

IN AND ABOUT TOWN

Mrs. H. G. Chapman, Mr. and Mrs. Chet Poetsch and Evelyn Chapman were dinner guests of Mr. and Mrs. Southcott at Dousman Saturday.

A letter received from Mrs. J. M. Reich informs us that she has been very ill, caused by a heart attack on Wednesday before Christmas and was rushed to the hospital. She is now at home but must remain in bed for a six weeks rest. We trust Mrs. Reich will soon be on the gain.

The Levi Baker family and Mrs. Ella Baker and daughters Emma and Eunice and Levi Combs of White-water were New Year's guests of Mr. and Mrs. Ralph Baker.

A marriage license has been issued for Wesley Wambold and June Mosher.

Mr. Wm. Mell and son Erick of Skokie, Ill., and Eleanor Seitz of Chicago were Saturday and Sunday guests of Mr. and Mrs. F. Mell. Mrs. Mell was unable to accompany them on account of the illness of their little girl Judy.

Julius Rostowski and son Walter of Hebron were Eagle visitors Monday. We acknowledge a pleasant call.

Mrs. T. A. Lee entertained at a Christmas party last Wednesday evening. Those present were Mrs. Frances Kramer and children Yvonne and Paul, Mrs. Frank Breidenbach, daughters Jean and Helen, Mrs. Vinton Sherman and Miss Ann Chapman.

On Sunday night, at her home, Miss Helen Stute entertained Rev. George Wollet and members of St. Theresa's choir.

The Geo. Stead family, Dean Jones family and Mrs. Annie Stead were guests of Mr. and Mrs. Earl Willson at Palmyra Sunday.

Walter Lutz, who has been unable to go to his work at the Allis-Chalmers Co., since August has recovered sufficiently from his operation as to be able to resume his work Monday morning.

Mr. and Mrs. Geo. Link and Robert Link of Palmyra, Geo. Link of Madison, Miss Ella Quinlan and Miss May Sinton of Oak Park, Ill. were Sunday guests at the John C. Agathen home.

May Markham accompanied by Isabelle Baxter of Mukwonago spent the New Year day with Kenneth Baxter, who is in the military service at Biloxi, Miss.

Katherine Machold entertained the Pioneer card club Wednesday and Mrs. Dean Jones was hostess to the young matrons.

Mr. and Mrs. Chet Poetsch of Madison and Evelyn Chapman of Milwaukee were holiday guests at the H. G. Chapman home.

Mrs. E. J. Hand and daughter, Mrs. Robert Louthain and little son Jeffrey Charles of Milwaukee came Monday night for a visit at the Chas. Stocks home. Mrs. Hand returned Tuesday evening while Mrs. Louthain remained for a longer visit.

Mrs. Francis Goodby and Jack Taafe went to Milwaukee Sunday. Jack returned to school after spending the holidays at Eagle.

Mr. and Mrs. Floyd Dunham of Burlington and Geo. Dunham of Waterford were Eagle visitors Monday.

Mrs. Clarence Armstrong was a visitor at the Chas. Stocks home Tues.

Mrs. Morris Cummings spent New Year's with Mrs. L. Gasso. Private Morris Cummings is at Camp McCoy at Rockford, Ill.

Mrs. Warren Stocks and son, Richard of North Prairie were visitors of Chas. Stocks family Wednesday.

H. G. Chapman was a Janesville visitor Wednesday.

Walnut Logs at War

Walnut trees and log prices today are determined entirely by the number of army gun stocks they will produce. Fred Trenk, extension forester at the College of Agriculture, reports after a recent survey of walnut gun stock mills.

Most of the serviceable gun stocks come from the large logs which do not have small knots except near the centers, the extension forester points out, and this relation between the tree size and usable gun stocks is a sound guide for estimating fair prices for walnut logs and trees on the farm.

A farmer will never be wrong by refusing sales at less than \$50 per thousand board feet for the butt logs. Trenk believes, and this should be a fair board foot price for eight foot logs from sound trees 16 inches in diameter. Larger trees with longer logs bring higher prices, up to about \$150 a thousand feet for choice sound logs 16 feet long and over two feet in diameter at the small end, provided they are not too scattered or hard to get to a truck road, it was learned at the sawmills.

Even war doesn't justify cutting undervalued or defective trees on which everybody will lose, Trenk advises. A low offer usually means that a low yield of gun stocks is expected. Don't sell trees less than 15 inches in diameter. Refuse the low sale prices. If the tree is worth more, you'll get it. If it isn't, you will be saving a lot of waste walnut wood at the gun stock mill.

A walnut tree survey in the state is being made by the extension forestry office and any farmer who has walnut timber to sell is urged to obtain a survey report sheet from the county agent. On the basis of this report, the extension forester would be able to advise on fair market prices for the timber.

O. E. S. Installation

W. W. Perry Chapter O. E. S. installed Officers on Monday evening. W. W. Perry Chapter O. E. S. held a joint installation with the Robert Morris Lodge at the Masonic Hall. Star Officers installed are as follows:

Hertha Kippis, Worthy Matron; Jay Stead, Worthy Patron; Grace Stubbs, Associate Matron; Richard Williams, Associate Patron; Fern Bovee, Sec'y; Mary Hess, Treas.; Erla Badinger, Conductress; Dorothy Heinz, Associate Conductress; Minnie Goody, Chaplain; Agnes Arth, Warden; Donald Marty, Sentinel; Ruth Weisner, Organist; Phyllis Marty, Ada; Letha Sherman, Ruth; Florence Smart, Esther; Alida Reed, Martha; Belle Swan, Electra; Lillie Stewart, Trustee.

The installing officers were: Amanda Amann, Matron; Phyllis Marty, Marshall; Ruth Weisner, Organist; Ella Cannon, Chaplain.

Those installed in the Rob Morris Lodge Monday evening were:

John Baxter, Worshipful Master; Chas. Cruver, Sec'y; J. Amann, Treas. Dexter Badinger, Sr. Warden; Clarence Arth, Jr. Warden; Chas. Price, Sr. Deacon; John Hines, Jr. Deacon; Delbert Stubbs, Sr. Steward; Ivor Hopkins, Jr., Tyler.

After the installation a most delicious supper was served by the men. A large number of friends were also in attendance.

FINAL RITES HELD SUNDAY FOR MUKWONAGO MAN

Funeral services were held at 2 p. m. Sunday for Henry Wollenzien, 75, a painter who died at his home here Thursday. He is survived by his wife, Helen, and two daughters, Mrs. Mabel Opstead of Madison and Mrs. C. Swan, town of Mukwonago. The Rev. Arthur N. Brown will officiate and burial will be in the Oak Knoll cemetery.

JUDGE ALLEN D. YOUNG COOPERATES TO SAVE GAS

On account of the gasoline shortage County Judge Allen D. Young will visit the places on the list below at stated intervals, for the purpose of making up and checking guardian's and trustee's accounts.

