CONSERVATION NOTES

Madison, Wis.—Nearly one of every three hunting accidents that occurred in Wisconsin during the past season was a case of a man shooting himself with his own gun, records of the conservation department show. Men violated all the rules of safe gun handling, pulling loaded guns through fences by the muzzle, pulling loaded guns from cars muzzle-first, leaning loaded guns against cars and buildings where their fall discharged them, and in one case poking the butt of a loaded gun into a brush pile.

VEGETABLES SERVED STREAMLINED FASHION (See Recipes Below.)

NEW WAYS WITH VEGETABLES

The time may come when we will get all our vitamins in little pellets, but I doubt it—not when eating vegetables is as much fun as it is. There would be a big gap in our meals if such things as tender little green beans or whole carrots rolled in butter, disappeared from the dinner table.

Success in cooking vegetables depends on such small things—the amount of water in the pan, whether the cover is on or off, whether the vegetables are removed from the heat when they are just tender or allowed to continue cooking until they become slightly mushy.

Remember, it's "covers off," for all green-colored vegetables. Then the acids which are given off during cooking are not held in the pan where they turn the brilliant green color to a dull olive. To keep the vitamins in the vegetables instead of losing them in the cooking water use just as little liquid as possible. For mild-flavored vegetables an inch of water in the bottom of the pan to keep the pieces from burning is ample. Vegetables like spinach, which contain a great deal of water, should be cooked in the moisture which clings to the leaves after washing.

And if you value your vitamins, never discard the liquid from canned vegetables. Place it in a saucepan, heat until the liquor evaporates to about one-half, then add the vegetable and heat to serving temperature.

Lima Bean Casserole.

- (Makes 6 servings)
- 1 10-ounce can tomatoes (1½ cups)
 - 2 medium-sized onions (minced)
 - 1 small green pepper (finely chopped)
 - 2 tablespoons molasses
 - ½ teaspoon dry mustard
 - 1 teaspoon salt
 - ¾ teaspoon pepper
 - 1 No. 2 can green lima beans (2½ cups)
 - 6 strips bacon

Put tomatoes through sieve, add minced onion and green pepper and simmer for 15 minutes. Then add molasses, mustard, salt, pepper and butter. Stir until well mixed. Drain lima beans and arrange in a shallow, well-greased casserole. Pour sauce over them and arrange strips of bacon over top. Bake in a moderate oven (350 degrees Fahrenheit) for 20 minutes or until bacon is crisp. Serve piping hot.

Beets, Orange-Style.

- (Makes 6 servings)
- 3 tablespoons grated orange rind
 - ¼ teaspoon salt
 - ¼ teaspoon paprika
 - 1 tablespoon sugar
 - 1 tablespoon water
 - 2 tablespoons lemon juice
 - 4 tablespoons butter
 - ½ cup orange juice
 - ½ tablespoon cornstarch
 - 1 tablespoon water
 - 3 cups cooked beets (sliced)

Place orange rind, salt, paprika, sugar, water and lemon juice in saucepan and simmer for 5 minutes. Cream butter until soft, and add it to hot mixture together with orange juice. Blend cornstarch and water to a smooth paste and add to sauce. Cook slowly, stirring occasionally, until sauce is thickened and cornstarch is thoroughly cooked, about 15 minutes. Pour over hot cooked beets and mix lightly but thoroughly. For company dinners serve the beets in orange shells.

Corn and Bacon Rings.

- (Makes 7 servings)
- 7 slices bacon
 - 2 eggs
 - 1 12-ounce can whole kernel corn
 - 2 tablespoons flour
 - ½ teaspoon salt
 - Few grains pepper
 - ¼ teaspoon baking powder
 - ½ cup milk

Line muffin tins or custard cups with sliced bacon. Snip edges with kitchen scissors to prevent curling. Beat eggs slightly, and add well-drained corn. Sift flour, salt, pepper and baking powder together and add to corn together with milk. Fill bacon rings with this mixture. Bake in a moderate oven (350 degrees

Fahrenheit) for 35 to 40 minutes, or until firm.

Peanut Butter Crust.

- 1 cup flour (all-purpose)
 - Few grains salt
 - 2 tablespoons peanut butter
 - 4 tablespoons shortening
 - 2 tablespoons ice water (about)
- Sift flour once before measuring, then sift together with salt. Cut in peanut butter and shortening with a pastry blender, two knives or rub it in with the fingers. Lightly stir in ice water, using a fork, until mixture forms a stiff dough. Turn out onto a lightly floured board, and roll out to fit top of casserole. Cut several slits in crust to allow steam to escape. Place over top of casserole and seal edges.

French-Fried Green Pepper Rings.

