrocious crime as murdering his own father.

Large Flocks of Geese.

Twelve flocks of geese comprising about 200 birds were observed passing over the city Monday afternoon in a southerly direction. The large number flying together is something unusual.

EDUCATIONAL TOPICS.

By J. K. Lowry, County Superintendent of Schools.

The month of November should be filled with the Thanksgiving spirit. Among the first preparations are the Thanksgiving songs. Select two or three and be sure that they receive careful attention.

We submit a number of quotations with the thought that some teacher who reads may find them helpful. Most of the poems and stories referred to may be found in school libraries or in the homes of the children.

Some Thanksgiving Quotations.

"It is the Puritan's Thanksgiving eve, And gathered home from fresher homes around, The old man's children keep the holiday In dear New England, since the fathers slept The sweetest holiday of all the year."

"But oh, my heart, tho' blithe sunny weather, Blossoms, birds, bees, all have vanished together, Still we've a song, tho' the skies droop with gray, For brave New England's glad Thanksgiving day."

"Wrapped in his sad-colored cloak, the day, like a Puritan, standeth Stern in the joyless fields, rebuking the lingering color— Dying hectic of leaves and the chilly blue of the asters— Leaving, perchance, the croak of a crow on the desolate tree-top."

"November's sky is chill and drear, November's leaf is red and sear."

"For summer's bloom and autumn's blight, For bending wheat and blasted maize, For health and sickness, Lord of light, And Lord of darkness, hear our praise."

"Here on this blest Thanksgiving night We raise to Thee our grateful voice; For what Thou doest, Lord, is right; And thus believing we rejoice."

"O favors, every year made new; O gifts, with rain and sunshine sent! Their bounty overruns our due, Their fullness shames our thankless tent."

Some Thanksgiving Poems.

Thanksgiving, Phoebe Cary. Thanksgiving Day, Lydia Maria Child. Thanksgiving, Margaret E. Sangster. The First Thanksgiving, Colonial Ballads.

For an Autumn Festival, John G. Whittier. That Things Are no Worse, Sire, Helen Hunt Jackson. The Corn Song, J. G. Whittier. The Huskers, J. G. Whittier. Landing of the Pilgrims, Felicia Hemans.

Bonds for a Name, Little Knights and Ladies.

Some Thanksgiving Stories.

An Old Fashioned Thanksgiving (Aunt Job Scrap Bag.) Louisa M. Alcott. Selections from "Oldtown Folks", Chas. "How we Kept Thanksgiving," Harriet Beecher Stowe. The Story Hour, Kate Douglas Wiggin.

Selections from "Standish of Standish", Jane Austin. Pilgrims and Puritans, Moore. Customs and Fashions of Old England, pages 216-222, Earle. Ezra's Thanksgiving Out West, Eugene Field.

(Thanksgiving numbers of Youth's Companion, Ladies' Home Journal, and St. Nicholas.)

The school in District No. 9, Brookfield now enrolls 39 pupils. Last year new text books furnished by the district were introduced into the school.

A new copy of Webster's International Dictionary has been placed in the school in District No. 7, Pewaukee. Number 3 Joint, Waukesha, is to have a new dictionary and a Bartlett dictionary holder for use in the school-room.

Miss Mary Harland has taught Geneva, No. 4, for some years. This year Miss Harland and her pupils are enjoying a delightfully clean school-room. The walls have been provided with tinted, new shades have been provided for the windows and a chair for the teacher and a library case have just been purchased. Slate blackboards have been ordered and there are prospects that a teacher's desk may be placed upon the list of improvements. Good for No. 4!

The school at Mapleton, No. 9, Oconomowoc, is for the sixth year in charge of Miss Katherine Wilkinson. The appearance of the interior of the

He Could Hardly Get Up. P. H. Duffy of Ashley, Ill., writes, "This is to certify that I have taken two bottles of Foley's Kidney Cure and it has helped me more than any other medicine. I tried many other remedies, but none did me any good. Foley's Kidney Cure and it has cured me. Before commencing its use I was in such a shape that I could hardly get up when once down."

W. A. Herron of Finch, Ark., writes "I wish to report that Foley's Kidney Cure has cured a terrible case of kidney and bladder trouble that two doctors had given up.

school-room has recently been much improved. The blackboards have received some attention, the woodwork has been repainted, and the walls have been tinted a pale green. Two fine relief maps have also found their way into the school-room.

Under the patronage of the Teacher's club of this city, the public will have an opportunity of seeing one of the largest collections of copies of famous paintings ever brought to the state. There are two hundred fifty pictures in this collection and they are carbon photographs owned and sent out by a Boston firm. These pictures will be on exhibition in the high school building, Waukesha, from November 19th to November 22nd, inclusive. The gentlemen in charge of this exhibit is an art student and has made a special study of art for the school-room as well as for the home. The collection comprises copies of paintings by Beheer, Dupre, Troyon, Landseer, Potter, Hoffman and many other noted artists. To study these pictures, to recognize them when they are brought before us, to be able to place them, and know that critics consider them real works of art is almost an education in itself. Duplicates of any of these pictures may be ordered, the prices varying according to size and value.