The securities must be exhibited at the time you make up the report.

Jan. 14—Tess Corner School, 10 a. m. to 12 noon. Big Bend Bank 1:30 p. m. to 3:30 p. m.

Jan. 15—Genesee Depot Bank, 10 a. m. to 12 noon. Mukwonago Bank, 1:30 to 3:30 p. m.

Jan. 21—North Prairie Bank, 10 a. m. to 12 noon. Eagle School 1:30 to 3:30 p. m.

Jan. 22—Wales Bank, 10 a. m. to noon. Dousman Bank, 1:30 to 3:30 p. m.

Jan. 28—Elm Grove School, 10:00 to 12 noon. C. E. Kuckuck Office, Butler, 1:00 to 2:30. Brookfield Bank 3 to 3:30 p. m.

Jan. 29—Lannon School, 10 to 11 a. m. Menomonee Falls Bank, 1:00 p. m. to 3:30 p. m.

Feb. 4—Sussex Bank, 10 to 12 noon. Pawauke Bank, 1 to 3:30 p. m.

Feb. 5—Merton Bank, 10 to 11 a. m. Hartland Bank, 1:30 to 3:30 p. m.

Feb. 11—Mapleton Hotel 10 a. m. to noon. North Lake Bank 1:30 to 3:30 p. m.

Feb. 12 Feb. 9, Mar. 9—Court Room, City Hall, Oconomowoc, 10 a. m. to 3 p. m.

Feb. 15—Delafield School 10 a. m. to noon.

FROM FRANCES SPLECHTER

Dear Dad:

I imagine you are worrying where I am. Well I can say I am in North Africa. I suppose you think nothing but negroes live here, and that it is terribly hot, well that's what I supposed, but to my surprise, it isn't half bad here, much the same as it is at home.

We had a little action at the time we landed, but most of the people have really welcomed us.

How is everything at home? It is seldom that we get any news at all. Occasionally we do have a radio broadcast, but other than that we hardly know what is going on in the world. I hope to receive some mail one of these days, but it takes quite a long time to get it now.

There is really so little to say. Just take good care of yourself and everything. I'm perfectly o. k. Good as ever. Don't worry about me, I'll be home by and by.

May God bless you.

Love, Francis.

P.S.—Use the address on the card sent by the War Dept. To tell the truth, I don't even know my own address.

Clora Zierer Melster

Mrs. Clora Zierer Melster, daughter of Joseph and Magdalene Zierer and wife of George Melster of Palmyra, age 43 years, 9 months and one day, passed away Jan. 1, 1943 at 11 p. m. at Wisconsin General Hospital, Madison, where she had been a patient for the past 16 days.

Clora Zierer was born at Chicago, Illinois, March 21, 1899.

On April 2, 1917, she was married at Siloam to George Melster of Palmyra and they made their home in Palmyra and vicinity since that time.

To this union two sons were born, William and George Tobias.

Surviving are her husband, 2 sons, her mother, Mrs. Magdalene Linn of Tarpon Springs, Florida, one sister, Mrs. Theresa Hensel of Dousman, two brothers, Joseph Zierer of Milwaukee and Albert of Tarpon Springs, Fla.

For the past six years Mrs. Melster has been in very poor health and almost a constant sufferer, but she was always cheerful and bore her misfortune with great patience. She will be greatly missed by relatives and all who knew her.

Funeral services were held Tuesday at 2 p. m. at Smith's Funeral Home. The Rev. E. A. Henderson of Elkhorn officiated.

The pall-bearers were: Ray Cory, Leonard Williams, John Lueck, Frank Keithley, Harry Froedter, Walter Bulgrin. Selections were sung by Mrs. Harold Broadberry, Mrs. Lawrence Trewyn, accompanied by Miss Joyce McIlree.

Assisting with flowers were: Mrs. Walter Bulgrin, Mrs. Wm. Sake, Mrs. Harry Bennett.

Burial was in Hillside Cemetery in Palmyra.

Melendy

By Ruby Drays

Mr. and Mrs. Donald Lee and son Bruce spent their Christmas vacation with her parents, Mr. and Mrs. Roy Burton.

Mr. and Mrs. Julius Drays and son and Miss Myra Busky from Oconomowoc spent Sunday afternoon in the Charley Drays home.

Mr. and Mrs. W. C. Turner spent Sunday with Mr. and Mrs. Donald Van Wart at Beloit. Mrs. Turner stayed for a few days.

Mr. and Mrs. John Dahle spent the week end with her parents, Mr. and Mrs. Roy Burton.

Pvt. Kenneth Clemons

Private Kenneth Clemons who was injured while working in a laundry in a camp in California died Monday morning. He leaves surviving him three sisters: Gertrude Clemons of Whitewater, Mrs. Emily Paster of Cold Springs and Janet Clemons of Belvidere. The funeral will take place from the Methodist Church at Whitewater Sunday afternoon, with burial in the family lot in Little Prairie cemetery. Pvt. Clemons was a nephew of Mr. and Mrs. Wallace Chapman.

News of Our Neighbors

NEW YEAR GUESTS

New Year Day guests at the home of Mr. and Mrs. William Rudolph were Mrs. Shirley Oboren and daughter, Lorraine of Eagle and Mr. and Mrs. Merle Cotton of North Prairie. The occasion being the birthday of Mrs. Florrie Cotton, mother of Mrs. Rudolph, Mrs. Oboren and Merle Cotton.

Mrs. Ollie Meech of Hellenville was a Palmyra caller Tuesday and while here stopped in our office.

Miss Miriam Murray of Milwaukee was a guest of Miss Margaret Sullivan last Tuesday.

Mr. and Mrs. George Sullivan took their daughter Margaret back to Milwaukee last Wednesday.

METHODIST WOMEN'S SOCIETY HAS NEW SET OF OFFICERS

At the first meeting of the New Year on Wednesday, Jan. 6, the newly elected officers assumed their duties. Plan and program procedures were set forth. One of the immediate projects for the new year is a sewing of supplies for the Methodist Home in Milwaukee.

The new officers are:

President, Mrs. A. LaMer; Vice-President, Mrs. H. Broadberry; Secretary, Mrs. C. Thayer; Treasurer, Mrs. E. Hebard; Sec'y of Missionary Education, Mrs. L. Trewyn; Sec'y Local Church Activities, Mrs. H. Meister

Mr. and Mrs. Johnson and family of Milwaukee spent the week end with her parents, the Rev. and Mrs. Amos Tucker.

The E. H. Barnes family were also guests of the Asa Clemons family on Saturday evening. The occasion was the celebration of Marvin LeRoy's second birthday.

Mr. and Mrs. R. F. Knowlton were New Year Eve dinner guests of Mr. and Mrs. Asa Clemons and family.

About seventy-five young people attended the Watchnight Service at the Methodist Church on New Year's eve. A play, song slides, refreshments and a communion meditation made up the program.

