The new appointees will take up their new duties soon, and it is not doubted that they will prove worthy of the important positions which they are to occupy.

### WHEN THE BOYS COME HOME

Undoubtedly we're in for plenty of tall tales from the boys who've been doing deeds of glory 'cross the seas, for even a bona fide hero likes to high-light his effects now and then.

However, it's a safe bet that few of the yarns will rival the wild fabrications of one Robert Winchester McTabb. All by himself he bested a whole regiment of Germans, and he could tell about it with amazing vividness and stirring eloquence—without standing the fact that he and his company never got across.

That wasn't the least of his exploits, either. He had killed seven reckless westerners in a saloon brawl—and every American knows that seven upstanding westerners are equal to a whole platoon of Heinies. It was this achievement, indeed, that marked him for selection by charming Celia Sterling as the right and proper agent to advance the date of her enemy's funeral. You see, she had no idea what a very accomplished liar Bob really was!

How flabbergasted the mission gets him; how he makes her believe that the shuffling-off process has been successfully completed; how nervous he grows when the real murderer turns up, and how stubbornly he clings to his story even when the noose is being tightened about his neck, you'll have to see in all its laughable detail when "Some Liar" comes to Eagle on February 8. William Russell is the professional prevaricator, and Eileen Percy is the girl who inspires his most prodigious inventions.

This is a "Flying A" picture produced by William Russell Productions, based on the story of James Oliver Curwood which was originally printed in "The Green Book," and directed by Henry King.

# Ford

THE UNIVERSAL CAR

Most of the Gas Companies throughout the country use a fleet of Ford Runabouts. The same is true of other big corporations. The reasons are very practical. The Ford Runabout is the most economical solution of quick transportation from manufacturer to retailer. For soliciting business, for the Collector, for the Doctor, Contractor, Builder, and almost every other line of business activity, the Ford Runabout is really a necessity. We solicit your order for one or more. We ask your repair business. We would like your motor accessory business. We can serve you, we believe, to your best advantage.

## GOOD CITIZENSHIP FOR WOMEN

(Theodora W. Youmans, editor)

This department has changed its name. It still remains a woman suffrage department but it takes on new characteristics. It will aim to help the women of this county to prepare for the duties which have been laid upon them by the legislature in giving them the right to vote for Presidential electors, and for the still broader duties which will come to them when the partial suffrage they now have gives place to full suffrage, the same as that enjoyed by men.

## PROGRAM ON POLICIES AND PLATFORM

The appointment of the editor of this column to a position on the committee of Policy and Platform for the Republican party is an honor which is appreciated and is an even greater opportunity for service. This committee is made up of representative Republicans of all factions of the party and all shades of opinion. It includes those who have been known as stand-patters and those who are known as progressives and others of all shades in between. The committee is a large one having between one and two hundred members and includes seventeen women. There are no factions of any kind among women. They enter the party entirely free of old disputes and disagreements, with a clean slate upon which they may write as they will and can.

The business of the committee on Policies and Platform is to winnow the opinions of members of the party throughout the whole country, secure therefrom a definite program for the party and recommend this program to the resolutions committee of the Republican convention, which will meet in Chicago next June to nominate candidates for president and vice-president and to adopt a party platform. The program of the committee will by no means take the place of the regularly adopted platform, but it should and no doubt will have influence in shaping it.

The appointment of this committee is of especial interest to women; since it gives them immediate opportunity to express their desires to the party definitely and concretely. If women members of the committee take pains, as they should, to secure opinions of women of their own states and sections and so build up a program which represents the best judgment of the Republican women of the country, I am strongly of the opinion that that program will have excellent chance of being incorporated into the platform. If any cynic is of the opposite judgment, he is invited to consider the number of votes which women will have to deposit in the ballot boxes at the November election.

Will H. Hays, the chairman of the Republican national committee, is a man of vision and power. He believes in the fundamental principle that a party is what its members make it. He desires to bring the party to that condition so that it will in actual fact represent the wishes and desires of the people who make up the party. Women members are on exactly the same basis as men members. Their votes will be just as important and substantially just as numerous. Mr. Hays' management indicates that he is acutely alive to the fact that the country is in a state of transition, that the old party must meet new conditions, and provide a program which will satisfy the new beliefs and understanding of its members.