The admission fee is fifteen cents and ten cents for children. The net proceeds are to be used for school-room decoration in this city. Teachers avail yourselves of this privilege, see this collection, and interest your school-officers and friends in coming to see these pictures, too. If one good picture could be added to a school each year, in a few years we would have beautifully decorated walls and more beautiful ideals in the minds of the children.

A man should hear a little music read a little poetry and see a fine picture every day of his life, in order that worldly cares may not obliterate the sense of the beautiful which God has implanted in the human soul.—Goethe.

The following paragraphs are written with the hope that the plan which we submit for properly heating and ventilating a school-room may be brought directly to the attention of school officers or of teachers and patrons and through them to the school boards in those districts in which no provision has been made for the proper distribution of heat and the circulation of pure air in the school-room. It seems almost imperative that we call attention to this matter now for with the approach of the winter days, teachers will find it very difficult to ventilate crowded school rooms by means of doors and windows and in the effort to keep warm, ventilation is often insufficient. The health of teachers and pupils is impaired by breathing and re-breathing the poisonous gases which would surely kill if they are not diluted.

At a small expense the children can be protected from the direct radiation of a highly heated stove and there is great economy in combining the means of heating with those of ventilating the room. In order to prevent pupils who sit near the stove from suffering from heat, the stove should be enclosed by a galvanized sheet iron jacket extending from the floor to a height of five feet. The frame for this may be made by using four iron rods which will answer for legs. The lower end of the rods should be bent so that they may be fastened to the floor by means of screws. Two hoops made of light hoop iron should be riveted to these such distances from the floor as will be convenient for riveting the sheet to them. A space of at least twelve inches should be left between the stove and the inside of the jacket and a door opposite the stove door should be made in the jacket. A hole eight or ten inches in diameter should be made in the floor under the stove, and one of the same made through the foundation. A tin pipe should be closely fitted into these openings, so that fresh air shall come from out of doors. Two means by which the impure air may escape are suggested.

First, Eight registers should be placed in the walls of the school room close to the floor by which the impure air may find an exit. Then the pure air admitted underneath the stove, comes up between the jacket and the stove, makes the circuit of the room, passes from the school room downward through the floor registers to the space underneath the floor, and then passes out through the ventilating flue at the side of the smoke flue. The second way has also been tried in the country schools of this county and has been pronounced most satisfactory. Stove pipe seven or eight inches in diameter should extend from four inches above the floor at the end of the room opposite from the stove and enter the chimney at any convenient point higher than the pipe from the stove. A damper should be fitted into the exit pipe and this as well as the pipe opening under the stove should be closed when starting the fire in the morning. With the jacketed stove, seats may be placed within four inches of the jacket and their occupants will be no warmer than those in the farthest corner of the room. The stove, enclosed in this jacket, may occupy the smallest possible space in a corner of the room not needed for other purposes.

This system will insure a perfect distribution of warm, pure air in all parts of the room and the simple apparatus required in its construction can be fitted up by a workman in any community. You will then have a school room as warm and comfortable as well ventilated as if your school were provided with a furnace and the expense for fuel will be much less.

This is not theory. The plan is in operation in many places and has met the approval of competent judges. J. K. LOWRY, Supt.

Cured of Piles After Forty Years. Mr. C. Haney, of Geneva, O., had the piles for forty years. Doctors and dollars could do him no lasting good. DeWitt's Witch Hazel salve cured him permanently. Invaluable for cuts, burns, bruises, sprains, lacerations, eczema, tetter, salt rheum, and all other skin diseases. Look for the name DeWitt on the package—all others are cheap, worthless counterfeits. A. C. Estberg, druggist.

The Surest Remedy is Allen's Lung Balsam. It never fails to cure a SIMPLE COLD, HEAVY COLD, and all BRONCHIAL TROUBLES. Large Bottles \$1.00. Medium Size 50c. Small or Trial Size 25c. Endorsed by all who have tried it.

Board of Education Meets.

Claims to the amount of \$342.54 for last month were allowed at Wednesday night's meeting of the board of education. The committee on buildings and grounds reported against the purchase of a lot adjoining the Blair school from Thomas Spence for a playground, the price being too high. A committee was authorized to find out the cost of wiring the high school for electric lights, and kindergartens were discussed.

Asleep Amid Flames.

