

THE EAGLE QUILL

VOLUME LII

EAGLE, WAUKESHA COUNTY, WISCONSIN

NUMBER 7

Friday, November 13, 1942

IN AND ABOUT TOWN

Defense Council

The Wisconsin Council of Defense, after careful consideration and after consultation with the Regional Offices wishes to advise that under present circumstances the Office of Civilian Defense does not look favorably upon the display of any outdoor residential lighting this year, and especially the street lighting used usually at Christmas time.

This does not include window displays along with interior Christmas trees because these can be controlled as promptly as can any other interior lighting.

The following should be adhered to as closely as possible. So let us all do our best to live up to what is requested of us.

County Blackout Ordinance

Please note that the warning signal for blackouts and air raid periods shall be by "A series of short blasts by the fire siren, power horns or the steam whistles or intermittent bell ringing, lasting for a period of at least two minutes"; and that the "All Clear" signal shall be "A full one minute blast of the siren or a continuous ringing of bells, or whistling on a steady pitch."

It was agreed at our recent meeting of District Commanders and Staffs that the above system of signals should be adopted uniformly throughout Waukesha County.

Mrs. Earl Wilson who recently underwent an operation at Milwaukee hospital is at the home of her mother Mrs. Annie Stead until she regains her strength.

Legion Poultry Shoot

Walter Thomas Post No. 304 of the American Legion held its annual poultry shoot last Sunday at its range at the rear of the municipal park.

About 100 visiting sportsmen were at the traps shooting in what may be the last meet for a long time. The gas rationing program has taken its toll of outdoor sports and trap-shooting is one of them.

We witnessed some very fine shooting by Rollie Schroeder, of Woodland, Paul Nowalski, Mukwonago, Dr. H. Miller of Whitewater, all with a total of 34 out of 35.

In all there were 46 matches held; Four turkey matches, 6 Geese, 27 Ducks and 8 Chickens. The affair was run off in a workmanlike manner by members of the Legion Post, who can always be depended upon to give the attending visitors a good time. Hot lunch and coffee was served.

SOMEWHERE IN AUSTRALIA

Somewhere in Australia where the sun is like a curse, And each day is followed by another slightly worse; Where the brick and red dust blows thicker than shifting desert sand, And all men dream and wish for the fairer, greener land.

Where the sky is never cloudy and the grass is never green; Where the dingo's nightly howling robs a man of blessed sleep, Where there isn't any whiskey and a beer is never cheap.

Somewhere in Australia where the nights are made for love, Where the moon is like a searchlight, and the Southern Cross above, Sparkles like a diamond in a balmy tropic night;

'Tis a shameful waste of beauty, when there's not a girl in sight, Somewhere in Australia where the mail is always late, And a Christmas card in April is considered up to date;

Where we never have a pay day, and never have a cent, But we never miss the money 'cause we'd never get it spent, Somewhere in Australia where the ants and lizards play, And a hundred fresh mosquitoes replace each one you slay;

So take me back to Frisco, let me hear the Mission bell, For this God forsaken outpost is a substitute for hell.

—By a soldier in Australia —From Whitewater Register.

The Annual Roast Chicken supper held at Sliam church last Wednesday night was well attended and over \$88 was cleared.

Mrs. Cora Wheelock is a housekeeper again at the Ed. Farly home after visiting friends and relatives for a while.

Ray Shores, home on furlough recently visited the Ed. Peardon family.

Conservation Notes

Madison, Wis.—Rumors about the impending changes in the deer season brought numerous requests for information to the conservation department. There has been some agitation to move up the deer season to beat gasoline rationing.

In reply to questions, Deputy Director Ernest Swift of the department said: "The open deer season for fire arms for 1942 has been established by the Conservation Commission beginning November 21 through November 29. It has not been changed nor has the department received any intimation that it will be changed from the commission."