Janice and Robert Ketterhagen entertained a group of friends Saturday evening. After an evening of games, a lovely buffet luncheon was served.

Janice Ketterhagen returned to her studies at Edgerton Academy at Madison Sunday.

Mr. and Mrs. D. R. Jones were Saturday evening and Sunday dinner guests at the Plankinton Hotel in Milwaukee. Hosts and hostesses were Mr. and Mrs. Wilmer Schmidt and Mr. and Mrs. Howard Rafter.

Russell Jones, Doris Thayer and Rollie Draves returned to their studies at Madison last Sunday.

Loose Talk Dangerous

On battle fronts every day men are risking their lives to discover the location and strength of the military units of the enemy. Yet at home, too many of us are presenting the enemy with information of the same military value, the Office of Censorship says in a statement.

This is the information which newspapers and individuals are asked not to tell the enemy:

DO NOT TELL the names of ships upon which sailors serve.

DO NOT TELL the troop units in which soldiers serve overseas.

There is no objection to revealing that Pvt. John Jones is in Australia or that Seaman Tom Brown saw action in the Atlantic, but there is military information which endangers the lives of American fighting men in the statement that Pvt. John Jones, Company C, 600th Infantry, is in Australia, or Seaman Tom Brown, aboard the U.S.S. Wisconsin, is in the Atlantic.

The Office of Censorship says: "We ask editors not to publish these troop identifications, and we ask parents and relatives not to reveal them. Do not give the enemy anything that may lengthen the war!"

Crop Display

Crop varieties that will best help Wisconsin farmers to produce for victory will be on display at each of the eight Farm and Home Week programs scheduled during January, reports E. D. Holden, secretary of the Wisconsin Experiment Association.

The new Vicland oats, hybrid corn varieties adapted to each area, Manch soybean varieties Nos. 3 and 606, Mandarin No. 507, and No. 38 barley—all high yielding varieties developed for Wisconsin—will be among those on display. Members of the experiment association and the University agronomy department will have a display of these varieties on the first day of each program, and are inviting the farmers to meet with them to discuss their seed and crop problems.

Farm and home week locations and dates include: Antigio, January 18-19; Green Bay, January 19-20; Fond du Lac, January 20-21; Whitewater, January 21-22.

Cheese Sales High

Madison—Reports from all parts of Wisconsin, while still incomplete, indicate that Christmas cheese sales were surprisingly high this year, according to the state department of agriculture.

Into military camps throughout the nation, Wisconsin's famous natural cheesebrought new cheer and happiness to thousands of men in uniform. Although the department of agriculture suggested that cheese shipments be confined to this country because of transportation problems, it has been reported in a number of instances that Wisconsin cheese packages have reached foreign destinations in excellent condition.

Parents have inquired if it is advisable to continue to send Wisconsin natural cheese to boys in the service, especially in this country. The department has assured them there is no more appreciated gift the year round than Wisconsin cheese.

Many distributors have already declared their intentions of continuing to pack gift boxes of Wisconsin natural cheese.

ANNUAL MEETING

The Mukwonago Mutual Fire Ins. Co., will hold their annual meeting in the upper room of the Masonic Hall Tuesday afternoon, January 12, 1943 at promptly 1 p. m. As soon as this is finished there will be a meeting in the corner hall for farmers who are interested in the A. A. A. Programme. A notice of which is in the paper.

HOUSEHOLD HINTS

To oil a door lock, dip key into oil and turn several times in lock.

If a fruit pie runs out in the oven, sprinkle salt over the spilled juice and the oven will not become filled with smoke.

Dip the knot on the end of that new halter rope in glue and let it dry a few days before you use it, and you won't have any trouble keeping the knot in it. Better use waterproof glue if you can get it.

When liquid glue has hardened so as to be unfit for use, try softening it with a bit of hot vinegar, just a little at a time.

A little salt added to the last rinse water will prevent clothes from freezing on the line.

A few cranberries added to applesauce when cooking will give it a delightfully new and interesting flavor.

When removing good buttons from worn-out overalls, cut about two inches of the surrounding cloth with the button. This can be used on other overalls where the button has been pulled out—the button and patch are in one piece.

Doesn't it seem more sensible?

That Nagging Backache

May Warn of Disordered Kidney Action

Modern life with its hurry and worry, irregular habits, improper eating and drinking—its rate of exposure and infection—throws heavy strain on the work of the kidneys. They are apt to become over-taxed and fail to filter excess acid and other impurities from the life-giving blood. You may suffer nagging backache, headache, dizziness, getting up nights, leg pains, swelling—feel constantly tired, nervous, all your own. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination. Try Doan's Pills. Doan's help the kidneys to pass out harmful excess body waste. They have had more than half a century of public approval. Are recommended by great all-cases everywhere. Ask your neighbor!

Little Lunches Flatter Wartime Menus
(See Recipes Below)

Victory Lunches

Mid-day meals with that go-and-get-it spirit are those that are properly balanced, and have plenty of eye-appeal. The days are gone when you can make a quick dash to the corner grocery and bring home lamb chops to broil quickly. Gone, too, are days when you had loads of leftovers from yesterday's roast.

But, homemakers, you need not be foiled, rather let your ingenuity devise new ways of getting nutrition requirements into your menus. Use protein foods like peas, beans, eggs, and vitamin B1 foods like cereals as extenders to make up for meat. Your New Year victory menu parade starts off with a meat loaf "stretched" with oatmeal.

Savory Meat Loaf

(Serves 8)

- 1 pound ground beef
 - 1/2 pound ground pork
 - 3/4 cup oatmeal
 - 1 egg, beaten
 - 1/2 onion, grated
 - 3/4 cup milk
 - 2 tablespoons chopped parsley
 - 3 tablespoons catsup
 - 1 1/2 teaspoons salt
- Combine ingredients in order given. Mix lightly until well blended. Place in a greased loaf pan, patting smooth. Bake in a moderate oven (375 degrees) about 1 hour. Makes approximately 2 1/2-pound meat loaf.

*Little Luncheons

(Serves 6)

- 2 cups sifted enriched flour
- 3 teaspoons baking powder
- 1 teaspoon salt
- 2 to 4 tablespoons shortening
- 2 to 3/4 cup milk
- 1/2 cup ground ham
- 6 poached eggs

Creamy Cheese Sauce
Sift flour, baking powder and salt together. Cut or rub in shortening.

Add milk to form a soft dough. Turn out on lightly floured board and knead 1/2 minute. Roll dough out into a long rectangle 8 inches wide and 1/2 inch thick. Cut in half lengthwise and spread each half with ham and roll jelly-roll fashion, sealing edges well. Cut rolls into 8-inch pieces. Form each piece into rings on baking sheet. Pinch ends together. With scissors, cut through rings almost to center, in slices about 1 inch thick. Turn each slice slightly on its side. Bake in hot oven (450 degrees) 10 to 12 minutes. Place a poached egg in the center of each ring and serve with Creamy Cheese Sauce.