Breaking into a blazing home, some firemen lately dragged the sleeping inmates from death. Fancied security and death near. It's that way when you neglect coughs and colds. Don't do it. Dr. King's New Discovery for Consumption gives perfect protection against all Throat, Chest and Lung Troubles. Keep it near, and avoid suffering, death and doctor's bills. A teaspoonful stops a late cough, persistent use the most stubborn Harshness and nice tasting, it's guaranteed to satisfy by R. D. Townley. Price 50c and \$1.00. Trial bottles free. R. D. Townley's.

Affairs in Elks' Circles.

The Elks initiated Lee Blanchard of Oconomowoc and Charles Baker of this city last Thursday night. Tomorrow evening will be ladies' night, and an excellent program has been arranged. Sunday, Dec. 17, will be memorial day and the annual lodge of sorrow.

Startling, But True.

"If every one knew what a grand medicine Dr. King's New Life Pills is," writes D. H. Turner, Dempseytown, Pa. "you'd sell all you have in a day Two weeks' use has made a new man of me." Infallible for constipation, stomach and liver troubles, 25c at R. D. Townley's.

Rev. Dr. A. A. Kiehle's Lecture.

Dr. A. A. Kiehle of Milwaukee, lectured Friday night at Carroll College on Switzerland. The lecture was interesting and Dr. Kiehle's word pictures were fine. The stereopticon views were taken by the lecturer during his Alpine trip, and some of them were unusually good. The next lecture will be on Egypt, Nov. 21.

Cost of Election was \$233.00.

It cost Miss Julia Rockefeller \$233 to be elected superintendent of county schools, according to her election expenses account filed with the county clerk.

An English Author Wrote:

"No shade, no shine, no fruit, no flowers, no leaves—November!" Many Americans would add no freedom from catarrh, which is so aggravated during this month that it becomes constantly troublesome. There is abundant proof that catarrh is a constitutional disease. Hood's Sarsaparilla has shown that what is capable of eradicating scrofula, a constitutional disease, completely cures catarrh. We cannot see how any sufferer can put off taking this medicine.

DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy. It is the great medical triumph of the nineteenth century, discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, kidney, bladder, uric acid troubles and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmer's Swamp-Root is not recommended for everything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospital work, in private practice, among the helpless too poor to purchase relief and has proved so successful in every case that a special arrangement has been made by which all readers of this paper who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Birmingham, N. Y. The regular fifty cent and dollar sizes are sold by all home druggists.

Dissolution of Partnership.

Notice is hereby given that the firm of Gaspar & Lyons was on Oct. 21st, 1902, dissolved by mutual consent and agreement. Mr. J. L. Gaspar will continue the business. Accounts owing the firm of Gaspar & Lyons can be paid to either party. Waukesha, Nov. 2, 1902. 45w2

HOARD'S DAIRYMAN. Twenty to twenty-four pages every week. Brim full of the experiences and best thought of the successful and practical dairy farmers of the country. There is no other branch of farming where results vary so widely as in the profits from the dairy. This comes largely from the failure of those who handle cows to take advantage of the knowledge and experiences of others. In the columns of HOARD'S DAIRYMAN are discussed freely all questions concerning the crops of a dairy farm; plans and specifications of barns, silos and other farm buildings are one of its leading features. It discusses as no other publication even attempts, the dairy form and dairy temperament in cattle, every issue containing engravings of animals illustrating the relation of form to performance, encouraging an open and free discussion of breeding questions, of much importance and interest to every farmer. It is practically an authority and gives much space to the question of balanced rations—dozens of rations and questions submitted by its readers are answered every issue. Its market reports are complete and weekly reported from all the leading markets of the country. Its veterinary department is under an experienced and able veterinarian. In fact, its columns are brim full of hard practical dairy sense, making interesting and profitable reading for any farmer. HOARD'S DAIRYMAN is read by 3,000 dairy farmers from all over the country and they are a live wide awake set of farmers. Their experiences and their judgment on the various phases of feeding, breeding and management of the dairy farm that are discussed through HOARD'S DAIRYMAN will help any thoughtful and shrewd farmer into successful ways. The editor of Hoard's Dairyman, W. D. Hoard, is a practical dairyman, owning and running his own farm. Every good farmer who earnestly desires to make a success of his dairy business, should be a subscriber. Subscription price of HOARD'S DAIRYMAN is \$1.00 per year, sample copies sent free on application to Hoard's Dairyman, Fort Atkinson, Wis. We have made arrangements with the publishers that enable us to offer HOARD'S DAIRYMAN AND THE FREEMAN, Both one year for \$1.75.

MONEY IN THE TREASURY

Surplus is \$91,237,376 With No Impairment of the Reserve of \$150,000,000.

