If you wish to expect something from
fraternity you must do something to-
wards its advancement. While the ties
of blood are often very strong between
some families, fraternal bonds bring
greater advancement to mankind,
raised a storm of comment and criticism
papers of all kinds and descriptions have
abused and found fault, instead of wait-
ing until he had edited and judged of its
worth. He perhaps has drawn the line
pretty fine on some of the ads. but we
venture the assertion that the assertion
that the edition will be clean and may
be read by any one. Whether it would
pay financially to be continued in a ques-
tion which time can settle.

The Republican State central committee
has issued circulars wherein the Repub-
lican state convention is called to meet

be held in Philadelphia June 19 and also
to elect Presidential Electors for the com-
ing general election.

Those who have families dependent
upon them, and have nothing but their
own strong arms and industry to offer
for their protection, should never forget
that there will come an hour which will
take that protection away, and leave
want and destitution in its place unless
they otherwise provide. It is a sacred
and solemn duty binding on us all that
we shall systematically and regularly ap-
ply a part of our income for such pro-
vision. That provision must be in the
safest source, where the ordinary dan-
gerous contingencies of business will not
affect it. If you are inclined to join a
fraternal insurance society we suggest
that you make applications to the Mod-
ern Woodman of America, who have a
camp here or to the Catholic Order of
Foresters, who have recently establish-
ed a court at Eagle. A moment's hesita-
tion will sometimes make you late

In 1895 Eugene Watrous bought a
chester white pig from Morvin W. Bover
for breeding purposes from which he
has raised one hundred and two pigs.
The amount realized is \$897, not includ-
ing the pig bought which cost him \$200.
This is a matter of which may set dairy
farmers to thinking.

On Monday George E. McCabe one of
the happy and prosperous farmers in the
north part of town was at the village
with live stock for the market in the shape
of twelve hogs five months old that weigh-
ed 2350 pounds. Geo Cummings was the
purchaser at the price of \$4.30 per hundred.
The average farmer may look at this
with doubt but if he wishes to convince
himself of the truthfulness of this state-
ment all he need to do is to go north
among the genial descendants of the Sons
of Erin's Isle and learn to be a successful
and wealthy tiller of the soil.

President Bossingham, Trustee Grosse,
copy merchant Mayhew, musician Par-
tridge and medicine haw! Lorge consti-
tuted the snow shovel brigade on Jericho
street last week. They were the advance
guard of a large flood which had his
source up near Barber Reeves residence
and an extra reservoir near McKorn's
shop. They did excellent service and
kept the sidewalk from drowning. Let
us all sing a song of praise. As soon as
our finances will allow such work will be
under the direction of the street com-
missioner on report made by the marshal.

After the Milwaukee Sentinel sarcasti-
cally noted the anti-imperialism of Col.
Bryan, it referred in the same way to
Hon. Carl Schurz as a candidate for the
presidency of a prospective new party.
The Republican Sentinel evidently does
not know that a foreigner cannot be
President or is trying to reflect on the
Germans. Well, The Sentinel can't make
votes by slinging slurs at Carl Schurz.

ONE DOLLAR PER YEAR

MUKWONAGO is the largest town in Waukesha county. There is a reason for this. There is also a peculiar provision in connection with this fact. To the first boy or girl under 18 most clearly stating the reason for this and the peculiar legislation in connection, we will send The Eagle Weekly Press for six months free of charge. Here is your chance boys and girls.

ELSEWHERE in this issue, we publish Gov. Scofield's appointment of Friday May 4th as Arbor and bird day. This is a day that all should remember school children as well as their parents. To beautify the lawns, school grounds and the City in general and to keep boys from killing birds, these are certainly worth a day in the year. Good results have always followed the observance of Arbor day and this year will be no exception to the rule. By all means, boys, read the Governor's proclamation.

THE democratic caucuses met last night and selected delegates for their city convention, which it is understood, will nominate A. F. Warden for mayor by acclamation. No balloting will be necessary and everything will be done with neatness and dispatch unless some of the plans miscarry. This means that as a preparation for the run for Congress, Waukesha will be asked to endorse Mayor Warden. Of course the question whether the Mayor's handling of city affairs has been such as to justify this request is another matter. Mayor Warden will be re-nominated but that may be far from re-elected.