ARCHER REPORTS

About a dozen deer were taken during the bow and arrow season, according to present records of the conservation department, and it is probable that the final report will add several more to the list. Bow and arrow hunters took 18 buck deer last season. Bow and arrow enthusiasts believe that their form of hunting will become one of the major outdoor sports of Wisconsin, with new converts annually.

WHY FARMERS KEEP HUNTERS OFF

Andrew Neuens who lives on the Grabill farm formerly known as the Mary Von Rueden farm had a cow valued at \$175.00 shot by hunters and it bled to death before it was found. Who will pay for the loss of the cow? This is a serious matter and one can not blame the farmer for not allowing the hunter to trespass. We sympathize with Mr. Neuens and hope he will be able to find the culprit.

Postal Rush

Postmaster Louis Ager has asked us to print the following communication he received from the post office department relative to the holiday rush of mail service.

The Post Office Department now is starting the most gigantic task in its history—the movement of a deluge of Christmas parcels, cards and letters while maintaining the regular flow of millions of pieces of mail daily to and from our armed forces all over the world.

Indications are that the volume of Christmas mail will be the largest on record. Already in September, latest month for which figures are available, retail sales had reached a level second only to the record month of December, 1941, according to the Department of Commerce. And sales are rising. Such heavy purchases always presage heavy mailing.

If thousands of our soldiers, sailors and marines and civilian friends are not to be disappointed at Christmas time, the public must cooperate by mailing earlier than ever before and by addressing letters and parcels properly. The best efforts of the Post Office Department alone cannot be enough, in view of wartime difficulties faced by the postal system. The public must assist.

About 25,000 experienced postal workers already have been taken by the war services. Arrangements are under way to add thousands of temporary personnel to postal staffs, but this man power is hard to find and is inexperienced. Facilities of railroads and air lines are heavily taxed by the movements of huge quantities of war materials and personnel. Extra trucks are almost impossible to obtain. Winter weather, hampering transportation is beginning.

The free-mailing privilege granted to members of the armed forces has raised their mailings some 30 per cent it is estimated. Expansion of those forces also is adding to the postal burden.

The deadline already is past for mailing gifts to Army and Navy personnel overseas with assurance that the parcels will arrive by Christmas. The New York post office reports that in late October, 350,000 such parcels were handled daily in that office alone.

The Post Office is making strenuous efforts to avoid such a terrific jam as it faced in 1918 under similar conditions, during the First World War. It can succeed in those efforts—and avoid many heartaches for its patrons—if the public will cooperate by mailing early.

Gasoline Rationing

Registration for gasoline rationing for passenger cars and motorcycles will take place at the various high schools of the county on November 12th, 13th and 14th.

Owners of passenger cars will fill out Form No. R-534 and will present same to the Registrars at the high schools. Applicant must also submit the serial number of the five (fives allowed to possess. He will also submit his certificate of registration as evidence of ownership. If applicant has more than five tires per car, gas rations will be denied. Applicant will be given a sabc "A" Ration Book at this time, and if he feels that he is entitled to additional gasoline, he should ask for a supplemental application, which he will fill out and take or mail to the Rationing Board for consideration.

Owners of trucks will fill out Form No. R-536 for a "T" Ration Book, and present same with the Certificate of Necessity to the Local Board for consideration.

Your co-operation will be required to make a success of this registration. Be patient, all the help at the schools is volunteer help; do what you can to help them.

Rationing Board Number 28-1, Jefferson, Wisconsin.

Rationing Information

All passenger car and motorcycle owners wishing to make application for gasoline rations for same must appear at any high-school throughout the County on one of the following dates:

November 12, 13, or 14. It is suggested that you call at the nearest high-school in your locality.

At Palmyra the hours have been set for 9:00 a. m. until 9 p. m. There has been no change in the date for registration notwithstanding the postponement of rationing dates.

The hours from 9:00 a. m. until 3:30 p. m. will be for people who find it impossible to come at later hours. From 3:30 until 9:00 p. m. there will be a force of 8 clerks ready to help you make your application.