The annual report of Ellis H. Roberts, treasurer of the United States, was made public Monday afternoon. It shows that the net ordinary revenues for the year were \$562,478,233, and the expenditures \$471,190,857, showing a surplus of \$91,237,376. In comparison with the previous year there was a decrease of \$25,207,104 in the revenues, offset by a falling off of \$38,776,495 in the expenditures. While there was an increase of \$15,859,252.20 in the receipts from customs, the internal revenues, under the operation of new laws, fell off \$35,300,541.67. On the side of the expenditures, the principal changes were a decrease of \$32,243,481.12 on account of the war department, and an increase of \$7,296,149 in the cost of the navy. The total receipts of the year from all sources, including the public debt, were \$1,062,124,037.71, and the disbursements \$969,627,041.29. There was no impairment of the gold reserve of \$150,000,000.

The available cash balance in the treasury July 1, 1902, is reported to have been the largest in our history. It amounted to \$362,187,361.16. For five months, in 1879, the figures on record are larger, but they include funds held against called bonds for the ninety days of notice required by law. The present balance is subject to no such deductions.

With certain deductions there remained in the treasury vaults July 1 a little over \$72,000,000.

While the accounts of the public debt on their face show an increase of \$15,283,512 in the total of the debt, the report says that if allowance be made for the increase of \$57,624,400 in gold certificates the national obligations will be shown not to have diminished by \$42,340,888 during the fiscal year. The bonds held by the treasurer as securities for the notes of the national banks were \$9,807,700 less at the end of the fiscal year than twelve months before; but in the same interval the securities held for deposits in the banks were \$18,953,200 greater; so that the increase in bonds held for both purposes was \$9,872,500.

The banks with securities pledged for circulation on June 30 numbered 4,553, making an addition during the year of 371. Those with pledges for public moneys deposited were 557. For more than 50 per cent of the banks the deposits for circulation are less than \$100,000, and for nearly one-third of the banks the bonds fell below \$25,000 in each case. Out of the 1,501 banks with securities pledged for no more than \$10,000 each with the treasurer. This number increased 235 during the fiscal year. In five years the ratio of gold in the country to total circulation has run up from \$26.52 to \$46.45 to the hundred.

The growth in the volume of money in circulation during the year was \$74,088,589, carrying the per capita from \$27.98 to \$28.48. The element of gold certificates advanced from 40.30 per cent of the total to 41.73 per cent.

The report declares that the demands of the people for notes of small denominations have surprised the closest students of the currency. In 1890 there were 37,065,880 pieces of government paper issued, of the average value of \$6.61. In 1902 the average value was \$4. In July, August and September, 1902, the issues and redemptions were each over 7,000,000 pieces greater than in the same months of the preceding year. The average value has fallen to \$3.62.

In the first quarter of the current fiscal year presentations for redemption amounted to \$39,791,201, an increase of \$3,283,510 over the same period in 1901. The volume of notes outstanding was further increased \$10,321,507, making the aggregate \$366,993,598. The expenses of redemption for the fiscal year were \$163,796, which have been assessed upon the banks at the rate of 0.24 per \$1,000 of their notes redeemed. The amount of subsidiary coin outstanding was increased by \$3,114,852 to \$82,814,940. A recoinage of \$4,331,043 of all kinds of current coins was executed at a loss of \$198,148 on the original face value. There was a marked falling off in the amount of spurious coin and paper money presented.

Beware of Ointments for Catarrh that Contains Mercury.

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Gov. La Follette on Double Taxation.

"It is the man who owns the mortgaged premises, through all the years that he has carried the mortgage for whom I demand, not sympathy, but justice. He has paid his interest at 10 per cent., and then at 8, getting it down slowly—not when or because the owner of the mortgage dodged his tax—but getting it lowered because, and only because, the great commercial influence of the country, acting upon the money market from the world's centers of trade, finally forced the rate down, securing to him, not as a concession, but too frequently as a somewhat tardy right—the regular interest rate.—On top of all this interest throughout the long struggle this man has paid full taxes on the mortgaged premises just the same as though he owned the entire interest in the land free and clear from all encumbrance. He should have been relieved of this before. He should bear this no longer. He demands a law that shall take off from his assessed valuation the amount of the mortgage and assess it against the man who owns the mortgage. Such a law would end

double taxation." Such a law I am in favor of and advocated long before this campaign.

Such a law would have been enacted, and the man with a mortgage on his real estate would have been released from "double taxation" if the last legislature had followed the recommendation made in the first message which I had the honor as governor to submit to that body. In that message I called attention to the fact that California had years before adopted a constitutional provision that real estate mortgages shall be assessed to the owner of the mortgage and the assessed value of the real estate reduced by an amount equal to the mortgage; that Missouri after investigation had adopted a similar constitutional amendment; that the claim made that the California law had increased the interest rate in that state was answered by the census report, which shows that the interest rate in California is lower than in the adjoining states where they have no such law.

I favored then and I favor now the taxation of mortgages against the owner of the mortgage, and an amendment to the law which shall require the assessor to deduct from the assessed valuation of his mortgage as an interest in the land and when so taxed it should be otherwise taxed, for no man should be twice taxed on the same property.