Creamy Cheese Sauce
2 tablespoons butter or margarine

Lynn Says:

Cans and Jars: You will have noticed that your grocery shelves present a different picture than in the past. Instead of all food being put up in cans, some food has been preserved in glass.

In those foods placed in cans, the government has decreed three different sized cans.

A number two sized can, one of the standard sizes yields 2 1/2 cups and will serve four to five people. The number 2 1/2 sized can averages 3 1/2 cups and feeds six people.

Largest food can is number 10, usually used by institutions and restaurants. This large size is not usually practical for a family of less than eight since it yields 12 cups and would last for at least two meals.

A few additional sized cans are allowed in the case of canned meats, fish, baby food, and citrus juices.

This Week's Menu

- Hot Tomato Juice
- *Little Luncheons
- Cranberry-Orange Salad
- Celery Radishes
- *Date-Pecan Pie
- *Recipes Given.

- 2 tablespoons flour
- 1 cup milk
- 1/2 teaspoon salt
- 1/2 teaspoon pepper
- 1/2 cup grated cheese

Melt butter and stir in flour. Gradually add milk, stirring constantly. Boil sauce until it thickens. Cook 3 minutes. Add seasonings. Add cheese and stir over low heat until cheese is melted.

Baked Corn and Sausage

(Serves 6 to 8)

- 3/4 pound link or bulk sausage
- 1/2 cup chopped onion
- 1/2 cup chopped green pepper
- 2 tablespoons flour
- 1 teaspoon salt
- 1/2 teaspoon pepper
- 2 1/2 cups whole kernel corn and juice
- 2 1/2 cups canned tomatoes and juice
- 1 cup oven-popped rice

If bulk sausage is used, form into shape of link sausages. Brown sausage in heavy frying pan. Remove sausage and brown onions and pepper in fat remaining in pan. Add flour and seasonings and blend. Add corn and tomatoes and simmer until juice has partially evaporated (about 1/2 hour). Pour into casserole; arrange browned sausages on top like the spokes of a wheel. Sprinkle oven-popped rice on top. Cook in moderate oven (400 degrees) about 15 minutes until oven-popped rice is golden brown.

As golden as sunshine and as welcome is this luncheon souffle. Rich in vitamin A carrots and cheese, this dish will boost your resistance to colds and infection this winter.

Rice-Carrot Souffle

(Serves 6)

- 1 1/2 cups of cold cooked rice
- 2 beaten eggs
- 2 cups of milk
- 1 teaspoon of sugar
- 1 cup of grated cheese
- 1/2 teaspoon of salt
- 1 cup of cooked and sliced carrots

Make a thin custard of eggs, milk and salt. Add the cheese and, when melted, add the rice which has been boiled in salted water, drained and shaken dry. Pour into a buttered baking dish, cover with the sliced carrots, a fine sprinkling of sugar, and grated cheese. Bake over a pan of water about three-quarters of an hour in a slow oven.

*Date-Pecan Pie

(Makes 1 9-inch pie)

- Pastry for 1 9-inch pie
- 1 cup unbroken pecan meats
- 2 tablespoons butter
- 1 cup sugar
- 1/2 cup dates, cut
- 1 cup dark corn syrup
- 2 eggs, beaten
- 1 teaspoon vanilla
- 1/2 teaspoon salt

Line pie plate with pastry. Arrange pecan meats over the pastry. Cream butter and sugar together thoroughly, then add remaining ingredients, beating well. Pour into unbaked pastry shell over the pecans and bake in a hot oven (450 degrees) 10 minutes, then reduce to moderate (350 degrees) and bake 30 to 35 minutes or until knife inserted in center comes out clean. Cool. May be served with whipped cream.

Lynn Chambers can tell you how to dress up your table for family dinner or festivities, give you menus for your parties or tell you how to balance your meals in accordance with nutritional standards. Just write to her, explaining your problem, at Western Newspaper Union, 210 South Desplaines Street, Chicago, Illinois. Please enclose a stamped, self-addressed envelope for your answer. Released by Western Newspaper Union.

FIRST-AID to the AILING HOUSE

by Roger B. Whitman

Roger B. Whitman—WNU Features.

You may not be able to replace worn or broken household equipment. This is war. Government priorities come first. So take care of what you have... as well as you possibly can. This column by the homeowner's friend tells you how.

WORN VARNISH AT DOORWAYS CAN BE PATCHED

THE waxing of a varnished floor has another purpose besides improving the appearance; for the wax takes the wear. Heaviest wear, of course, is at doorways, and the replacement of wax is a simple method of protection. Many people do not like waxed floors because of possible slipping, and in that case, the wear at doorways comes directly on the varnish. When wear begins to show, the revarnishing of the entire floor is not necessary, for the worn place can be so neatly patched that it will not show. The first step is to go over the worn place with sandpaper to make it smooth and to take off soiling that washing may not remove. Varnishing should begin at the center of a worn place and go toward the edges. At the edges the varnish is applied thin, and should go over the old varnish in such a way that a margin will not be visible. Two and probably three coats of varnish will be needed in the center of the worn place, but the edges of all of them should be so thin that they will not show. As each undercoat becomes hard, it should be lightly rubbed with very fine sandpaper to cut into the gloss.

Basement Playroom

Question: In the summer our cellar walls sweat pretty badly. I am planning to build a playroom there. What would you advise for the ceiling and walls? Since the basement is not very warm in winter, would you advise placing rock wool batts or other insulation between the furring strips? Would covering the walls stop the sweating?

Answer: Covering the walls with plywood, a rigid insulating board or a gypsum wallboard, with the top and bottom sealed against air circulation in the space behind the wallboard, should prevent condensation. If the cellar is very cold, a one-inch blanket of insulation, the kind enclosed in waterproof paper, placed between the furring strips will make it more comfortable. The floor can be covered with asphalt tile or a synthetic resin floor paint.

Sooty House

Question: I have a coal-burning furnace, with a stoker. While I get all the heat I need, the soot is so thick that curtains and furniture are covered in six hours. Heat comes through a grille.

Answer: In a hot-air heating system soot and fine ash are likely to seep through cracks in the cement joints between the furnace sections, or between the floor and the base of the furnace and into the heated air rising to the rooms above. Any cracks or crevices at these points should be filled with iron cement. All furnace doors should fit well against the frame. In addition, it might be advisable to place two thicknesses of dark mosquito netting back of each grille.

Radiator Does Not Heat

Question: I am having trouble with one of the radiators of my hot-water heating system; it does not heat. I drained the system and refilled it, and bled the air out of all the radiators. They all heat up except this one. What can I do?

Answer: There are several possibilities; perhaps the shut off valve at the radiator is not opened wide. Or air still may remain in the radiator, or may be trapped in a pipe bend or angle, thus blocking the circulation. Or the piping may be defective. A heating contractor should be called in to check on all these points.

