Summit School Notes.

)UILL.

(BY PROFESSOR MILLER.)

For some months past, very little concerning the welfare of the Eagle Summit School, has appeared in these columns, but we do not wish you to conclude that it implies lack of euthusiasm or stagnation in our work. Being firm believers in the old saying: "That Crowing Hens lay few Eggs," and 'That it is the Still Cat that Catches the Mouse," we have seen fit to preserve a fair degree of modesty, in this matter of making public, things, scarcely worthy of notice.

The regular joint rhetoricals of the school, will take place Friday p. m. of this week, this forming an appropriate finish to a successful winter term. Even tho the large amount of sickness and the severity of the weather have made things have moved off with unusual regularity and anyone, visiting in either department during regular hours, must infer from the studious attitude of the pupils that they know what they were there for.

Friday p. m. was a deviation from the regular routine. Throught the kindness of the worthy school board, a few of the younger members of the upper deoccupied the afternoon by visiting their neighbors in the country, by whom they were welcomed in a most cordial man-

During the brief opportunity presented for viewing the regular work of the school, Prof. Simmons conducted it in a masterly manner. Dist. No. 1 may consider itself favored in securing such an able man to fill their teacher's chair. At the request of "No. One," an adding contest was indulged in between the two schools, but how unevenly matched the opponents. Pupils approaching young manhood and young womanhood, sturdy representatives from North Prairie, Ottawa, Jericho, far Jerusalem, and the uttermost parts of Palestine, composed the mighty throng, against whom our young representatives were to battle.

Most of the Eagle pupils, having scarcely entered their "teens," they, of course, lacked the self-control at such times, with which their more mature opponents were endowed. Tho they made a very creditable showing, they did not do themselves justice and

The case of Ed. J. Whettam vs. Frank Seefeld was called in Justice court toEagle High School vs Dist. No 1.

For the past few years, Eagle has been the recognized standard in educational circles, for this and surrounding school districts. Occasional contests between the Eagle School and the adjacent districts have resulted in establishing more firmly, the village school's supremacy. Of all these schools, that of District No. 1, has been a greater source of anxiety to the villagers than any other. After an interval of several

years, during which time no contests, which might have resulted in a decision recognizing the superiority of either

school, have been held, these two opponents have met to determine whether victory should perch on the banner of the High School or on that of its rival, No. 1. The Eagle School has been under such able supervision for the past few years, that it felt sufficiently strong great inroads into our daily attendance. to cope with its former adversary. No. 1 has not been in arrears as far as preparation for the event is concerned. During the past two years the pupils have been actively engaged in fitting themselves to meet the enemy. The

interest in the successful outcome of the event has spread to such an extent that even those 8, 9, and 10 years of age have submitted to the discipline attendant upon the preparation for such partment accompanied by the teacher, an occasion.

Friday afternoon, four weeks ago, marked the date of the first contest. Everything was in readiness, the representatives of District No. 1, accompanied by numerous rooters, arriving at the Eagle School, early in the afternoon. The contest began immediately; an adding match was agreed upon by both sides. Details were quickly arranged and in a short time the fight was on. Exactly an hour and thirty minutes after the start had been announced, a cheer from the delegates of No. 1 showed by whom the laurels of the day had been won. Eagle had been defeated by 981 points.

Before leaving, arrangements for a second contest were made. The following two weeks found both schools busily engaged; Eagle resolved to redeem itself, while No. 1 stubbornly determined to remain on top. Last Friday, at a quarter of two, the pupils of Eagle, accompanied by their professor and numerous alumni of that school, arrived prepared to administer what they thought the just dues of their antagonists. Preparations were made. Details a defeat which was no disgrace was the

Putney, England, March 25 .- The fifty-sixth annual boat race between crews representing the Universities of Oxford and Cambridge was rowed today over the usual course, from Putney to Mortlake, a distance of about four and a quarter miles, and was won by Cambridge for the first time in ten years Cambridge now has twenty-four out of fifty-six races rowed to her credit. ipinos Did Not Fare So Well as We Did. Washington, D. C., March 27.-A cable dispatch has been received from Gen. Otis saying that the battle continued all day on March 27, with the loss of about forty on the American side. He says that

the troops will press forward in the morning. Aguinaldo commanded the insurgents in person. It is supposed that the dispatch was sent in the evening of Monday (today) March 27.