With the complete enforcement of the law taxing mortgages and with the enactment of a law relieving the mortgaged real estate from any assessment, except for the amount of its value less the amount of the mortgage, I believe all controversy respecting mortgage taxation will cease. Such a law I hope to see passed at the next session of the legislature."

A Thanksgiving Dinner.

Heavy eating is usually the first cause of indigestion. Repeated attacks inflame the mucous membranes lining the stomach, exposes the nerves of the stomach, producing a swelling after eating, heartburn, headache, sour rising and finally catarrh of the stomach. Kodol relieves the inflammation, protects the nerves and cures the catarrh. Kodol cures indigestion, dyspepsia, all stomach troubles by cleansing and sweetening the glands of the stomach. A. C. Estberg, druggist.

DAWSON RID OF GAMBLING.

Former Oconomowoc Manager of a Paying Business in the Yukon Country. W. S. McDowell Tells of His Stay in the Klondike.

"The Klondike region is a good country for a young man with character to withstand the temptations of a mining camp, but I would not advise one to go there without he had some definite purpose in view. Good men receive from \$100 to \$200 with board a month."

The above is the answer to a question put to W. S. McDowell, of this city, who recently returned from Dawson City, Yukon Territory, where he spent the past year and a half. "Dawson City," said Mr. McDowell, "is a town of about 10,000 inhabitants, although the population varies as the people come and go from the mines. Dawson is the distributing point for all points up and down the Yukon river. My headquarters were in that city, where I had charge of the grocery and provision department of the Ames Mercantile company, of which W. H. Parsons is general manager, and who by the way, is interested in the Klondike Mines Railway company which proposes to build a line from

Consumption

Salt pork is a famous old-fashioned remedy for consumption. "Eat plenty of pork," was the advice to the consumptive 50 and 100 years ago.

Salt pork is good if a man can stomach it. The idea behind it is that fat is the food the consumptive needs most.

Scott's Emulsion is the modern method of feeding fat to the consumptive. Pork is too rough for sensitive stomachs. Scott's Emulsion is the most refined of fats, especially prepared for easy digestion.

Feeding him fat in this way, which is often the only way, is half the battle, but Scott's Emulsion does more than that. There is something about the combination of cod liver oil and hypophosphites in Scott's Emulsion that puts new life into the weak parts and has a special action on the diseased lungs.

A sample will be sent free upon request.

See that this picture in the wrapper of every bottle of Emulsion you buy.

Dawson to the creeks and eventually to White Horse to connect with the White Pass railroad, opening up much new country and greatly improving transportation facilities. Now the principal means of transportation is by packhorses, dog teams and stages.

"Much of my time was taken up in making special trips for the purpose of soliciting new business and making collections. No, I did not mind the cold much. I left Dawson the first week in March, with the thermometer 54 below, but I did not suffer at all during the whole trip. The clear, dry atmosphere and the absence of wind make it possible to endure the cold. You can depend on it, that when it freezes up about the first of November, it won't thaw before May 1. The winter starts in about a month earlier than here in Wisconsin and hangs on a month longer."

"There is so much exaggeration regarding the country that one cannot believe half he reads. Dawson is much quieter now than when the gold fever was at its height; gambling and dance houses are no longer tolerated and other less demoralizing amusements have taken their places. There are four fine churches in the city, the Catholic being the most popular, although the Church of England, the Presbyterian and the Methodist churches have large congregations. A very nice theatre has been erected, and a stock company of fourteen better-than-the-average people give nightly performances, with a change of bill every week. Our electric light plant was found too small to meet the demands, and this season was enlarged, a new 750-horsepower boiler having been substituted for the old one. The plant supplies the power for all the pumps in the mines for fifteen miles up Bonanza creek. Among other things modern in which Dawson is not lacking are the bathrooms, hotels and restaurants. Milwaukee has nothing that can excel our restaurants."

"I expect to remain in Oconomowoc over winter, but shall return to the Yukon country in the spring." Mr. McDowell is interested in a mining claim which will be worked next summer. He brought back a trunkful of furs, one of the valuable products of the Yukon territory, his collection including marten, lynx, bear and otter. Furs representing something like \$50,000 were shipped out of Dawson this summer. Mr. McDowell said the government was spending thousands of dollars in new buildings and public highways leading to the creek, where gold is being taken out. All the gold within a radius of 150 miles passes through Dawson on its way out into the world.

International Live Stock Exposition, November 29th to December 6th.

A most highly interesting and instructive innovation this year at the International Live Stock Exposition will be the admission of farmers' sons into the student's judging contest. The donors of the premiums for this year's contest, Messrs. Spoor, Clay, and Sanders, have especially specified that the contest be left open to all farmers' sons, regardless of their belonging to any agricultural college.