At Sullivan the Village Hall will be the place of registration in place of the local school.

GENERAL PROCEDURE

The following questions will have to be answered at the time of registration. Applicants are urged to have their certificate of registration with them and the serial numbers of five tires. If you have not disposed of tires exceeding this limit of five, you will be denied ration books. Owners of passenger cars and motorcycles only may make application at this time.

1. Have you your registration certificate or certificate of title with you?

2. Have you the serial number of your tires?

3. Have you disposed of all tires (including junkers) in excess of five? Unless you can furnish all this information, application must be denied.

War News Brighter

A powerful American force equipped with adequate weapons of modern warfare and under American command, is today landing on the Mediterranean and Atlantic coasts of the French colonies in Africa, President Roosevelt said in a statement issued by the Whitehouse last week. This action provides an effective second front assistance to our heroic allies in Russia.

The U. S. force split into three parts and struck at Algiers, near Oran on the Mediterranean coast of Algeria, and on the Atlantic coast north and south of Casablanca. The War Department stated that the offensive was advancing rapidly everywhere along 1,600 miles of coast against light resistance within 24 hours. The Vichy Government broke off diplomatic relations but Secretary of State Hull said the main purpose of the Vichy policy of this government during the past two years was simply to pave the way for the military drive into the Western Mediterranean.

The landing of this American Army is being assisted by the British Navy and Air Force and it will, in the immediate future, be reinforced by a considerable number of divisions of the British Army, the President stated. This combined Allied force in conjunction with the British campaign in Egypt is designed to prevent an occupation by the Axis armies of any part of northern or western Africa, and to deny the aggressor nations a starting point from which to launch an attack against the Atlantic coast of the Americas.

The French Government and the French people have been informed of the purpose of this expedition and have been assured that the Allies seek no territory and have no intention of interfering with the friendly French authorities in Africa, the President's statement said. This expedition will develop into a major effort by the Allied nations and there is every expectation that it will be successful in repelling the planned German and Italian invasion of Africa and prove the first historic step to the liberation and restoration of France.

The President told the French people by radio and by leaflets that the American forces were going into their empire as friends, to repulse the cruel invaders who would remove forever your rights of self-government, your rights of religious freedom and your rights to live your own lives in peace and security. We assure you that once the menace of Germany and Italy is removed from you, we shall quit your territory at once—do not obstruct this great purpose.

Lt. General Dwight D. Eisenhower, Commander of the American forces in the European theatre, is Commander-in-Chief of the Allied invasion force. Gen. Eisenhower, in a broadcast to Frenchmen of North Africa, promised not to attack the French themselves, upon certain conditions.

That Nagging Backache

May Warn of Disordered Kidney Action

Modern life with its hurry and worry, irregular habits, improper eating and drinking—its risk of exposure and infection—throws heavy strain on the work of the kidneys. They are apt to become over-taxed and fail to filter excess acid and other impurities from the life-giving blood.

You may suffer nagging backache, headache, dizziness, getting up nights, leg, pain, swelling—feel constantly tired, nervous, all worn out. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.

Try Doan's Pills. Don't keep the kidneys to pass off harmful excess body waste. They have had more than half a century of public approval. Are recommended by grateful users everywhere. Ask your neighbor!

DOAN'S PILLS

Knitwear Keeps You Warm and Smartly Attired All Day Long

By CHERIE NICHOLAS

SUCH a splurge of things knitted of gay and beautiful yarns in intricate patterns and unique design as fashion is making this season.

Pullovers, cardigans by

day and bed jackets by night; smart tailored woolknit jackets for town wear; sweaters for casual wear, for sports or attuned to dine-and-dance wear; waistcoats, vestees and dickies too stunning for words; jerkins, too, to add extra warmth and to sound a convincing note of chic—this is the message fashion is broadcasting from the knitted realm in answer to the challenge of prospective lowered room temperatures in houses, theaters and stores this winter due to fuel restrictions, and of gas rationing, which will cause us to walk more than ever before.