## THE AGENT'S WEEK

His Life is Joy, His Years Are Play,  
His Week a Happy Roundelay

The County Agent's life is joy, His year is filled with play, His months are fun without alloy, His weeks a happy roundelay— But just to keep himself in trim He works a bit each day. Monday he tells what plans are good To make a fertile farm; He tries to make it understood

What keeps the crops from harm; He holds three meetings in the fields— But finds life all a charm.

Tuesday he helped to drain a field, Showed where the tiles are laid; Gave suggestions for increased yield

And told how stock is fed; Organized a breeding club— But spent some time in bed.

Wednesday he brought a specialist To help a man with sheep; Got figures for a census list;

Arranged to purchase cheap A lot of hme in carload lots— But got a chance to sleep.

Thursday he gave some blueprints out For a barn from ridge to floor; Showed how to ring a porker's snout

And how to keep a score; Of points in judging pure bred stock— They slept a little more.

Friday he helped to spray some trees; He told which spuds are best; And how to kill a pest;

He warned against three wildcat schemes— But got a bit of rest.

Saturday, like the rest of the week, He made an early call; He planned the use of a rapid creek

For power from its fall; To light farm houses for miles around, But did no work at all.

Sunday he washed the fiver clean. Then sat within his pew, Thoughtful on this day serene

He'd rest, like me and you— Except to write reports and such He had no work to do!

—BRISTOW ADAM.

"One care freed soul can set up his bed out on the balcony and exclaim, Oh joyous climate!"

"Speaking of the people, there is contrast and variety at every turn. They seem to have their share of 'isms' out here too, and a large share of cranks, likewise. I've seen a considerable number of them. Then there is the movie crowds, a type in themselves."

"It is 25 miles to Long Beach,—one hour's ride by auto, the drive is beautiful and level as a floor."

## Some Marines Will Wear the "Fourragere"

Washington, D. C. Feb. 3.—Orders conferring the French "fourragere" upon the Fifth and Sixth Marines and the Sixth Marine Machine Gun battalion were received today at Headquarters, U. S. Marine corps, by Major Gen. George Barnett, Commandant of the United States Marine corps.

The fourragere awarded to the Marines is in the colors of the French Croix de Guerre, red and green. The fourragere itself is a silk cord which is worn around the left shoulder, by members of the organization to which it has been awarded. It becomes a part of the uniform of that organization.

The fourragere is awarded only to organizations which have been cited twice by the commanding general of an army in the field. The Fifth and Sixth Marines have received three such citations. The Sixth Marine Machine Gun battalion has received two. The entire Fourth Brigade including all three organizations, which was a part of the Second Division, has received one additional French army citation.

The citations of the Marines are for "fine conduct before the enemy" in the Chateau-Thierry sector (Belleau Wood and Boresches), in the Aisne-Marne offensive, south of Soissons, and in the Champagne (Argonne-Meuse offensive).

The entire Marine Brigade was cited for its work in the Chateau-Thierry sector. The Fifth and Sixth were cited once each as organizations for their work in the same sector, for their advance south of Soissons. The Fifth and Sixth received their third citations as organizations in the Champagne.

Just who will have the privilege of wearing the fourragere will be set forth in an order to be issued within a few days by the Major General Commandant. Until this order is issued all Marines are officially instructed not to wear the fourragere.

## Country Roads Now Are a Fright

The frequent snows and the drifting of the same during the past month have finally gotten many country highways in such a condition that automobile travel had to be abandoned and travel with sleighs and cutters has been a strenuous process, wherever it was at all practical.

During two months there have been only brief periods when the temperature was such as to reduce the snows and there is a credit of 66 days of sleighing thus far, such as it is.

## Comments By the Way Over In California

Mr. B. T. Walbridge is spending the winter over on the West coast, and he is apparently delighted with what he sees and experiences there. In the course of a letter dated at Los Angeles on Jan. 23, he says: "California is wonderful. Not only in climate but in many other respects. It many times seems as though one was living in a world of dreams. This city is the most fascinating blend of north and south I have ever experienced. One feels the bewitching southern beauty linked up and fused with the magnetism and energy of the north. Everywhere these contrasts present themselves with bewildering and piquant variety. When I think of my own northern land and attempt comparison the difference is summed up in one word—climate, and I see what a great influence it has in molding character. The nature of humans, like plants, is determined largely by environment."