This will give the colleges an opportunity to prove up their teachings, and boys who are not able to take the time for schooling will have an opportunity to become a part of this educational feast. It will hardly be expected that any recognized, first-class school will, under these circumstances, fail to enter the lists, as the schools would better look to their laurels in such a contest. Fathers whose boys have not attended this exposition should not allow anything to prevent the boys from coming this year to watch this event, so as to prepare themselves for subsequent contests, as undoubtedly at future expositions this feature will remain a fixture. In addition to its being a pleasure to send the boys, fathers should consider it bounden duty to give them the benefit of this week's live stock education, and the man who farms and it not a student striving to improve and put his place on a better footing each year will not be a success.

NEW ROUTE FOR TROLLEY.

Surveyors Seeking Suitable Location For Extension Electric Line.

Detailed surveyors for the proposed electric line between Waukesha, Benet and Oconomowoc have again made their appearance in this section. The route now proposed extends through the south end of town and goes via Silver Lake to Oconomowoc, thus avoiding passing through much valuable lake property on Lake Nagawicka and Nashotah.

The junior cadet team of the Military academy defeated the Milwaukee east division juniors on the St. John campus last Saturday afternoon by a score of 11 to 6. It was a game characterized by fairness, not a decision being questioned. Col. Smythe acted as referee, while Mr. Watson umpired the game. Mrs. George Palmer of Waukesha, paid a farewell visit to Cadet Palmer at the military academy last week, before leaving for her new home at Fort Snelling, Minn. Fred Wardrobe accompanied her. The Ladies' Auxiliary of the Episcopal church met at Mrs. Nels Jacobson's last week Thursday and were royally entertained.

Dr. Hamilton Hunt of Friend, Neb., made a flying visit to his brother, S. W. Hewitt, and sister, Mrs. Frank Jacques, last week. He was accompanied by Dr. Edwin Hewitt of Oconomowoc. Mrs. Sanford R. Perkins arrived from Wyanonig, Ill., last week Wednesday. While here she will be the guest of her sister, Miss Annie Lowerre. The Ladies' Aid society of the Presbyterian church met at the home of Mrs. James Wilson in Summit last Wednesday afternoon. Edward Dittus, who has been employed at the Plankinton, came out from Milwaukee to visit friends last week Tuesday. He left for the Star Lake region last Thursday on a hunting expedition. Mrs. Mena Stamm of Milwaukee, came out last Monday to superintend the closing of his summer home on Lake Nagawicka. Miss Ella Kunz went to Peewaukee last Friday, where she was the guest of relatives over Sunday.

Mrs. Julia Hengen of Genesee depot, and her cousin, Mr. Elmer of Potoski, Mich., were Nestledown guests last Friday. Mrs. Hannah Jones and daughter, Marjory, returned to their school duties in Milwaukee last Sunday evening. Two deer escaped from the Valentine park last Sunday and took refuge on the farm of Henry Becker. Fred Jacobson and wife have moved into part of the Alden house for the winter. Mrs. Irving Cook has returned from a pleasant visit of ten days spent with relatives at Reedsburg. George Hengen lies seriously ill at his home in California. Dr. J. T. Warden of Waukesha, called on his nephew, Cadet Palmer, at the military academy last week. Louis Gorman is ploughing up the west campus, recently vacated by the academy for a large tract, and will raise a crop of rye thereon.

Joseph Ake has recovered sufficiently from his recent severe illness to superintend a force of men at work upon buildings outside of town. The little son of Allen Pelnar died at Waukesha last week. Duncan Peterson and family spent last Sunday with relatives at Beaver Lake. Principal Schwartz of the public school went home to exercise his voting right last week Tuesday. The legal holiday was enjoyed by the pupils as well. Messrs. Will Jacobson and Morris Smith have lately begun the erection of a new house in Wales for Wm. E. Elias. They have filled good contracts in the same town all summer.

SOUTH WAUKESHA.

John Sleep, Sr., is able to be out again after a severe illness. Wm. G. Baird filled a car with potatoes last week. Mr. and Mrs. Venske are busily engaged in furnishing their new home. Their many friends wish them much prosperity and happiness. Wilbert W. Weir rings a louder bell to summon his pupils. A new bell in Dist. No. 7. Miss Alice Wright will compete in the poultry business, having about completed a spacious new henery. The sound of the threshing is still heard in the land. Many people have not yet threshed. Miss Clara Delzer is almost well again, and expects to attend the wedding of her cousin in Milwaukee next week, in the capacity of bridesmaid.