One of the outstanding items of interest in the new collections is the waistcoat, now being revived in all its former glory. Note the smart checked knitted vestee, or waistcoat, shown to the left in the above picture. Here's warmth for you underwritten with a declaration of definite chic. Choose it in yellow, gray and white check as shown here, and you will make no mistake. Add a hundred per cent Australian wool sweater and you will have the kind of protection that cruel wintry blasts will find it difficult to penetrate.

As to tailor-knit jackets, they are not missing a fashion "trick" in their styling. They are taking the place of the gay tweed jackets (at least they make a grand alternative) which have been so conspicuously present for many seasons.

It takes mastery styling to achieve a knitted jacket as smart and patrician looking as the model shown at the lower right in the illustration. This navy and white tailored knit jacket is one hundred per cent wool. As pictured it is worn with wool slacks. It would be equally as good-style worn with a dress or with a separate skirt.

As to the new sweaters, volumes could be written about them. The prospect is that there will be a stampede this winter for both utilitarian types and evening modes of dazzling mien.

College girls are making a mad rush for twin sweater sets, a pullover teamed with a jacket sweater type. Fashion is especially featuring shaggy effects, with teddy-bear cardigans in the lead. White sweaters with vivid wool embroidery and novelty yarn fringe trimming are particularly in the spotlight this season.

Evening sweaters provide a theme for poets to sing of and painters to glorify in portraiture. To say that they dazzle the eye is not a figure of speech, but literally so. The big news about them is their glittering embroidery. The white woolknit evening sweater shown above to the right is elegantly embroidered with pearls and fine gold braid. Note the novel bracelet embroidered directly on the knitted surface. Long "cultured" pearls, diamond earrings and a dainty spray-pin of pearls for the hair complete the jewelry ensemble.

By the way, it's correct to wear beads and jewelry with daytime sweaters as well as with evening knits. The smart young modern pictured in the group wearing the checked knitted vest is very appropriately flaunting a new version of the popular bangle bracelets in light and dark amber set in gold. Also, she is proudly wearing an amber ring set in gold and a chatelaine gold watch suspended by a chain from a gold key pin.

Released by Western Newspaper Union.

Yarn Ensemble

This most intriguing hat and muff set goes to show the perfectly charming things that are being done with gay yarns this season. The flattering hat with its pert tall-pointed crown, together with the huge muff, is in a beautiful shade of turquoise blue yarn with black jet beads decorating the fringe. The enormous muff is a crochet and knit masterpiece. A dramatic jewelry ensemble of highly polished faceted jet adds the perfect touch to this accessory group.

Fluid Drape

The one dress that stands pre-eminently forth as making a grand success of it from the very beginning of the season is the silhouette dress of crepe, satin, or rayon or of wool jersey, that is made with utmost simplicity, its importance centering about the exquisiteness of its fluid drape that swings it into graceful slenderizing lines.

Glitter Brightens Simple Dark Wools

The fact that simple little daytime wool frocks, and even knitted modes, are highlighted with glitter accents in the way of bead work and sequin embroidery is very style-significant. Two outstanding trends in the use of glitter notes give variety to the mode.

The one is the positioning of a single motif of sequin-worked flowers on frocks that are otherwise styled with extreme simplicity. An afternoon frock of either velvet or crepe that interprets this technique makes for good style this season.

The other gesture in adding the sparkle highlight is seen in alluring sheer yokes that top otherwise simple dark dresses. These yokes are often as filmy as chiffon or sheer weave can make them, and they take on glamour in that they are finished off at the lower edge with a handworked jewelry effect or a huge bowknot done in sequins. Sometimes the treatment is varied in that the filmy yoke is allover studded with seed pearls or sparkling tiny beads.