The following is the dispatch received from Gen. Otis, referred to in the previous bulletin:

It reached Washington at 8:55 this

morning: "Manila. March 27.—Adjutant-General, Washington: MacArthur holds Maliloa severe fighting today and our casualties severe fighting today and our casualties about forty. The insurgents have de-stroyed bridges which inpeded progress of train and artillery. Our troops met the insurgent forces on northern line com-manded oy Aguinaldo in person and drove them away with considerable slaughter. They left nearly 100 dead on the neld and many prisoners and small arms were captured. The column will press on in the morning. Otis."

Manila, March 27.-3:25 p. m.-Gen Manlia, March 24.-3:25 p. m.-Gen. MacArthur's division spent the night and morning at Meicauayan, the next sta-tion beyond Palo. After reconnoitering his front, he pushed along the railroad this afternoon towards Malolos. If the statement of the thirty-live prisoners cap-ured today is true the many body of the tured today is true, the main body of the enemy has retreated to Malolos.

But there are no more trenches to encounter, although over thirty villages, in-cluding the larger settlments of Bulacan and Gudguinto intervene.

Vigorous Measures Adopted.

At every railroad station circulars have been posted, signed by the b'ilipino com-mander-in-chier, Antonio Luna, ordering all spies and bearers of news to the enemy to be shot without trial and instruct-ing that all looters and ravishers be treated in the same manner. Further, all towns abandoned by the Filipino troops are first to be burned.

While deploring the existence of war, the circular maintains the undeniable right of the Filipinos to defend their

homes, lives and lands against "would-be dominators who would kill them, their wives and their children." Adding that this motive ought to impel all Filipinos to sacrifice everything.

The shelling of Paranaque was not premeditated. The turret ship Monad-nock anchored off the town and the insurgents, emboldened by the long silence of the warships on guard duty, opened fire on her with muskets, with the result that one man was killed and three more wounded. The Monadnock then de-stroyed half the town, including the church.

Used a French Flag.

The Washington regiment had an ex-citing experience and displayed much gallantry. The soldiers found a band of insurgents concealed in a stonehouse over which the French flag was flying. A pri-vate volunteered to set fire to the building. He did so and the troops approached while it was burning and the Filipinos had apparently fied. But they were greeted with a sudden volley from the balcony of the house, resulting in the building being cleared of the enemy in short order. Made a Stand.

7:40 p. m.—A thousand Filipinos, com-posing the rear guard of the rebel army which is retreating on Malolos, Aguinal-do's headquarters, made a stand today in some strong entrenchments about Marilo across the Marilo river. The fighting was sharp all day, and today's battlefield is carpeted with the insurgent dead. Our own losses were comparatively slight, though among our dead is Col. Harry C. Egbert, a hero of two years. The plan to cut off the 5000 insurgents in Malolos failed by reason of the rough-ness of the ground and the thickness of the jungle, which prevented Gen. Didn't Want More than His Share.

Didn't Want More than His Share. Mr. Garland's death has recalled to many minds incidents of his long career in Washington, some of them humorous and some pathetic, says the Pittsburg Dispatch. But there is a less hackneyed reminiscence of his return to Washington after the campaign of 1880, a convert, at least temporarily, to tectotalism. He had always been up to that time a free liver, and had touched glasses with his brother senators with no restraint be-yond his own distaste for excesses.

Lydia Thompson Still Living. Probably few persons who remember Lydia Thompson from her appearances in New York know that she is still alive and in London. She is shortly to be the beneficiary of a performance given there to relieve her financial diffeuities, which are just now rather too pressing for her comfort. Until a few months ago she was acting old women's parts in the London theaters, and has retired now on account of bad health. Many actresses who subsequently achieved fame in very different directions came here first with different directions came here first with her troupes of so-called British blondes, Rose Coghlan was one of them and Ada Cavendish another. Ada Harland, l'au-line Markham and Harry Beckett were

other members of her company who sub-sequently became well known here. It was in 1868 that Miss Thompson came first to New York with her cohorts and made an impression which has lasted un-til this time and remained the standard by which all similar performances are measured. She returned several times to this country and after her visits ceased the form of entertainment she represent-ed couting in favor for only a few the form of entertainment she represent-ed continued in favor for only a few seasons longer. Unlike Emily Soldene, who used to bring to this country per-formances of an equally elevating char-acter, Miss Thompson will not write her memoirs. They might prove interesting reading if the popular impression about the vivacity of the old companies is a true one. There has been recent testi-mony, however, to the effect that those organizations were as decorous and well organizations were as decorous and well behaved as any that ever came to this country. Miss Thompson's failure to record her American experiences would seem to give force to this theory.