"There are many charming little bungalows in this city. The individuality of these homes struck me very forcibly. The entire Marine Brigade was cited for its work in the Chateau-Thierry sector. The Fifth and Sixth were cited once each as organizations for their work in the same sector, for their advance south of Soissons. The Fifth and Sixth received their third citations as organizations in the Champagne."

## Farm Power and Light Plant Dealers Wanted

Men to devote all or part of their time to the sale of a plant manufactured by the largest and oldest electrical concern in the world. Do not reply unless you can furnish financial references. Address:

## Machines Demand Care

You often hear it said that "oil is cheaper than machinery," meaning that it is cheaper to keep machines well oiled than to buy new ones.

It is even truer that "proper shelter is cheaper than machinery." A farm machinery shed will pay for itself over and over in increased life of your tractor, binder, discs and so forth. A garage is a small investment for the protection of your auto. And sheltered machinery not only lasts longer but gives much better service with fewer repairs while it lasts.

We have free books and free full-size working plans of machinery sheds and garages (including special Ford garages). We show you just how to build them of "Old Faithful" HEMLOCK lumber, and why "Old Faithful" is especially suitable. Just ask for them and they are yours.

## RATIFICATION MARCHES ON

The number of states which have ratified the federal amendment allowing sex as a qualification for voters increases week by week. It has now reached twenty-seven, the last one being Wyoming, which was the first state to give women the suffrage by state constitution.

The National American Woman Suffrage association, in sending out the call and the program for the jubilee convention in Chicago, February 12-18, states that it is probable that the necessary number of states ratifying the amendment, thirty-six, will have been reached before that date. The National is not made up of optimists, to whom hope means belief, but is on the contrary made up of women who have been fighting political battles for many years, who are seasoned campaigners, and whose judgment is based on thorough knowledge of existing conditions. It becomes increasingly probable that women of the United States will have opportunity to vote on equality with men at the spring elections as well as at those in the fall.

## ORGANIZATION REPUBLICAN WOMEN

First steps in organizing Republican women of Wisconsin are going forward satisfactorily. Two women are being chosen in each congressional district to serve as associate members of that district of the state central committee and these will in turn recommend county chairmen of counties in the district. The appointments up to this time are: First—Mrs. John M. Whitehead, Janesville; second—Mrs. E. J. Barrett, Sheboygan; Mrs. Lynn J. Smith, Jefferson; Sixth—Mrs. C. W. Smally, Manitowoc; Mrs. Edward C. Smith, Oshkosh; seventh—Mrs. C. S. Van Auker, La Crosse; Ninth—Mrs. Joshua Hodgins, Marinette; Mrs. E. A. Morse, Antigo; Tenth—Mrs. W. T. Doar, New Richmond; Mrs. Ivah B. Wiltrout, Chippewa Falls; Eleventh—Mrs. R. B. Lewis, Rhinelander.

## THE NEW CITIZENSHIP

The Brazilian Senate has just introduced a bill providing that women over 21 years of age may vote.

Dispatches from Manila state that the equal suffrage bill, giving women full political rights with men, was passed by a virtually unanimous vote in the Philippine Senate and sent to the House.

With the revision of the Dutch constitution last year women obtained full suffrage, and the result is that now there are women in nearly every town council.

The officers and staff of the Massachusetts Woman Suffrage Association are out in a vigorous campaign to enroll 200,000 people in a crusade for better understanding of American citizenship.

New Mexico's Republican Governor, Octaviano A. Larrazolo, has announced that he would call a special session of the legislature in February to ratify the woman suffrage amendment to the Federal Constitution, and Governor D. W. Davis, of Idaho, also Republican, on Dec. 27th called a special session to ratify the suffrage amendment for Feb. 11. The formal call stipulates that no other legislation shall be considered.

## HOW TO WRITE LETTERS TOLD IN NEW TEXT-BOOK

A book on "Commercial Correspondence," embodying the principles of a correspondence course in that subject has just been published by the University of Wisconsin Extension division. The International Correspondence school has already asked permission to use the book as the basic text in its course in commercial correspondence.

About 200 persons, half of whom are women, are now enrolled in the course. Stenographers, book-keepers, teachers of commercial subjects, office assistants, and retail merchants are included in the registration.

While the chief purpose of the course is to teach the writing of sales letters, the study includes the form of letters, grammar, and special types, such as letters of complaint, application, etc.