THE Republican city convention will meet and unquestionably nominate a good ticket at the head of which will doubtless be the name of Richard L. Gove. A ticket will be nominated by the united party, a good ticket and one that all parties will support and so one that will bring out the full strength of the Republican vote of Waukesha. If this is done, there can be but one result and that will be the election of the ticket headed by Mr. Gove. Mr. Gove has both the time and ability to give to the office and that will mean much for the future of Waukesha. The office will be tendered to him unsolicited and that will leave him unhampered by promises. The Press predicts that the coming election will mean a large gain for the Republican party of Waukesha.

THE Press has had little to say on Congressional matters, simply because there was very little needed to be said. We suggested the name of an honored citizen of Waukesha for Congress last summer simply because we were in favor of a Waukeshaite if one of the ability of Mr. A. J. Farnum could be induced to make the run. We had not one word to say against Mr. Barney and if the honor is to go to any one outside of Waukesha County, we heartily favor him. He has represented this district and done the work well. There has been but little talk in opposition to him, and that only from disappointed office seekers. He holds important positions on the Committees of the house. He will doubtless be unanimously renominated at the convention next month.

THE Dispatch has repeatedly stated that S. S. Barney cannot be elected for Congress this year. That means that The Dispatch believes that a certain Waukesha democratic editor thinks he can be. It looks very much as if that will be the race this fall. It will probably be Warden vs Barney, with the chances as The Dispatch thinks decidedly in favor of Warden. It will be interesting to watch the results, however, for we question whether The Dispatch has not over-estimated two important factors—first the weakness of Barney and second the strength of Warden. If there has been an over estimate here, the result may possibly be very different from that which The Dispatch looks for.

A Decided Success

It was a novel theme—"the travelling man" and a still greater novelty to have him represented on the lecture platform to thus speak for himself. From the happy introduction by Rev. J. L. Cory to the end of the lecture, Mr. Lachner had the undivided attention of his audience. His analysis of the types of men on the road his emphasis of the qualities honesty, industry and an iron will as the necessary steps leading to his success were among the brightest things presented by Mr. Lachner discipline, progress and competition have changed the gentlemanly tough of former days into the keen business man of this day. Now the only question that the firm asks is who can sell the goods and so make money. To sell goods, a man must have confidence in himself and in the goods he is handling. Mr. Lachner gave the professional kicker a fine compliment when he declared that the kicker is the father of all progress. Trade he declared to be war and war to extermination. He dwelt upon the necessity of the travelling salesman in all modern life and carefully depicted his trials in the pursuit of his business. All in all Mr. Lachner gave his audience a very shrewd and careful estimate of the work and hardships of his profession and showed that the qualities that make for success everywhere make for success in his profession. A large audience greeted the speaker and nearly \$100 was cleared by the church.

The War in South Africa.

has demonstrated the great foresight of the Boers, in availing themselves of all the opportunities in times of peace to prepare for war. Similar foresight should lead you to improve the opportunity of securing better farms than this in this country. They are on the line of the Chicago, Milwaukee & St. Paul railway in Marinette county, Wisconsin, where the crops are of the best, work plenty, fine markets, excellent climate, pure, soft water; land sold cheap and on long time. Why rent a farm when you can buy one for less than you pay for rent? Address C. E. Rollins, Land Agent, 161 La Salle St., Chicago, Ill.

Wanted—A good man to work on the grade farm. As Mr. Davis will resign the first of March none but the best need apply.

Carroll College Entertainment.

A large and responsive audience greeted the production of the farce, "A Proposal Under Difficulties" at Carroll College last evening. The different parts were acted with a vim and naturalness that readily won the appreciation of the audience.

Guy Eddy and David Reid as suitors for the hand of Dorothy did some very clever realistic acting. And the way they wrangle over and schemed for their chosen ideal did them great credit.

Lucretia Hubenthal in her make up and imitation of Dorothy Andrews was excellent, and her management of two high strung suitors during these troublesome times could scarcely have been improved upon.