STORY OF THE BATTLE.

Steady Advance of the American Troops Since They Left Manila Proper.

Manila, March 27.—As cabled last night, the advance of the American troops was continued this morning. At daybreak MacArthur dashed beyond Polo and to the northeast and has captured Meicauayan. ROOSEVELT ON POLITICS.

Often Necessary to Go Out of the Way to Reach a Goal.

New York, March 27.—Gov. Roosevelt was the guest of honor Saturday night at a dinner given by the Citizens' union of the Twenty-seventh and Twenty-eighth Assembly districts in the Tuxedo. About 100 members and guests were present. Fritz von Briesen presided. Gov. Roose-velt, in his address, explained that it was sometimes necessary in reaching for a certain goal, to go a little out of the way to get there

to get there. "But," he said, "I shall never go back, nor will I consent to stand still. It will be going ahead, however slowly. But I have never said one thing and done an other. I am working with other men. My judgment must give way on many points to theirs, as theirs must at times give way to mine. I cannot go as far and as fast as I like. If I go in a gen-eral direction forward that is as much as I can expect.

"There are two dangers to a man going into politics," he continued. "In striving to reach the goal, he is liable to fall on the one side into the pit of foul politics, or on the other side into the pit of im-practical politics. Although there is some difference in the pits, you want to remember if you fall into either you won't reach the goal. I am trying to reach the goal."

TOTHERHOOD is woman's natural destiny. Many women are denied the happiness of children through some derangement of the generative organs. Actual barrenness is rare.

Among the many triumphs of Lydia E. Pinkham's Vegetable

Compound is the overcoming of cases of supposed barrenness. This great medicine is so well calculated to regulate every function of the generative organs that its efficiency is vouched for by multitudes of women.

MRS. ED. WOLFORD, of Lone Tree. Iowa, writes:

"DEAR MRS. PINKHAM-Before taking Lydia E. Pinkham's Vegetable Compound I had one child which lived only six hours. The doctor said it did not have the proper nourishment while I was carrying it. I did not feel at all well during preg-

nancy. In time I conceived again, and thought I would write to you for advice. Words cannot express the gratitude I feel towards you for the help that your medicine was to me during this time. I felt like a new person; did my work up to the last, and was sick only a

Happenings in Court,

Happenings in Court, Justice Hawkins once had to sentence an old swindler, and gave him seven years, says the San Francisco Argonaut. "Oh, my lord." whined the man, "I'll never live half the time." The judge took another look at him and answered: "I don't think it is at all desirable that you should. Once when a flagrant crim-inal stood up after sentence and said, "My lord, I have not received justice in this court," Sir Henry replied, "Weil, you will get it on..." (naming the date fixed for the execution). On another oc-casion the usual formality was gone through of asking a prisoner who had been found guilty if he had anything to say. Striking a theatrical posture, and with his right hand in the air, the man exclaimed: "May the Almighty strike me dead if I don't speak the truth. I am in-nocent of this crime." Judge Hawkins said nothing for about a minute. Then, after glancing at the clock, he observed, in his more inversion.

An Excellent Combination.

The pleasant method and beneficial effects of the well known remedy, SYRUP OF FIGS, manufactured by the CALIFORNIA FIG SYRUP Co., illustrate the value of obtaining the liquid laxative principles of plants known to be medicinally laxative and presenting them in the form most refreshing to the taste and acceptable to the system. It is the one perfect strengthening laxa-tive, cleansing the system effectually, dispelling colds, headaches and fevers gently yet promptly and enabling one to overcome habitual constipation per-manently. Its perfect freedom from every objectionable quality and substance, and its acting on the kidneys, liver and bowels, without weakening or irritating them, make it the ideal laxative.

In the process of manufacturing figs are used, as they are pleasant to the taste, but the medicinal qualities of the remedy are obtained from senna and other aromatic plants, by a method known to the CALFORNIA FIG SYRUP Co. only. A Shrewd Scheme.