- (Makes 6 servings)
- 4 large green peppers
 - 1 egg (well-beaten)
 - 1 tablespoon water
 - ½ cup fine, dry bread crumbs
 - ¼ teaspoon salt
 - ¼ cup flour

Wash green peppers, cut into thin slices (about ½ inch thick) and remove seeds and membrane. Combine beaten egg with water. Season bread crumbs with salt. Dip rings first in egg mixture, then in flour. Dip again in the egg mixture, and finally in crumbs. Fry them, a few at a time, in deep fat at (375 degrees Fahrenheit) until nicely browned, 2 to 3 minutes. Drain on absorbent paper. The green pepper rings are excellent with broiled steak.

Any-Season Spinach.

- (Makes 4 servings)
- 1 14-ounce box quick-frozen spinach
 - 1 cup water
 - ½ teaspoon salt
 - ½ teaspoon pepper
 - 2 tablespoons butter
 - 1 hard-cooked egg

Place water in saucepan, add salt and heat to a brisk boil. Drop frozen spinach into boiling water, bring again to a boil and cook 4 to 6 minutes or until just tender, separating the leaves with fork during cooking. Remove from fire and drain thoroughly at once. Add butter, salt and pepper. Garnish with slices of hard-cooked egg. Reserve the liquid to use in a vegetable soup or stew.

Vegetable Pie, Peanut Butter Crust.

- (Makes 6 servings)
- 12 small white onions
 - 3 carrots (sliced)
 - 2 tablespoons butter
 - 3 tablespoons flour
 - 1½ cups hot water
 - 2 beef bouillon cubes
 - ½ teaspoon salt
 - ¼ teaspoon paprika
 - ¼ teaspoon celery salt
 - 1 cup canned or cooked peas
 - 1 cup canned or cooked green beans

Place onions in saucepan with 1 cup water. Cook for 10 minutes, then add sliced carrots and continue to cook until both vegetables are tender (about 15 minutes). Cooked leftover onions and carrots may be substituted. Melt butter and blend with flour to a smooth paste. Dissolve bouillon cubes in hot water and add to flour together with salt, paprika, and celery salt. Cook, stirring constantly, until thickened, about 10 minutes. Combine onions, carrots, peas, and beans with sauce and place in shallow greased baking dish. The ingredients should come nearly to the top of the dish. Top with peanut butter pastry and bake in a hot oven (425 degrees Fahrenheit) for about 20 minutes.

FARM TOPICS

ELECTRIC FENCE IS INEXPENSIVE

Low Amperage and High Voltage Advised.

By R. R. PARKS
(Extension Agricultural Engineer, University of Illinois College of Agriculture)

Electric fencing is becoming a definite part of good farm planning, but to be effective and safe, electric fences need high voltage and low amperage current.

The voltage, or "electric pressure," of the fence must be relatively high, 400 volts or more, to cause the current to discharge through the animal that makes contact with it; however, the fence charger unit must have some current limiting device or characteristic to keep the amperage low, less than 25 milli-amperes and not more than one charge per second. That charge should not be more than one-tenth second duration. A milli-ampere is a fraction of the current that goes through the ordinary small light bulb. Even 25 milli-amperes are dangerous for smaller animals or persons with heart ailments.

The reason the current should be intermittent rather than continuous is that animals coming in contact with an intermittent current will receive the shock and be able to step back before the next shock occurs. If they came in contact with continuous current they might fall on the wire and not be able to recover their footing.

Fence units are ordinarily inexpensive to operate. Most of the current which is actually used goes either through the animals or is lost through leakage owing to inadequate insulation of the live wire from the ground. Much of this loss can be eliminated and the fence made more effective by the use of properly designed porcelain or glass insulators. Many of the ordinary small spool insulators are inadequate for insulating the high-voltage fences.

There are two reasons why the electric fence may become ineffective. It may either be improperly insulated or a dry ground condition may prevent the animal from receiving enough current to be felt. In some instances a second wire has been run beneath the live wire, and "grounded" to the fence controller unit to give the animal a shock when touching the two wires. This works particularly well on hogs.

War Provides No Cure For Farmers' Problems

While the European war and the American defense program will stimulate business temporarily, decrease unemployment, and improve domestic demand for farm products, in the long run the war will only aggravate the farmer's problems, declares O. B. Jesness, chief of the division of agricultural economics at University Farm, St. Paul.

The loss of foreign markets for wheat, lard, tobacco, and some fruits cannot be offset by increased domestic demand, Dr. Jesness points out. Unless foreign markets recover, a serious agricultural surplus will remain until production can be shrunk to fit the smaller demand.

