There are people in every community who esteem it an especial honor to do good to those farther away evidently with the feeling that those at home are safely theirs. Such people are often very successful and are frequently honored by those who they mistrust and misuse. The standing thus gained is used to reflect on their benefactors be it intentionally or otherwise and their action is deserving of look straight for favors from those whom criticism. We always advise our readers to be patriotic and deal gently with their fellowmen and hope that this notice will not escape attention. Prof and Mrs. F. W. Lough will be at the M.