Neckline Notes

Both long and short dresses often have low square necklines and plunging V-necks. There is a disposition on the part of designers to create such fascinating, artful effects that the rest of the dress is styled with extreme simplicity as to better accent the chic and charm of the ingenious neckline. Accents of sequins, embroidery and filmy black lace add to the picture.

Quilted Satin

Quilted satin in pastel colors is a new medium for collar and cuff sets. Yokes with square necklines and dickies with round "jewelry" necklines are popular. For fill-ins for velvet suits there are metal cloth dickies in high colors, such as emerald, purple and fuchsia red.

This Cadet Gives One Penny to Uncle Sam

IOWA CITY, IOWA.—A cadet stationed at the navy training school here wasn't going to miss out on something for nothing when he bought a post card.

The post office reported the cadet had purchased a one-cent government post card, crossed out the printed stamp, and wrote "free" on the card.

Postwoman Finds Task Is No Cinch

But Is All Right for Woman In Wartime.

VICTORIA, B. C.—Yes, folks, the job of postman is all right for a woman in wartime but high-heeled shoes are neither standard nor comfortable equipment.

This is the view of Mrs. Florence Blanchard, British Columbia's first woman mail carrier, who says she enjoys the work and hopes to be placed on the permanent staff in due course. An attractive woman in her 30s, she stands about five feet, seven inches; weighs 140 pounds, has gray eyes and brown hair. Her postman's cap becomes her.

"I always liked walking and meeting people," she says. "I wore high-heeled shoes and blistered my feet the first day, however. The second day I put on flat-heeled shoes with crepe soles and found it much easier."

Mrs. Blanchard admitted the first 10 days were pretty hard, with two bundles of magazines and a bag of letters a common load on her route. It got better as she went along. She was bantered by the men but the women said they were proud of her and "made it pleasant going." She had invitations to stop for tea but had to express her regrets and keep on. She encountered only one dog that snapped at her.

Born in England, Florence Blanchard was brought to Canada when she was three years old and lived in Winnipeg for 12 years. Her husband, a shell-shocked veteran from the first great war, died some months ago and she has a 17-year-old son graduating from high school this year. She has two brothers serving in the present war.

His Grenades Ali Gone, Major's Rocks Ront Japs

MARINE HEADQUARTERS, SOLOMON ISLANDS.—There are many reasons why the Japanese failed to recapture the Solomons in a determined 48-hour assault by land, sea and air that started at sundown on September 12, but here is one instance of bravery, coolness and fast thinking that explains some of the "whys."

Maj. Kenneth D. Bailey of Danville, Ill., whose unit ran out of hand grenades while in a front line position and had nothing left with which to blast the enemy from a clump of bushes, picked up a handful of rocks and pitched them into the bushes.

The frightened Japanese—believing they were being attacked with delayed action shells—ran out in the open, where the marines mowed them down.

Bailey, who suffered a leg wound August 7, twice was shot through the helmet, the bullets grazing his head. He killed the Jap who fired the shots from a distance of eight feet in the darkness.

Cadet Bales Out; Causes 'Parachute Spy' Scare

NEWBURGH, N. Y.—A parachutist spy scare near West Point was cleared up by telephone after witnesses reported that a man leaped from a plane.

The report was corroborated by the public relations office at Stewart Field, the academy's training school.

But it was during a routine training flight that Lieut. Joel R. Barton Jr. of Sterling City, Texas, sent his plane into a twist and ordered Cadet John R. McNiel of Camden, S. C., to "Get out of here."

McNiel didn't waste a moment. He followed orders and bailed out.

Lose Battle of Glares
WILLIAMSPORT, PA.—Patience hath its reward—so the saying goes—but you can't convince two women who went dollar-day shopping.

Out of the crowd at the shoe counter they limped—each holding the mate of a pair of shoes.

Neither would give up her share of the bargain and both sat down to wait—and glare at each other.

Four hours later they were still sitting—and glaring. The manager came to the counter, took the shoes off sale and replaced the regular price tag.