Scratch Remover

Question: Is there such a thing as a scratch remover? I am sure I saw it advertised.

Answer: Yes; but you will have to inquire about it at your hardware store. I cannot give trade names in the column. If you do not find what you want, try running a little varnish of the right color into the scratch, using a pointed camel's-hair brush. Or use the meat of a pecan or Brazil nut—unsalted, of course.

Hot-Air Registers

Question: Our hot air registers make the rooms quite dusty. To catch the dust, I am planning to place a thickness of mosquito netting against the pipe inside the register. Would this check the flow of hot air, and should we have to burn more fuel?

Answer: Two thicknesses of black mosquito netting placed back of the hot air register may have a slight effect on the flow of heat, but not enough to cause an appreciable increase in fuel consumption.

ON THE HOME FRONT

with RUTH WYETH SPEARS

3 1/4 STITCHES WITH CANDLEWICK NEEDLE AND 4 STRANDS OF COTTON YARN DOUBLE IN WATER TO SHRINK

BRIGHT blue is the color keynote in this bathroom. Blue is used for towels and bath mat stripes and for a painted box cornice. The curtains are of coarse white muslin tufted with old-fashioned candlewicking in bright blue. It is difficult to find appropriate curtains that will stand steam and moisture so you may want to copy these in your favorite color.

Cut the curtains the length and width desired with ample allowance for shrinkage and baste the hems in. Next place the material flat on a table and mark diagonal lines on the goods with a yardstick and pencil, spacing the lines four inches apart to form the plaid pattern. Now thread a tufting needle with four strands of candlewick yarn, and work along these ruled lines using the thread double, as at the upper right. Also, sew the

4. If England is invaded what signals will spread the alarm?
5. Where does genuine mocha coffee come from?
6. How old was George Washington at the end of the Revolutionary war?
7. Is the slogan "America First" original with us?
8. Who was the "March King" of America?
9. What was the most popular ballad ever composed in the United States?
10. Can you define can-can, beriberi and paw-paw?

The Answers

1. Rare or exquisite.
2. To avoid showing distinction.
3. A flat stone placed above the capital of a column.
4. Church bells.
5. Arabia.
6. Forty-nine.
7. No. Previously an Australian Fascist organization used "Australia First," and the British Union of Fascists used "Britain First."
8. John Philip Sousa.
9. "Frankie and Johnnie" was the most popular ballad ever composed here. During the latter part of the Nineteenth century, more than 300 variations of it were sung from coast to coast.
10. Can-can is a dance with plenty of kick in it. Beriberi is a disease, chiefly in the Orient. Paw-paw is a tree bearing an edible, pulpy fruit.

Trojan Truck

Fifteen minutes before the first bombs fell on Pearl Harbor on December 7, 1941, a Jap dairy truck entered Hickam Field to deliver milk. After it had reached a point in front of the barracks, the driver stopped and pretended to fix his engine.

As our pilots rushed out to man their planes, the sides of the truck fell off and six Japs hiding in it with machine guns were able to kill 80 Americans before they themselves were shot.

TALK IT OVER WITH US

Buying Wisely

In these days people are buying wisely. They study values more closely than ever before, they compare prices. The buyer today studies advertising carefully, and the seller can use advertising and obtain better results than when money is more carelessly spent. Advertising nowadays pays—both buyer and seller.

hem in this manner; then clip the stitches, as shown at lower right and dip in water. Spread out smooth to dry but do not iron. Finish the tops with a rod casing.

NOTE: It is easy to give all your windows a professional finish with box cornices; and they prevent light from showing at the top, in a blackout. Pattern 207 which gives directions for making cornices will be mailed for 10 cents. Address:

Bombs That Demolish

Demolition bombs weighing 4,000 and 8,000 pounds each are rarely used today in Europe because the 2,000 pounder has sufficient destructive power for almost any kind of job. Released from a plane flying at 300 miles an hour at an altitude of 20,000 feet, this bomb, upon explosion, produces enough force to lift one ton six miles in the air.

PENETRO

Many users say "first use is a revelation." Has a taste of old-fashioned mutton stew. Grandma's favorite. Demand stainless Penetro. Generous jar 25¢, double supply 35¢.

COLD'S SORE, BRUISES, SNIFLES, MUCILLAGES, ACHES

Continents of Salt
If all the salt were taken from the oceans it would make 4,500,000 cubic miles—1 1/2 times the size of Europe above high-water mark.

Has merited the confidence of Mothers for over 45 years. Get a package today—for use when needed. Sold at drug stores everywhere. For free sample address Mother Gray Co., Le Roy, N. Y.

Youth's Expression
This young man expresses himself in terms too deep for me.—Sir W. Watson.

SNAPPY FACTS ABOUT RUBBER

The average car owner drove 9,000 miles in 1941, and at the rate of about 6,700 miles a year in 1942 before gasoline rationing was nationalized. Essential driving is now pegged at an average of 5,000 miles annually and the "A" rationing book allows for 2,800 miles of driving a year.

Don't always be content with an "ou the wheel" inspection. Have your tires removed from the wheels, and inspected closely. You'll be surprised what this inspection sometimes shows in the way of internal carcass injuries. Catch them in time and save mileage.

In 1941 a total new supply of rubber amounting to 1,441,000 tons, 310,000 or 21% consisted of reclaimed rubber.

Synthetic Era Taking Shape Today.

SUBSTITUTES INCREASE

Raw Materials Might Have Less Importance After War Ends.

Remember not so long ago when the slogan "Accept no substitutes" was popular? Today, because of war demands for strategic materials, the very opposite of that is the rule!

And the enemy is beginning to realize that what with Paratroopers dropping down on them from the skies in synthetic cloth parachutes, from transport planes made from substitute synthetic material, it would be good for them if they could get a personal substitute on the battle fields all over the world.

As the war progresses, Americans are awakening to the fact that they are in the middle of a chemical revolution, the end of which is not in sight, and the social possibilities of which are far from being completely, thoroughly achieved.

It used to be that the motorists of this nation were completely dependent on the laboring, sweating natives coming out of the jungles of South America and the Southwest Pacific area with their crude rubber extracted from trees. Within a year, according to William M. Jeffers, there will be plenty of synthetic tires for every one who has a car. And those tires will be synthetically made from all native, easy to obtain, either chemically or from the earth itself, material in the U. S.

An interesting part of this chemico-industrial revolution is that the rural section of the United States is taking an increasingly important part in it. Chemurgy, the science of finding new industrial uses for farm products, has been very busy during the past years. Now that the war is on, the good it is doing can be noted in the extensive use made of casein obtained from skimmed milk. The plastic material obtained offers the best possibilities as a substitute material in various kinds of war material.