Margaret Vyvyan as Dorothy's maid was the hit of the evening. Her acting as a gay, giddy, too officious and blubbery maid was simply immense.

Hicks, the absent coachman, by his absences, could not have performed his part better.

Before the farce a good and interesting program was carried out, consisting of two songs by the college quartette and solos by Miss Winnie Jones and Mr. David Hrig, and violin solo by C. Rollo Powrie.

The orchestra opened the entertainment by playing Gen. Boulanger's march. David Thomas gave the recitation "How Ruby Played" in an excellent and pleasing manner and was well received by the audience.

Miss Adela Rankin rendered the recitation "The High Tide" with much feeling and her imitation in the piece "When de folks is gone" of a darky miss being wrought up to intense nervous fear by something imaginable, was exceptionally well done. Miss Rankin responded to an encore.

Expansion in Northern Wisconsin. The wise poor man, who bought a farm on easy payments, and the wise manufacturer who erected a factory in Northern Wisconsin a few years ago, when times were not as prosperous as they are now, are reaping their reward. Northern Wisconsin is feeling expansion in the truest sense of the word. Opportunities have not passed, by any means. There are still thousands of acres of rich hardwood timber lands awaiting the settler as well as the manufacturer which can be obtained at low figures and on easy terms. Good roads, fine schoolhouses and other improvements are increasing and civilization is progressing. The plenitude of iron ore, clay, kaolin, marl and timber lands, supplies the wants of everybody.

TRANSPORTATION FACILITIES are unexcelled. The Wisconsin Central Ry., a strictly Badger State Road, pierces the rich northern portion of the state, offering excellent transit service to the markets of the world. CHICAGO MARKETS. CHICAGO—Longs went into the corn pit early today and took out a comfortable quantity of profits on the bulge which put change in a whirlwind of excitement yesterday. After these sales the price of May early reacted 1¢, declining from first 37 1/2c, which were 3c over yesterday to 38 1/2c@39c, to 37 1/2c. The crowd in the pit was the largest of the year, and the excitement caused considerable degree of selling certain heavy long interests work up with the profits they made in 39 1/2c@40 blocks was intense. Much of the lead was taken by shorts. May reacted from 37 1/2c to 37 3/4c, the profit-taking naturally easing up on the decline. Corn offerings were light, despite the higher bids. Local receipts were 684 cars. Liverpool was strong. Profit-taking and covering by shorts formed the chief business in corn pit to the end of the session. May 37 1/2c, up to 37 3/4c@38c, but reacted, closing 37 1/2c under yesterday at 37 1/2c.

AN ENTIRELY NEW Map of Waukesha County.

The Press has become the publisher of a new, revised and thoroughly up-to-date map of Waukesha county. It is on a scale of one and one-half inches to the mile, cloth backed, with sticks at the top and bottom. It is a map that can not be bought anywhere in open market for less than \$5.00. The Press offers the map—colored by townships—for \$5.00. The map uncolored, varnished all ready for hanging, together with The Weekly Press for one year for \$3.00.

Here is exactly what scores of people have been looking for. This is the first wall map of Waukesha County published in over 30 years, and, like The Press, is first class in every particular. Two first class articles—a County paper for one year and a County map—can thus be bought for \$3.00, STRICTLY IN ADVANCE.

HOW TO SECURE IT:—If you have paid for The Press, pay \$3.00 and get another year's subscription AND the map. It is ready for you. It is a necessity for hundreds of people. The edition is limited. When it is exhausted, no more can be bought. The map is the exclusive property of The Waukesha Weekly Press. Not a single copy can be secured except Through The Press. NOW IS THE TIME TO SUBSCRIBE. The Press alone \$1.00; The Press and Weekly Sentinel \$1.25; The Press and the County Map \$3.00. We are leaders in low prices.

The above offer of The Press and the new map of Waukesha County is attracting a great deal of attention. This is no new map made from old plates, but a map just off from new plates. The map is the same as the regular \$5.00 Commercial map, except that it is plain white. Hundreds of our people will be glad to get a new map at such a very low rate. The enterprise of The Press will be rewarded by scores of new subscribers. The Press is the only STRICTLY county paper in Waukesha and the map is the ONLY up to date map of Waukesha county in existence. The Press prints all Waukesha county news and the map will show the roads, rivers, villages, towns and farms that are the scenes of the events recorded. The two go together, the map and The Press, and the combination costs just \$3.00, strictly in advance. The map contains ALL practically that the atlas would have at less than one-fourth the price. We are the leaders in low prices.