The first social under the auspices of the Y. P. S. C. E. will be held at the home of Miss Mary S. Lowry on Friday evening. The R. P. L. M. S. was very pleasantly entertained this month by Mrs. John Sleep, Sr., at her home. The next meeting will be on the first Saturday in December at the home of the President, Mrs. Elman Dewey, Barney St. It is hoped there will be a full attendance, as there is work to be finished before putting in the barrel which is to be packed on that day. The young people, who have been making blocks for a mission quilt will meet to tie the quilt at the home of Mrs. Wm. G. Baird on Saturday next at 10:30 a. m.

PROSPECT.

Mr. and Mrs. Charles Tillson of Livermore, Iowa, and Mr. and Mrs. Fred Tillson of Waukesha, spent last Thursday at T. S. Winton's. Mr. and Mrs. A. W. Vanderpool went to East Delavan last week to attend the golden wedding of their friends, Mr. and Mrs. H. Bowers. Mrs. Hollenback of Waukesha, spent a week recently with Mrs. Keyes White. Mr. and Mrs. A. Blott of Mukwonago, spent Sunday with Mrs. Mary Carpenter.

Miss Minne Vick is visiting friends in Big Bend. Miss Christine Dyhrman celebrated her seventeenth birthday by giving a dancing party to her friends last Friday evening. There were about thirty guests present. She was the recipient of several presents. Mr. and Mrs. Wm. Steffin are rejoicing over their first born, a son, Oct. 30th. Miss Lucile Verbrich has returned to California, after a short

visit with her parents here. Several of the ladies of the neighborhood took advantage of the opportunity to cast their first ballot Tuesday.

Miss Minnie Fletcher went to Honey Creek last Monday, where she will spend the next two weeks with relatives. Mrs. J. J. Tibbitts is visiting in Port Washington. Mrs. E. E. Vanderpool and Mrs. Janet Klippers spent last Thursday and Friday with Mrs. Minnie Laska in Milwaukee. Mr. and Mrs. David Hunter of Springdale, were recent visitors at J. B. Stewart's. Mr. Hawley Claffin and family of Mukwonago, spent Sunday with Mr. Wm. Klippers. T. S. Winton has rented his home to Wm. Steffin, Jr. He has postponed the first of December. Mrs. Margaret P. Vio of Big Bend, is nursing Mrs. H. Murphy, who has been ill for more than a week. Mr. Walter Kuebler, Miss Alice Bouchier and Miss Marion Thomson of Waukesha, called on friends in the village Sunday afternoon.

Mrs. W. H. Halstead of Fox Lake, is attending her uncle, Mr. John Cheney, who is in quite feeble health. Friends of T. H. Gault will be sorry to hear that he is having serious trouble with his eyes. When he was visiting here in September he thought he had got a cinder in one while traveling but it has developed into some disease that is causing them great anxiety.

BLODGETT.

The neighbors of G. Zimmerman had a hauling bee, helping him move to the Baumgartner farm. They spent two days with twelve teams. Mrs. Carrie Thatcher has finished the fall term of school. After a short vacation she will teach the winter term. The loss by fire of Phillip Meyer on account of the burning of his barn, and hay, caused by lightning some time ago, has been adjusted and a new barn in its place is almost finished by Contractor Wm. Hoch and Sons, of Duplainville. If you get time just step into our schools and see what the little folks can do. A number of our citizens voted the prohibition ticket because that party is an attempt to build up the material welfare of the country as either of the old parties. It goes further and is endeavoring to have laws enacted which will build up the morals of the people and protect the innocent from the greatest of all curses—the traffic in intoxicating liquors for gain.

A heavy coat of ice was found on water Friday morning. After the recent rains ploughing is a pleasure, especially if you have a Menonocet Palls plow. Nic Maurer's associating with old time friends of late has produced a good effect, for the first time in his life he voted the straight Republican ticket last election and is rather proud of it. Mr. George W. Brown celebrated his 84th birthday recently. In good health with sound mind and memory, Mr. Brown bids fair to celebrate any number of coming anniversaries. The new residence of Mr. Heilm is nearing completion and presents a very neat appearance. Robert Hren and wife and Mrs. Hilde of Milwaukee, were Sunday visitors at the old farm home. Husking corn is the daily routine of farmers, favored with fine weather. The iron bridges in town are being treated to a new coat of paint. A number of our farmers took in the horse sale at the Fox River House in Waukesha Saturday. Matt Marks and his carpenters have finished a new barn on the Showerman farm in place of the one which was struck by lightning and burned during the last summer. The last evening in October the small boys reminded the people it was Halloween. Their musical instruments made one think of the ah-market nights in Milwaukee. Willie Zimler, who is attending the Waukesha high school, spent Saturday and Sunday with his parents. August Bruen, a well known young man of our town, has received his commission as U. S. railway mail clerk and his run is on the North Western between Milwaukee and Chicago. The position carries with it a salary of eight hundred dollars per annum.