Parts of many bombers, dropping block busters over Italy and Germany, are made from casein. Further research will find still greater uses for it. As it is now, a contented cow chomping grass along a

The Army's New Wooden Plane

This is an official war department sketch of the new type wood and non-strategic material military transport plane. It is twin-engine, and about the size of the present-day all-metal transport planes operated by domestic airlines. It is officially designated the Curtiss C-76. Performance details are a military secret.

Mississippi levee in Louisiana is partially the cause for discontentment in Axis nations.

Soybeans, from which many plastic articles useful both for the war effort, and helpful in the homes, is another farm product that is being further developed. Bagasse obtained from sugar cane waste has proven its worth for electrical goods, washing machines and automobile parts. Possibly the toothbrush you used today had a handle made from sugar cane.

Often you hear the statement that possibly, because of the nation's all-out war and death-dealing on the Axis, most of its natural resources such as oil, coal, iron ore, will be used up. But from the great strides taken by industries making substitute synthetics and plastics, it isn't far-fetched to suggest that maybe there will be no need for the present natural resources in years to come. At least, not as necessary as today.

Miss and Mrs. America have found that many synthetic products are clothing them just as well as when they could buy all the silk they wanted from Japan. Scientists state that it is quite possible that every bit of clothing you will be wearing in the not too far distance will be synthetically made. Maybe four or five of the pieces of clothing you own today are synthetically made, and yet you never realized it.

Household furnishings, from glass fireplaces to dishes, from dressers to stoves are now being made from synthetic materials. The old gag about the errand husband hiding all the dishes before facing his wife

holds no more. For many plastic dishes don't hurt when they land on the target because of their light weight. On top of that they won't break and are also too colorful to throw around. Any angry wife will think twice before she begins to lay down a barrage with such ammunition.

Many of the war plants constructed, and in the process of construction today, have no windows. All artificial lighting and air-conditioning takes care of what nature used to consider her job. Glass bricks that let the health rays of the sun through, but prevent vision, now take the place of windows.

Those who aren't "up on" their knowledge of what is going on in the world of substitutes still say something to the effect that "People who live in glass houses shouldn't throw stones." But there are glass houses today, with more in the offing, that wouldn't be in the least affected by anyone who might want to throw some stones at them. Even some good, solid glass bricks wouldn't cause them any damage.

Statements from scientists busy working in laboratories far into the night in all the free United Nations have hinted that what has been seen so far in plastics, is nothing compared to what is to come. One spokesman stated that by October, 1943, synthetic production will be sufficient to provide the nation's military needs.

As you look about and see the hundreds, thousands, of articles of everyday commonplace variety, you automatically begin to ask yourself, after fully realizing the significance of the substitution era you are in, whether that article, or this article—probably having some strategic, or scarce material—could not be substituted by a plastic. More than likely in the months to come you won't be surprised when that article appears in its plastic dress.

Scientists have tagged the millions of years in ancient man's past as belonging to certain periods as he slowly developed from the brute stage. Then there were the various ages, of stone, wood and iron. The astounding use of steel, brought about by quicker, more efficient production methods, gave that period of development in the U. S. the title The Steel Age.

You wouldn't be surprised, would you, if after this war is over and won, the present days, and then, would be appropriately titled the Plastic Period, or the Synthetic Era?

Glamorous
U. S. Department of Commerce Puts Title on Plastic Industry in Bulletin.

Acting director of the U. S. department of commerce's bureau of foreign and domestic commerce, in a reference service bulletin, issued this statement:

"The spotlight of industry today is focused on our glamorous plastics which are commanding much interest and attention. This gigantic new industry, now gone to war, is doing a fulltime job in meeting the requirements of the war effort where performance counts most.

"Both at the front and behind the front, plastics are playing an important part in war equipment. Through their ever-increasing use as materials vitally essential in both combat and industry they are now on equal basis with the older fundamental raw materials, glass, wood, stone and metal.

"Although the new and original uses, as well as substitutions, in the non-essential civilian classification have been curtailed for the duration, the plastics industry, we feel assured, will not retreat after the war, but continue its rapid advance."

Bulletins being printed for the department of commerce contain latest information on present-day articles now being made from synthetics.

As each new substitute is put on the market, the various bulletins have been listing them. Along with the articles listed are the trade names, besides technical names.

Celluloid, one of the earliest synthetics, which was used as transparent windows for early model car side curtains, is the forerunner of comb, brush, and mirror handles.

PATTERNS SEWING CIRCLE

Child's Frock. '8273 2-6 yrs.

PRETTY frocks for children are easy to come by, even at lowest possible costs, when you sew at home. Today's pattern suggests an adorable style for two to sixers with a perky scalloped front, curved shoulder yokes framing a flattering neckline and a wide, waist-smoothing girdle which ties firmly in back.

He Should Know

JOIN THE CIRCLE READ THE ADS

A Week of the War

New Year's day 1943 marked the first anniversary of the formation of the United Nations. In his first press conference of the New Year, President Roosevelt recalled the world situation that existed one year ago when 26 nations, bound together by the universal ideals of the Atlantic Charter, signed the United Nations Declaration and thus created "the mightiest coalition in history." Three other nations have since joined this coalition.

Today the unity achieved by these 29 signatory powers is bearing rich fruit. The United Nations, said the President, are passing from the defensive to the offensive, ever conscious however, of the supreme necessity of planning what is to come after, or carrying forward into peace the common effort which will have brought them victory in the war.

Our task on this New Year's day is three-fold, Mr. Roosevelt said—First, to crush completely the present "bandit assault" upon civilization—second, to organize relations among nations that forces of barbarism can never again break loose—and third, to cooperate to the end "that mankind may enjoy in peace and in freedom the unprecedented blessings which divine providence through the progress of civilization has put within our reach."

Axis economic strength and weakness was outlined in a "Beginning of 1943" Balance sheet issued by Milo Perkins, Executive Director of the Board of Economic Warfare. Germany said Mr. Perkins, has passed her production peak but is still economically formidable, with little likelihood of economic collapse in Germany in 1943. Japan, however is much stronger in raw materials than she was a year ago, and except for a major weakness in shipping is now within reach of a powerful and entrenched economic position. The ability of the Axis powers to support defensive warfare is especially marked, he said, but as both economies are strained, inflicting the bombing damage on Germany and attacking Japanese shipping will have immediate effects on these countries' war production.

As for U. S. War production, Chairman Nelson said that in 1943 this country expects to produce about two times as many arms as were produced in 1942, spending better than \$90,000,000 for war, as compared to 1942's \$60,000,000. November armament production showed greatest monthly increase since the U. S. began to rearm in the summer of 1940—four and one-half times more war material, turned out than in the month before the Jap attack on Pearl Harbor. Mr. Nelson gave the box score of November war production, over October. Airplanes, up 18 percent; Ordnance, up 10 percent; Army and Navy vessels, up 9 percent; merchant vessels, up 26 percent; other munitions, up 9 percent.