ARBOR AND BIRD DAY.

A Proclamation by the Governor.

By legislative enactment the Governor is authorized to set apart one day in the year to be known as Arbor and Bird Day. The beneficial results of this enactment are everywhere apparent. Not only are the school grounds and public parks of the State being made attractive by tree planting, and a deep interest in the preservation of our song birds being awakened among the young, but there is coming to be, among the people of the State generally, a clearer understanding of the economic value of forest and bird preservation.

In order that this interest in the forests and birds may be maintained, I, Edward Scofield, Governor of Wisconsin, by the authority vested in me by the legislature, do hereby set apart and designate Friday May 4, 1900 to be Arbor and Bird Day. It is highly desirable that all of the public schools and the places of learning generally throughout the State, do, upon that day, hold appropriate exercises, to the end that the young may grow into an intelligent appreciation of those attractions with which Nature has endowed our State, and come to discern the close relation existing between beauty and usefulness. Let an effort be made on that day to add in some degree to the attractiveness of all school grounds and public parks and to impart to the little children especially, a love for birds.

In testimony whereof, I have hereunto set

my hand and caused the Great Seal of State to be affixed. Done at the capitol, in the city of Madison, this sixth day of March, in the year of our Lord one thousand and nine hundred

EDWARD SCOFIELD.
By the Governor:
W. H. FROELICH, Sec'y of State.

Vice-Consul Blom writes from Copenhagen, January 16, 1900: "Several years ago I called the attention of the Danish dealers in horse meat to the American supply. I have now to report that the business is increasing rapidly, and the meat from the United States gives satisfaction. The consumption of horse meat in Denmark is comparatively large. Copenhagen is a distributing port for Sweden, Norway, Finland, Russia, and the German Baltic. Packers should address Levy Bros., 31 Nyhavn, Copenhagen; Kroov & Madsen, 18 Nørregade, Copenhagen. Mr. James Levy of the above-named firm of Levy Bros. is now on his way to the United States and his address is care of the royal Danish consulate in New York city."

Mr. and Mrs. C. D. Wight, who have been connected with the state industrial school here the past five years, left last week for Lansing, Mich., where they have accepted a more lucrative position

The Waukesha Canning company put a night force at work last Sunday. The work of building and placing machinery and taking care of stock reached such proportions that it was found necessary to use the entire day and night in order to push the work. One of the large buildings is already so far completed that the office of the company has been moved into it. The other building will be started as soon as the officers can get ready. Carload after carload of lumber, machinery, stock and equipment piled in on them, until Maj. Cambier and Mr. Stare were at their wits' ends. The factory is certainly a beehive. Besides the lumber and machinery, thousands of dollars' worth of seeds have reached Waukesha. If a man has the blues, the click of the hammer and the push and enterprise apparent at the factory will quickly cure him. It is a good tonic for anyone that happens to feel dubious about Waukesha's future. That same factory will bring thousands of dollars into Waukesha next summer and distribute it among the farmers and business men. If all the kickers, the knockers, as the Milwaukee Journal calls them, could take a look at the canning factory and appreciate the meaning of all the enterprise, The Press is certain that they would stop their foolish kicking and take hold of and work for Waukesha's future.

A fine flow of water has been struck at the canning factory, insuring the best of water for the industry next summer. The company have secured contracts for a large part of the acreage that they desire and have already sold nearly the entire output of the factory. It certainly behooves any of the farmers who are planning to make contracts to do so very soon, before they are crowded out.

Glimpses Across the Sea
is the charming title of a charming book from the facile pen of Mr. Sam T. Clover, the well known author and newspaper editor.

The "Glimpses" are particularly pertinent just now when so many people are considering about going to the Paris Exposition, and many people will be glad to know that the Chicago, Milwaukee & St. Paul Railway has purchased an edition of Mr. Clover's work for distribution.