Mr. A. Gehrke, the railroad section man, has a pug dog five months old that weighs but one pound and four ounces. It is considered quite a curiosity. We ought to be thankful that hens don't go on a strike. A lady has been canvassing the town selling lace, which she claims is hand made, at a dollar a yard. But our merchants show the same from their stock at fifteen cents. Charles Janek and family are busy harvesting a large field of cabbage. Mrs. George Dolph has the distinction of being the first lady voter in our town. The weather the past week has been quite like summer weather and the flowers in the gardens are in bloom as nice as they were in August.

Brookfield friends have always had a kindly spot for Ernest Ives, who has gone to Marshfield. We shall wish him a happy sojourn and much prosperity in his new home. Nic Maurer is becoming quite a favorite as an auctioneer. He conducts a sale for August Glitz this Thursday. Mrs. Ida Coombs gave some very good afternoon exercises at the school in the Calhoun district last Friday. The run made by Billy Scholl for sheriff was a remarkable one in many respects. Having a clear majority of 100 to go against, he and his friends were able to overcome that early and win. His vote in the town shows that he has a great many friends among the Republicans. Deputy Hildebrand accepts his defeat in good grace and says that "he made the best fight he could." The "I told you so" man is in evidence since election. The women did not turn out to the polls as was expected, but then it was their first time. They will use the right of suffrage though in the future. Potatoes are going up in price according to the daily press. They have been ridiculously low this year, but a foreign demand has sent the commission men and buyers snatching through potato belts of the country. Some day Brookfield will furnish enough of them for several cities. Wm. Elger saw our new school held up in broad day light the other day. An enthusiastic politician lugged him for the cigars, and of course they were promptly furnished. Only one did Elger say. "Barnum" that was all he saw. There was a happy party at Mr. and Mrs. Wm. Elger's home Friday afternoon and evening. All spending a pleasant evening and wishing the bride and groom much enjoyment.

Little Carl Hren has again been attacked with a severe case of inflammatory rheumatism. The tooting of the thrashing machine can still be heard. Arthur, an infant four months of age and only child of Mr. and Mrs. Albert Zinke, was called to another and better world last Friday. Funeral services were held at the home Monday afternoon. Rev. Mr. Diehm of Waukesha, officiated. Interment was at Prairie Home cemetery.

"This lovely bud so young, so fair, Called hence by early doom. Just came to show how sweet a flower, In Paradise would bloom."

We had a very pleasant time with George Blodgett election night, it being one of the times we always have when George announces the program. We halted with George Solley at Springdale and had "a little more cider too." In Waukesha after a midnight lunch which was fine, at Chett Goff's restaurant, we listened to the returns of the state and county. And enjoyed a ride like a trolley ride home.

WATERVILLE.

Thomas Hanford and family visited at John Jenkins' Sunday. Mrs. Martha Neff's mother has returned to her home after spending a week here. Mrs. Burkholz was a guest of her sister, Mrs. Schuster, Sunday. John Ferris entertained relatives Sunday. Mrs. James Thomas went to Waukesha last week to visit her daughter, Mrs. D. Moses. Albert Neff and Mrs. Martha Neff went to Waukesha on business Friday. Moriah church is to have a literary social Wednesday, Nov. 19th, to be held at Evan Thomas'. Mrs. Roland Roberts has gone to Lannon to visit her daughter. GENESEE.

It is reported that the Stubbs family of this town has fallen heirs to the sum of twenty-two thousand dollars, bequeathed by a relative in Great Britain. Miss Dinet Jones of La-Crosse, who was last week attending the funeral of her aunt, Mrs. E. Williams, returned to her home last Monday. A young child of Mr. and Mrs. Peinar was buried last Friday. The corn crop for this year is well high secured. Mrs. John M. Jones and Mrs. John Morris, who were off to visit their respective parents in Nebraska, returned home last Friday. John J. Rees of the town of Ottawa has come to reside at the village of Wales, where he will conduct a meat market. It is claimed a doctor from Mukwonago, has done good work in the case of Thomas J. Williams. Daniel Williams of Summit, was in town last week attending to legal matters. Threshing is about completed for this season. W. W. Ellis of Waukesha, was in town the latter part of last week attending to matters in his line of business. Prof. W. H. Williams of Madison, stopped over at Wales Station to attend to matters relative to the elevator at that place, for which he has been president all along.

BROOKFIELD.

Frank Maynard of Milwaukee, was in town last Thursday. Mr. and Mrs. C. L. Crossman of Waukesha, spent Sunday with friends here. Mrs. E. Labar and children spent Sunday at L. Barker's. Charles Ormond's family have moved to their farm recently occupied by August Hahn, and known as the Dixon farm. Charles Wadsworth of Merrill Park, was in town recently trying to locate his

brother, Edgar, who left town last Thursday and has not been heard from. His many friends hope for his speedy and safe return. Mr. and Mrs. Walter Brown of Hartland, are spending a few days at A. F. White's.