Special attention has been given to the items most needed in the type of warfare now being waged in North Africa, with outstanding gains recorded in the output of single-engine pursuit planes, medium bombers, smaller transport planes, navy fighters, and in production of the self-propelled guns used in tank warfare.

Right now the U. S. is turning out enough rifle and machine gun ammunition each month to fire 83 rounds at each individual soldier in the Axis armies. In one year of war, production of small arms ammunition has increased 550 per cent—and it is still going up.

Backing up our production of finished war material is our production of metals and minerals. A year-end report from the Bureau of Mines announces that in 1942 we produced more metals and minerals than in any year of our history. Estimated value of all mineral products was \$7,525,000,000—a record figure that tops the 1941 level by 10 per cent.

Agriculture Secretary Wickard directed OPA to begin rationing about 200 canned, frozen and dried vegetables and fruits as soon as machinery could be set up. U. S. Civilians will eat nearly one-third less of these food products in 1943 than they have been accustomed to eating, Wickard said, but their diets can still be well-balanced and healthful. Rationing in the U. S. does not mean sub-standard diets.

O. P. A. said the rationing would begin in early February, under the point system. Supplies of goods to be rationed will be temporary and briefly frozen on retailers shelves and in distributors and processors warehouses, and before being issued a ration book consumers will have to declare what ever canned goods they have on hand so that these goods can be deducted from their allowances. Heavy penalties will be imposed for giving false information.

Senator Wiley

Under a new order, the local OPA War Price Rationing Board must accept the farmer's estimate of his gasoline needs and the same will be accepted up to January 31st. This is going to aid farmers who engage in all small logging operations as well as those who carry on milk hauling. After the farmer has obtained temporary transportation ration, he should appeal for a revised certificate thru the Farm Transportation Committee of the U. S. Department of Agriculture (County War Board, who will study his case and make a recommendation to the farmer's district office of the Office of Defense Transportation as to the amount of mileage and gasoline that he should be allowed to operate through 1943. The ODT District Managers have been instructed to accept these recommendations unless errors in the Committee calculations are detected.

There is still too much red tape in this picture but it is improved. After weeks of effort, salesmen will be allotted sufficient gasoline for their occupational driving.

The fuel oil situation is very serious—especially on the Eastern seaboard. Stocks are running low and the military people are taking tremendous amounts for our African forces.

Rationing Pays

The Office of Price Administration is saving each resident of Palmyra and every other average American consumer \$30 a year, according to Government figures received today by Mr. Puehrner, chairman of the Local War Price and Rationing Board.

In explaining how this saving has been affected, Mr. Puehrner pointed out that everyday purchases of food and other necessary commodities would have cost the average consumer about 50 cents more a day, or \$180 a year, if we did not have price control today.

Coupled with this figure is the fact that the Government itself has saved over 20 billions of dollars on its purchases of armaments and general military supplies because of price controls. This saving in the national debt when reflected in terms of eventual individual taxes represents a saving of \$150 a year for every man, woman, and child in the country.

The investment of the people of the United States in the Office of Price Administration is only about 90 cents per person, Mr. Puehrner further explained. This is slight when compared to the individual's saving of \$330 annually, he pointed out.

As an illustration of savings to be gained through price control he cited figures on changes in prices of commodities during the last war and the present conflict.

Men's shirts that sold for \$1.50 in peacetime 1913 went to \$2.50 and \$2.75 in wartime 1918 because of lack of price control. Women's silk hose, likewise went from \$1 to \$2.

During the present war, after maximum price regulations were imposed for clothing on May 19, 1942, prices of men's shirts dropped 6 of a per cent in the short space of two weeks. Before regulations were imposed women's nylon hose were sold at \$3.95 and predictions were that they would reach \$4.95 for the Christmas trade. Price ceilings brought these same nylons down to \$1.95.

Sugar, lacking control, rose from 5.5 cents a pound in 1913 to 5.9 cents in 1914, and bounded upward in the next six years to reach 19.4 cents in 1920.

THE WAR FRONT

From the beginning of the North Africa operations to December 26, 277 enemy airplanes have been destroyed. Of these, 128 were brought down by the RAF, 102 by the U. S. Army Air forces and 46 by anti-aircraft fire. Allied losses for the same period total 114; 59 from the USAAF and 55 from the RAF.

Allied Air activity in North Africa has taken five main forms—short range fighters and fighter bombers (mainly provided by the RAF) do the battle area attacking; bombers (mainly provided by the USAAF) carry out the daylight attacks on ports, shipping, air-dromes and railways—RAF bombers handle the heavy night attacks, concentrating on Tunis and Bizerte—RAF Reconnaissance planes protect convoys and attack U-boats and USAAF transport planes bring men and supplies into our forward areas.

In the southwest Pacific area in 1942, 1,286 Japanese planes were destroyed or damaged, according to an allied air forces announcement. This total includes 723 planes destroyed, 250 probably destroyed and 313 damaged. In comparison, the announcement said, allied plane losses in 1942 were small.

LEGAL NOTICE

STATE OF WISCONSIN; COUNTY COURT, WAUKESHA COUNTY; CHRISTENA JOHNSON, Plaintiff, vs. RACHEL BAYLESS, MADELINE KENNEDY LINN, formerly Madeline Kennedy, and ATLANTA KEESLEE, Defendants.

By virtue of a judgment of foreclosure and sale made in the above entitled action and perfected on the 1st day of December, 1941, the undersigned Sheriff of the County of Waukesha, State of Wisconsin, will sell at the east door of the Court House in the City of Waukesha, on the 1st day of February, 1943, at ten o'clock in the forenoon on that day, the real estate and mortgaged premises directed by said judgment to be sold and therein described as follows, to-wit:

Commencing at the Southwest corner of land described in deed recorded in Register of Deeds Office, Waukesha County, Wisconsin, in Vol. 196 of Deeds on page 586, July 1, 1926, document No. 144582 which point of commencement is 12 rods 12 feet south of the Northwest corner of the Southwest Quarter of the North East Quarter (NE 1/4) of Section thirty-six (36) Township Five (5) North, Range Seventeen (17) East, thence Southerly along the County Highway known as County Trunk "E", to a stake designated Southern; thence East Thirteen (13) rods to southern stake; thence North Fifty (50) feet to stake; thence West Thirteen (13) rods to place of beginning, Waukesha County, Wisconsin.

Said property will be sold subject to any outstanding taxes; the terms of said sale, cash. Dated this 2nd day of December, 1942.

Alvin J. Redford, Sheriff, Waukesha County, Wisconsin Jacobson, Malone & Hippenmeyer, Attorneys for Plaintiff, Waukesha, Wisconsin.

State Officials Lashed

Madison, Jan. 7.—(Special)—Charging little consideration of pressure of war conditions upon taxpayers is being shown by state department heads and others anxious to "get a slice of the cash in the treasury" Milo Lange of Columbus, president of the Wisconsin Citizens Expenditure Survey, this week urged legislators to tighten up purse strings in their coming session.