While a price boom is not in prospect at present, a long war and extensive war preparations may in time produce conditions favorable to inflation, Dr. Jesness declares. If a rise in prices occurs, it will be a good time for farmers to pay off some of the existing debts rather than to take on more obligations. An expansion of production would only make worse the depression which is sure to follow after war demands are cut off.

Electric Engine Can Handle Big Overload

Believe it or not, but a five-horsepower electric motor can develop three to four times the power of a five horsepower gas engine. However, when running at full load over a long period of time, they will both deliver the same amount of work.

The difference in the two engines arises from the fact that a gas engine has little overload capacity, while an electric engine will develop several times the rated power for short periods of time.

Machines often producing a temporary overload are ensilage cutters, wood saws, pump jacks, hay hoists and grain blowers.

America's Dairyland

Wisconsin again led the nation in cheese production last year. Preliminary reports indicate that dairy product production will be even larger than 1939 when 370,000,000 pounds of cheese were made, more than half of the nation's total production. Factories in the state produced about 89 per cent of the orick and Munster cheese made in the nation, and 69 per cent of the limburger, 68 per cent of the Swiss, and 53 per cent of the American cheese.

MAKE up this smart tailored dress in a refreshing Spring print, or bright-colored wool, or dark flat crepe with bright buttons. It will give a real lift to your spirits and look gay as a holly berry under your winter coat. There's no better way to start the year right than with a really smart new everyday dress, and a crisp shirtwaister is smartest of all!

This easy-to-make design (No. 8853) is exceptionally becoming to

AROUND THE HOUSE

To thread a needle easily, cut the end of the thread on the bias.

Keep cheese in a well-covered dish or it will become dry and tasteless.

Baking powder biscuits and cookies rise better and brown more evenly on baking sheets than they do in pans.

If milk boils over on the stove, sprinkle the spot with salt. This will at once remove the disagreeable odor.

Iron rust may be removed from white goods with sour milk.

Parsley washed with hot water keeps its flavor better and is easier to chop.

If you wish to boil a cracked egg, place a little vinegar in the water in which it is boiled. This will keep the egg from seeping through the crack in the shell.

Creaky stairs, like creaky floors, are an unnecessary annoyance. If your stairway gets too noisy, here's the way to go about silencing the offending treads. Simply nail a few extra finishing nails through the treads into the risers below. The finishing nails used should be three inches long, and they should slant alternately to the right and to the left as they are driven in. And after countersinking the nails, the nail-holes may be filled with plastic wood and painted.

Mr. Wm. Holsinger, who is a patient in the Milwaukee Hospital, is slowly improving and Mrs. Holsinger is still staying in Milwaukee.

Arnold Yeo was in Milwaukee Wednesday.

Due to cramped conditions, the interior of the post-office is being slightly remodeled. The new management will give the post-office workers more space and the public less.

By complying with the 1940 AAA program Palmyra farmers collected \$13,947.62. The payment which could have been received amounted to \$22,566.39.

Mr. and Mrs. George Oettmeier announce the marriage of their daughter, Marjorie Louise to Mr. Arnold Reimer of Waukesha January 25, 1941. They went by airplane to Dubuque, Iowa, where the ceremony took place. The return was made by bus by way of Madison where they stopped off to visit relatives, Mr. and Mrs. Clyde Tutton and Mr. and Mrs. Erving Tutton. Mr. and Mrs. Reimer are residing at the present time in Waukesha, where both are employed.

On Wednesday, Jan. 29, a group representing the Jefferson County Homemakers met at the home of Mrs. Carl Schaefer, with eighteen members present. Mrs. Margaret McCordie, home management specialist of the University of Wisconsin, conducted the meeting, which was on the subject of Kitchen Arrangement.

Mrs. Wm. Thayer, LaGrange, received word from her sister in England that their old home in Sheffield, the only home that Mrs. Thayer ever knew in England, was blown up in the German raid of December 13th., and a friend was killed.

The Woman's club met at the library club room Monday evening, with Mrs. Jack Tutton, vice-president, presiding.

The program consisted of two vocal solos by Miss Grace Runyard, with Miss Joyce McIlree at the piano, two solos by Miss Dorothy Olson, playing her own accompaniment on a Hawaiian guitar, and a paper on Legislative Procedure and Current Legislation, by Miss Lura Dow. Mrs. Sam Tutton had charge of the music.

The hostesses, Miss Dora Smith and Mrs. Martha Marine, served jello and wafers.