The ladies left.

Callant Chap's Thoughts Were but Badly Worded

She was young and pretty, and her confusion as she fumbled vainly in her handbag for small change to pay her fare on the bus was quite charming.

"Could you change a five dollar bill for me, please?" she asked, smiling shyly.

"Sorry, miss," replied the conductor. "But don't you worry; you can pay me the ten cents some other time."

"But you may never see me again," quickly replied the young lady.

"Well, what's the odds?" he said, meaning to be gallant. "It won't break my heart if I don't."

For those smokers on your Christmas gift list give a carton of cigarettes or a pound of smoking tobacco. Particularly those smokers in the service. Surveys show cigarettes and smoking tobacco are preferred gifts. Sales records from Post Exchanges and Canteens show the favorite cigarette is Camel. And, of course, for the service man who smokes a pipe—give Prince Albert—the National Joy Smoke. You have your choice of Camels in the Christmas Carton containing 10 packages of 20's—or the Camel "Holiday House" of four boxes of "fat fifties." Prince Albert comes in the pound canister—a grand gift. All are Christmas-wrapped and ready to give. Your local dealer is featuring them now as gifts sure to please.—Adv.

Sailor Swims 19 Hours; Tells How He Tricked Japs

Plays Dead When Forced Off U. S. Boat in Solomons; Buddies Shot in Sea.

U. S. NAVY OPERATIONS BASE, SOLOMON ISLANDS. — Seaman Robert James Canavan, 20, former Chicago drugstore delivery boy, swam for 19 hours in the South Pacific to bring back the story of how a Japanese cruiser sank an American patrol boat and methodically machine-gunned to death all five of his shipmates.

Canavan said he escaped death only by floating in a dead-man fashion as the cruiser passed within 50 feet—so close he could see the faces of the crew and could hear a bugle blowing.

The American patrol boat had left its base the night of August 18 to search for enemy submarines off the coast of Guadalcanal, Canavan said. At dawn the crew sighted the cruiser bearing down on them from the west.

"We did not pay much attention to the ship, as we figured the cruiser was ours," Canavan said. "Five minutes later the cruiser altered its course and bore down on us."

"The closer the cruiser got, the more suspicious she looked, and when she fired a salvo at us from her forward guns we knew she was a Jap even though she didn't fly the Rising Sun.

Tries to Dodge Foe.

"We saw we couldn't make our base, as the cruiser moved between us and the beach, so we turned around and headed for Tulagi, about 15 miles away, zigzagging at full speed in an attempt to dodge her."

Canavan said the cruiser quickly closed the gap, however, and fired its machine guns as it moved within range. The crew lay face down on the deck of the little boat and, though the machine-gun bullets splintered the planks around them, none of the crew was hit.

One by one the crew members slipped overboard. Canavan said they looked like fishnet floats strung out behind the boat.

"The Japs let loose a hail of machine-gun bullets which broke one of the spokes of the wheel and shattered the control panel. That was when I decided to leave."

The cruiser pulled alongside and for a half hour the Japanese removed supplies and the boat's jammed machine-guns.

After the patrol boat had been stripped, the cruiser backed away and sank it with machine-gun fire from 50 yards.

"Then they headed back toward me," Canavan said. "I thought they intended to run me down. The only chance I had was to play dead, so I spread-eagled myself and floated perfectly motionless as the ship approached."

Shoot Down Buddies.

"No attempt was made to shoot me. The ship passed right by. I had a little trouble with the wash, but came up all right."

"The cruiser headed right for the rest of the patrol boat's crew, who were pretty well bunched together about a mile away. As the Japanese ship approached, she halted for about five minutes and could hear the firing of machine-guns."

"That was the last I saw of the others. When the cruiser got under way again, they were gone."

"I had done a lot of swimming in Lake Michigan, so I knew I could make it all right," he said. "I first tried swimming for Guadalcanal, as I was in the middle of the channel, but the current was against me, so I swam to Florida island on the other side."