A Shrewd Scheme. A Boston restaurant keeper was stand-ing in front of his establishment grumb-ling at the hard times and lamenting his fate. Although he could sce people walk-ing up and down the streets, they all seemed to avoid him; and even the visit-ors to the town, who could not be sup-posed to know anything about his place, seemed to avoid it instinctively. He meditated much on his misfortune, and racked his brains to devise some scheme that would improve his business. At last an idea occurred to him. Going to a bronze founder, he ordered several peculiar tablets of the kind that are seen in different parts of Boston on the froats of houses to commemorate the birthplace or boarding house of some one or another of the city's great me. Fast-ening these tablets on conspicuous parts of his building, he laid in a large supply of eatables, and awaited the result. Now the great point about these tab-lets was that they were unintelligible...

lets was that they were unintelligible_ the inscriptions being half obliterated Latin-but their effect was electrical. Every true Bostonian glanced at them, took it for granted that the restaurant was one of the many with historic flavor, and patronized it at once. The strangers that visited the city looked at the tab-lets hopelessly, then patronized the house in the hope that they would find some-one who could explain the strange inone who could explain the strange in scriptions.-Harper's Round Table.

Deafness Cannot be Cured

Deathcess Cannot be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to core deathcess, and that is by constitutional remedies. Deathcess is caused by an inflamed condition of the mit-cous linning of the Eustachan Tube. When this twice is inflamed you have a runbling sound or imperfect hearing, and when it is entirely closed. Deathcess is the result, and unless the inflammation can be taken out and this tube restored to its normal condi-tion, hearing will be destroyed forever; hire cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the nuccus surfaces. A Catarrh Cure that Cures.

Some Seasonable Spring Sayings.

Springtime has come at last, and now is the time for all catarrh sufferers to begin a systematic course of treatment for this disease. The greatest difficulty in the way of treating chronic catarrh is that the patient is so liable to catch cold during the treatment and thus de-lay the cure. This liability at this season of the year is, in a great measure, removed, and no one should neglect

the opportunity to begin treatment. Miss Dade Stegeman, superintendent of the Chicago North Side Woman's Club, of Chicago, in a recent letter to Dr. Hartman, speaks of Pe-ru-na as follows:

Inusual Quantities of Snow and Ice May Cause Tromble.

Stanley, Wis., March 27 .-- [Special.]-Experienced woodsmen and lumbermen who have had many years of active op-erations in this part of the state predict great floods later in the spring, when the snow melts with rain, and the un-usual amount of ice in the streams be-gins to thaw and jam at the dams and bridges, which may cause trouble. The snow in many localities in the vicinity of this city is such a depth as to hinder successful work in the woods, and some of the small jobbers have discontinued operations on account of this unusual occurrence at this time of the year, which makes it difficult to get around in the voods to an advantage.

The paper was for many years the only democatic paper in the city, and was edited by their father whose failing health forced him to give up his work. The Carney boys are both popular young men, and will no doubt edit a bright and newsy paper.-Waukesha Press.

The Board of Audit. The Town board of Audit Composed of L. E. Hall, Chairman, Ed. Bossingham, Anton Kalb. and John C. Wilton, Clerk, met on Tuesday in regular semianual session to adjust all business for the passed year. The Treasurer's report showed a balance on hand of \$181.00 and a total amount of paid town orders of \$457.00, which is less than the amount paid for towm expenses for town business for several years. The town expences for salaries was for Supervisor's \$20.00 Clerk \$100.00 assessor \$84.00. \$3.95 was paid out for keeping tramps and this amount is a charge against the county. The lumber and hardware bills for repairing roads and bridges foots up about \$50. As a whole the town board has given an economical administration and to them is due the credit for a reduction in taxes the past year. As none of the incumbents are candidates for re-election with possibly the exception of the Clerk we can make this statement without fear of giving offense to politicians or furthering the interest of any particular candidate.

Woodmen of East Troy.

The initiation of five applicants for membership in the Booth Lake Camp, M. W. of America, at East Troy, Wis., on Monday evening of this week, was the occasion of a large gathering of Woodmen from neighboring Camps within a radius of twenty miles. About six new members of fhe Eagle Camp took part in the festivities and speak with praise of the organization and discipline of the East Troy Camp and the hospitable treatment accorded visiting members. Altogether about two hundred members of the order gathered at the Opera Hall to witness the ceremonies of initiation in which the Burlington Foresters took a prominent part. After the conclusion of the ceremonies Mrs. Wm. Burton, who has been upper was served by the Social Camp. All the arrangements were perfect in necessary to undergo an operation lest Monday and the set Mo detail and a general good time was enjoved. Prosperity.

A man's conditon depends almost entirely upon himself. Luck is but a small factor to men in attaining wealth. Indus try, perseverance and good judgement make the foundation upon which a man builds well. The first start in life of many of our great men has been upon a farm.