With most state departments submitting budget requests higher than amounts allotted during the present biennium and announced plans of some local units of government to seek increases in various aids, Lange said taxpayers hope "they won't be forgotten entirely and that legislators will recognize that priority on funds at this time must be given to the federal government." He added:

"It is the federal government which needs money now to meet the demands of the war, not the state. Yet what do we see? The University of Wisconsin and the state teachers colleges submitting sharply increased budget requests despite declines in enrollment; attempts to establish 'priorities' by various departments for building projects the moment the war is over, regardless of what demands may be at that time; state department heads fighting OPA requests to coordinate state employees' travel and instead coming in with requests for increases in travel funds.

"State employees developing plans for a liberal pension system; public payrollers trooping to the emergency board for pay boosts almost every time it meets behind closed doors and then using the grants from this surperagency as a precedent for making them permanent when budget requests go to the legislature; liberal grants for other spending items from the emergency board which probably would be defeated if they come before the legislature.

Requests coming in for increased high school aids and plans reported for seeking highway aid boosts; proposals to raise the minimum pay of teachers. No wonder Lieut. Governor Goodland repeatedly asked those appearing at the state budget hearings, "Do you know we are at war?"

The economy organization head said these many attempts to increase state spending give an idea of how fast a cash reserve would be dissipated were it to be established by the state. Mr. Lange hoped the legislature "has the courage to deny these many attempts to maintain the present high tax level or force higher taxes upon taxpayers who are finding it increasingly difficult to meet the necessary demands of the war and that it will follow the precedent established by counties in reducing public expenditures and taxes."

La Grange

By Mrs. Wm. Thayer Miss Beth Bromley returned to Pine Ridge, Kentucky. Thora Junter went to Leaneck, New Jersey, Ann Kyle to Two Rivers, Eunice West to Kiel to their duties as teachers. Bob Thayer went back to River Falls, Dean Taylor and Dorothy Saunders to Madison, Lorna Rhodes to Appleton after vacation at home during the holidays.

Mr. and Mrs. Jack Lidbury, John and Donald came from Chicago New Years eve bringing Mrs. Leland Mules Jr., who had spent the week in Chicago, Dr. and Mrs. E. H. Beers spent New Years with her parents, Mr. and Mrs. Wm. Thayer. Other guests of the Thayer family on New Years day were Mr. and Mrs. Willard Thayer and Roger and Miss Barbara Wright.

The Home Front

As the forces of the United Nations chip at many exposed points of the Axis prison walls enclosing millions of the oppressed, starving and tortured peoples of the world, we in Wisconsin, even as our arms are beginning to be triumphant abroad, are faced with a severe test of our self control and patriotism.

It is not in the field of war production, in which already we surpass all our enemies, nor in buying war bonds, conducting salvage and other campaigns and drives, nor in our response to civilian defense and the many other forms of community war activity.

The test will come during 1943 as Wisconsin learns the war's hardest lesson for those at home—the lesson of doing without. True, we have experienced some discomforts, we have begun to lack some things once so common daily use, and have divided up the reduced supplies of other articles by rationing. But on the whole, the goods and services we miss are only a small proportion of those we still enjoy.

Beginning in February, a great many staple foods and food products on Wisconsin grocers' shelves will be rationed, including canned fruits and vegetables, canned juices and soups, and dried and frozen fruits and vegetables. Vast quantities of these processed foods, which are especially adapted to shipment abroad, must go to the armed forces and to our lend-lease allies. The balance available to civilians will be distributed by means of War Ration Book 2 according to the new "point" system.

Scarce products will have a higher point value than the more abundant, and point values may change as the supply of certain products increases or lessens, but the total number of coupon points for each ration period will be the same for every civilian everywhere, even for the soldier's wife who buys her food at army stations.

When point rationing starts, all the household stocks of items coming under the ration plan must be reported. Hoarders will be penalized by having to deduct coupon points for excessive supplies they have managed to accumulate. But unless all citizens are equally patriotic, hoarders and food speculators may cause acute local shortages before the plan goes into effect.

POINT RATIONING AIDS ALL

While food and petroleum products will be evenly distributed in Wisconsin by rationing, another method of assuring broad distribution has been adopted in the case of a wide range of consumer goods, chiefly items for personal or household use.

An order of the War Production Board limits the inventories of these goods which can be piled up by large retailers, wholesalers, and stock carrying branches of manufacturers, so that the smaller store will have a better chance to get things for its customers. The order, which aims at bringing down stocks until they are in the same proportion to sales as they were before the war, applies only to concerns doing a net business of \$200,000 or more a year. But in Wisconsin as elsewhere smaller store owners are expected to observe the same relationship on their own initiative.

Control of scarce materials reaches from publishing houses to the farm. The magazine industry advisory committee advocates a flat 10 per cent reduction in the amount of print paper to be used by each magazine publisher in 1943. Orders for machine tools are being more rigidly checked for war necessity. Industrial thermometers, pressure gauges and other industrial types of instruments have been placed under strict control.

But Wisconsin farmers who must have new farm machinery will be assured of an ample supply through the top priority given to the delivery of critical materials for the manufacture of agricultural equipment. They will pay slightly more, however, for mixed fertilizer and superphosphate because of increased production costs of those products.

SHARE AND SHARE ALIKE

The age restriction for coffee has been clarified by the state Office of Price Administration in answer to numerous Wisconsin queries. OPA pointed out that a person who was 14 at the time of registration for War Ration Book 1, but since has turned 15, still is not entitled to use the book for coffee. Only a person whose age is shown as 15 or more on the Ration Book is eligible to use his book to buy coffee.

In spite of all measures to keep down the cost of living, a comprehensive survey of nearly 900 lines of goods indicates a price index at the highest level for the past 16 years. It is evident, therefore, that the battle against inflation must be continued unrelentingly during the coming year.

A survey of 50 typical New Jersey farms gave an average of more than one ton of scrap per farm. If this average were maintained throughout the country, the nation's farms are capable of yielding at least six million tons of scrap.

FARMERS ATTENTION!

For prompt removal of your dead and disabled horses and cattle, call Big Bend 100, Ft. Atkinson 95, White-water 376 or Waukesha 4635 Reverse Charges. Highest cash prices paid.

ARE YOU LOOKING for Wall Paper? I have a fine line of Deko products at reasonable prices. Let me show you the samples and be convinced. Write or phone Isabel Engebretsen, Eagle, Wisconsin.

The daily cost to France of German occupation would build 2,500 modern workmen's homes.

It has been estimated that 82 per cent of Americans normally get to their jobs in automobiles.

According to Government estimates, the seasonal kill of waterfowl would provide enough down and feathers for 300,000 aviator's pants and parkas, more than 10,000 sleeping bags or 500,000 sub-zero jackets, if hunters plucked and turned in the down and small body feathers of all birds they kill.

An improved design for a bomb fin in mass production will save enough steel to build two Liberty Ships.