"The natives I saw were all daubed with war paint and carried shields," he said. "They couldn't speak English, but they gave me coconuts and were friendly."

He spent another day on Florida and then walked around the island to a point where the channel between Florida and Tulagi was only 400 yards wide, he said. He swam across and was picked up by a marine, who took him to a hospital.

Chinese 'Rights'

In New York city, every Chinese who rents a store or some other business building claims that he has a "basic property right" in it and, therefore, will not allow another Chinese to lease it until the man has purchased this right, says Collier's. When such a demand runs into thousands of dollars, the owner is seldom able to rent the property again to a member of this race.

Could Be
 A diplomat once told a story about a Chinese committing suicide by eating a gold leaf.

Folly to Be Wise
 "I am told he has more money than he knows what to do with."
 "Has he really? Such ignorance must be bliss."

Don't It, Though?
 "That's great, Mac, you've holed in one."
 "Well, it saves wear and tear on the ball."

Best Trained
 Mother announced that a prize would be given each Saturday to the most obedient member of the family during the week.

The young man burning with love usually makes a fuel of himself.

In His Line
 "Any man can find work if he'll only use his brains," said the efficiency expert, "providing, of course, he is ready to adapt himself to circumstances, like a piano-tuner I once met on the Canadian prairie."

HOUSEHOLD HINTS

Broiled vegetables brown better when dipped in salad oil or melted butter.

When unsalted fats are used to replace butter or margarine in baking, additional salt may be needed.

When carving a rolled or standing rib roast use a very sharp, thin-bladed, long handled knife. For the rolled roast cut thin slices across the top; for standing roasts cut in thin slices at right angles to the ribs.

Take some garden soil, mix in some compost and fertilizer, and put it away where it won't freeze. Then next winter or next spring when you want to do some extra potting of plants, you will have some nice soil ready.

Be sure that the fruits and nuts are well distributed throughout your fruit-cake mixtures. Chop or grind them into uniform-sized pieces and sprinkle them well with flour to prevent them from sticking together or remaining in one spot in the cake batter.

A leaky chimney flue is one of the most expensive and trouble-breeding ailments from which any house can suffer. If you suspect that your chimney harbors a leak, lose no time in making sure of it, and if there is a leak, even a small one, have it repaired at once.

Left-Handedness
 Left-handedness occurs twice as often among individuals of twin birth as among those of single birth and with about the same frequency in fraternal as in identical twins. Neither of these tendencies is fully understood by geneticists.

Dance in Trance
 Until they were invaded by Japan, the people on the island of Bali staged an odd ritual, the participants being a group of girls about eight years of age, says Collier's. Using all parts of the body, they performed a dance with music lasting a half-hour, although in a trance induced by a narcotic.

SNAPPY FACTS ABOUT RUBBER

Japan now controls about 80% of the rubber plantations of the world.

Regardless of whether synthetic rubber is made from petroleum, grain, straws or chemicals it will be some time before car owners will be able to purchase synthetic rubber tires. War purposes have first call.

A tombstone marks the spot near Sussex, England, where a tire that had served its owner 38 years was ceremoniously buried.

300 rubber parts, not including tires and tubes, are used in the modern automobile. Without rubber the car would truly be a "roll" wagon.

There is talk these days of recapping 25,000,000 tires a year! Quite a jump from the 3,500,000 recapped—retreaded mark of 1937.

Automobiles were on over 58% of all U. S. farms in 1940; 15.8% of the farms had motor trucks and 25.1% motor tractors.

Forward With Books
Book Week this year finds us waging a war to the death against a brute foe who knows that if truth, beauty and decency are to be stamped from the earth, they must first be destroyed in the minds of children. Books bring inspiration for every boy and girl, for in them can be found the stories of past struggles to make men free. They are the best means by which we can teach children why we fight and for what we fight. Naturally, Book Week focuses attention on children's books for just seven days, November 15-21, but the enthusiasms and energies aroused spread throughout the year. In 1942 while we adults fight to preserve the present, it is fitting that the slogan for children's Book Week should be "Forward With Books", for "books are weapons" and young people must be provided with mental ammunition for the future. An invitation is extended to everyone to visit the library "Book Week."