Polling 44 votes out of a possible 83 in a hotly contested election at the Palmyra high school last week that had all the students in a dither, Bob Ketterhagen, likable son of Mr. and Mrs. Ketterhagen of Palmyra, was chosen the most popular boy in school, and Arlene Janney, vivacious daughter of Mr. and Mrs. Vivian Janney of Zion, received the honor of being the most popular girl. Arlene garnered 41 votes, 15 ahead of her nearest rival, Lovely LuVerne Martens, daughter of Mr. and Mrs. Richard Martens of Eagle, is classed as the best looking girl in school according to her classmates. LuVerne had a narrow escape in being chosen, leading Arlene Janney by only 4 votes when the final results were tabulated. Handsome Harold Adams, son of Mrs. Wm. Adams of Little Prairie, collected 43 votes as he won the title of the best looking boy. In another contest that evoked a great deal of interest, charming Carol Steinhoff, daughter of Mr. Anton Steinhoff of Eagle, was considered by the pupils as being the ideal girl, while unassuming Ben Eller, son of Mr. and Mrs. Ben Eller of Palmyra, was the school's choice as the ideal boy. Eller led Harold Adams by a slim 7 votes.

Crown Winners at Dance

The six winning contestants will be crowned at the Popularity Dance which will be held this Saturday evening in the local gym. Music for the gay affair is being furnished by Palmyra's own Jimmy Douglas, whose orchestra is rapidly making a name for itself since it was organized last fall. Admission is 50c a couple, 40c if tickets are bought early.

The contests were sponsored by the sophomore class, with Arnold Holcomb in charge assisted by Phyllis Schmidt and Floyd Tutton. The preliminary vote was held on Wednesday narrowing the contests down to three final contestants in each division. The final vote was held on Thursday, the final results being kept secret until yesterday when the results were published in the Palmyra

Sagacity. However, the results were widely known Tuesday as the result of some preview peeking at the Sagacity.

The following are the results of Thursday's election:

A Little Bit o' DRIFTWOOD

—The Little Girl I Used To Be—
The little girl I used to be
Has come to-day to visit me.
She wears her Sunday dress again—
Merino, trimmed with gay delaine;
Bare neck and shoulders, bare arms,
too,

Short sleeves caught up with knots
of blue;
Cunning black shoes, and stockings
white,

And ruffled pantelettes in sight.
Her hair, 'round Mother's finger
curled,

Looks "natural" for all the world!
The little girl I used to be!
So wistfully she looks at me!
O, poignant is my heart's regret
That ever I have failed her! yet,

Something of her has come with me
Along the years that used to be!
I pray that when 'tis time to go
Away from all the life we know
To the new life, where, free from sin,
As little children we begin,
This little girl I used to be!
Will still be here to go with me!

Meets Mail Order Price—
But on Same Terms

A hardware merchant had a prospective customer for an axe. The

proprietor showed him several and the customer selected one, asking the price.

"It's \$2.50," the merchant said. "That's too much," the customer contended, "I can order the same axe from a mail order house for \$2.00."

"Tell you what," the merchant offered, "I'll sell you this axe for the same price that you can buy it from the mail order house—but under the same conditions."

The customer agreed and pulled out his wallet.

"Give me \$2.00 for the axe," the merchant said, "and add 3 cents that you'd have to pay for the stamp. Give me 5 cents for the money order, charges, and throw in 35 cents that the mail order house would charge you for mailing the axe."

Good naturedly, the customer shelled out.

The hardware man took the money, wrapped the axe, and then threw it under the counter.

"Now wait two weeks for it."

And in America the discussion wages hotly as to how much power shall be given the president under the proposed lend-lease bill to Britain. And as to be expected Hitler in his anniversary speech proclaimed that further aid to Britain would mean the commencement of unrestricted submarine warfare by Germany.

And yet, what of the war itself. The proposed invasion of the British Isles does not seem to be materializing any too fast. And one wonders whether Adolph is hesitant about overplaying his hand. Bombings of military and non-military objectives by German raiders continue, along with the retaliatory raids by the Royal Air Force on German occupied territory but that is all.

And on all of the other war fronts Adolph and Benito have their hands full. The British expeditionary force in Africa is completely demoralizing the Italian resistance. The Greeks are still pushing the Italians around like a football. And even the advent of German aid to Italy in the form of bombers and troops has failed to seriously damage or lessen appreciably British sea power in the Mediterranean. And all in all Britain is giving just as good as she is taking. And the Axis powers are going to have more trouble on their hands. For in Ethiopia the war drums are

bombing from hill to hill. And the hillsmen are banding, armed chiefly with long sharp knives, in whose use they are very proficient. And the black followers of Hallie Selassie have waited a long time before attempting to overthrow Italian domination. And the Italians perhaps can already see the handwriting on the wall. And it may well be that the ill-fated occupation of Ethiopia by Mussolini a number of years ago may be the ultimate cause of the Axis downfall. For if and when Italy is driven from Ethiopia by the combined British and Ethiopian forces the Italians may quit cold. And if the Italians quit cold there will be little doubt that Hitler will be stopped cold.