Army Needs Help

The Quartermaster Corps of the War Department is in urgent need of eligible applicants to fill inspectorship positions. These employment opportunities are open to men 35 years of age and over; who are not liable to early induction into the armed forces by reason of high classifications under the selective service act, or who are not presently deferred because of corrective physical condition or dependency circumstances such as could justify the reasonable assumption that they may soon be reclassified and inducted. No one now engaged in war work will be considered unless the position for which they are applying calls for the use of higher skills than they are now using in their present employment. Applicants must have at least four years of inspecting or testing plywood products with shop experience or substitution experience and training as determined by the appointing officer as adequate for proper performance of duties. Ability to read blueprints is a fundamental requirement. Duties will consist of inspecting plywood products at contractors' plants for compliance with government plans, maintaining records of production, originating receiving reports and making shipments on government bills of lading. Applicants must possess ability and personality to deal successfully with military leaders, enlisted men and officials of the contracting firms. Base pay is \$2000 per year. The work requires considerable traveling with allowance of per diem plus transportation. Appointments generally will be for the duration of the war and in no case will extend more than six months beyond the war. File applications with P. J. Martin, representative, U. S. Civil Service Commission, 1107, New Post Office Bldg., Chicago, Ill. Tel. Wabash 9207. **CIVILIAN HELP FOR ENGINEERS** College graduates with approximately five (5) years experience with steel or steel construction are needed by the U. S. engineers in the construction of new locks at Sault Ste. Marie, Mich. The duties will consist in checking steel as it arrives, inspecting assembly of steel on job or in place and rejecting inferior materials or workmanship. Must have experience, too, in electric welding or background for quick learning of same. The base pay will be \$2600 per annum. These appointments, generally, will be for the duration of the war and in no case will extend more than six months beyond the war. The U. S. Engineers are also seeking men with two years college engineering or equivalent experience in building construction, requiring the sinking of timber piles and/or substructure caissons, to serve as inspectors of timber pile driving at ore docks now under construction at Escanaba, Mich. The base pay will range between \$2000 and \$2600 per annum. The appointments will be for a period of from six to nine months. File applications same as for above.

Gas Rationing Board
Don V. Smith, Chairman of the Jefferson County Council of Defense, together with the Executive Committee was requested by the State Council of Defense to increase the War Price and Rationing Board to one man for each thousand of population, which would mean a 38 man Rationing Board. Originally, the board consisted of 3 men, who were: Chairman, Clarence Puerener, Jefferson; Francis Beggan, Watertown, and Ralph Ebbott, Fort Atkinson, (now resigned). Soon after, the board was increased to 6 men, with the following men added: Parkis Waterbury, Jefferson; Harold Fischer, Lake Mills, to replace Ebbott; Clarence Kieson, Jefferson; and Frank Tillotson, from the Township of Waterloo. At the present time, with more articles to be rationed, the board of 38 men for Jefferson County are as follows: Chairman, Clarence Puerener, Jefferson; Jack Freeman, James La Chance both of Palmyra; Francis Beggan, of Watertown, Parkis Waterbury, Clarence Kieson, Jefferson; Frank Tillotson, Watertown; Harold Fisher, Lake Mills; Carl Fischer, E. FOR THE HOLIDAYS AHEAD!
This year more than ever before our town friends and neighbors will be coming over to spend some of the holidays. It's going to be a problem what to serve as so many things are hard to get.
Here's an evening snack that'll really hit the spot:
Casseroles of Sweetbreads and Mushrooms
Whole Wheat Rolls
Green or Waldorf Salad
Hot Cocoa
