

# THE EAGLE QUILL

VOLUME LII

EAGLE, WAUKESHA COUNTY, WISCONSIN

NUMBER 25

Friday, March 19, 1943

## IN AND ABOUT TOWN

A/C Thomas J. Schmidt in Navy Dive Bomber training base at Kingsville, Texas, writes his parents, Dr. and Mrs. F. M. Schmidt that due to bad flying weather he will not graduate March 25th as expected, but will tell the date later. Mrs. Schmidt will then go down to be present when Tom gets his Navy Wings and Commission as Ensign. His many friends here extend to him hearty congratulations.

A new address just received is that of Cpl. Raymond L. Britton, Batt. C., 985th F.A. Bn. Camp Gruber, Okla.

The change of address for Pvt. Everett Amann 36242321 Co. B, 27th Signal Const. Bn. A.P.O. 3660 c/o Postmaster, New York City, N. Y.

The parents of Pvt. Harry Arndt, Mr. and Mrs. Harry Arndt, Sr., have received word of his safe arrival over across.

The new address of Lt. Lawrence Schroeder is Lt. Lawrence Schroeder, 1st H. B. Processing Group, Smoky Hill Air Base, Selina, Kansas.

Harlan Nickodem has been moved from Kessler Field, Miss., and is now stationed at the 20th T. S. S., Lowry Field, Colorado. Harlan is in the Air Corps. His brother, Lt. Lowell S. Nickodem, has the following address: Gowen Field, Idaho.

Mr. Nickodem is the son of Mr. and Mrs. Stanley Nickodem, who lived at Eagle for many years.

Pvt. Maurice Cummings, Glenview, Ill., and his wife, who is making her home with her parents at Argyle, came Friday to attend the funeral of their grandmother, Mrs. George Cummings, on Saturday. They were the guests of Mrs. Bessie Cummings.

### Little Prairie

By Mae Littlejohn

Mrs. Lou Peters and family called on Mr. and Mrs. Tony Stute and family Sunday.

Mr. Math Kau and family and Mrs. Katherine Von Rueden and family were Sunday dinner guests of Mr. and Mrs. George Kau.

Mr. and Mrs. Tony Breidenbach and family of Milwaukee, called at the Andrew Neuens home Saturday.

—v—

**Raise More Horses**  
With long-time planning essential in every industry and with the horse-breeding season approaching, Wisconsin farmers should consider what the future prospects may be for replacing aging work horses or obtaining power machinery to do the farm work, suggests Dr. V. S. Larson, chief of the livestock sanitation division, state department of agriculture.

Dr. Larson points out that the horse population of Wisconsin has dwindled from about 678,000 in 1920 to only 494,000 in 1942. Because fewer colts are being raised, the average age of our work horses is greater than a few years ago, he observes. This means that a new generation must be provided for replacement purposes.

In planning to make the replacements it should be kept in mind, he advises, that nature requires 11 months in which to produce a colt. After that is accomplished, it will be from two to three years before the colt gives much of a return in work.

Fewer but better stallions are in service in Wisconsin at present than during the past few years, Dr. Larson says. He attributes the improvement in stallions to the fact that many of the proper type for breeding have been retired in accordance with the amended stallion registration law enacted by the 1939 legislature.

## News of Our Neighbors

George Murn spent Sunday in Milwaukee with his sister and her husband, Mr. and Mrs. Albert Koshinz.

Mr. and Mrs. Harry J. Phillips and sons Tom and Dick spent the week-end with their parents, Mr. and Mrs. Jay Phillips.

The two couple celebrated their joint wedding anniversary Sunday. It was the elder Phillips 42nd and the younger Phillips 14th.

Seven classmates of Edwin Krejci helped him celebrate his thirteenth birthday last Saturday. This group is very much interested in archery and presented Edwin with a fine bow. The boys had some target practice and a snowball fight and after supper games were played and movies shown. Those present were: Stewart Calkins, Phil Bealhen, Dick Thayer, Emery Barnes, Bob Stetler, Jim Richards, and Norman Fredrickson.

Mrs. Tom Ritchey of Troy Center spent Sunday at the home of Mr. and Mrs. Lester Ritchey and Mr. and Mrs. Tom Gregory. Mrs. Tom Ritchey is Mr. Lester Ritchey's aunt.

Mr. and Mrs. Lester Ritchey received word from their son Tom that he is in the hospital, recovering from the measles.

Mr. and Mrs. George Sullivan were Milwaukee visitors on Monday.

Miss Mary Cummings, Milwaukee, spent Sunday at the home of her parents, Mr. and Mrs. A. X. Cummings.

Miss Harriet Ewins, Watertown was at the home of her parents, Mr. and Mrs. Frank Ewins over the week-end.

Mr. and Mrs. Fred Ludeman entertained Mr. and Mrs. Jack Freeman and Mrs. Jennie Reynolds at dinner Tuesday in honor of the birthday of Mrs. Freeman.

Mrs. James Jenkins, Plymouth, Indiana is spending a few days this week at the home of Mrs. Gertrude Sprengel.

Mrs. W. R. Norris and Mrs. Gertrude Sprengel were among the Milwaukee visitors Thursday.

Ed. Freeman, Johnstown was a visitor at the home of Mr. and Mrs. John Freeman on Wednesday.

Sylvia Reich and Ellen Broadberry were Milwaukee visitors Friday.

Mr. and Mrs. Jack Freeman entertained at dinner Monday evening. The guests were Grant Thayer and Shirley Fonstead, Stevens Point, and Mr. and Mrs. Clifford Thayer.

Grant Thayer and Miss Shirley Fonstead, Stevens Point, arrived on Saturday for a visit at the home of Mr. and Mrs. Clifford Thayer. Grant has received his call and he leaves next Monday for San Antonio, Texas where he will take up his duties with the U. S. Army Air Corps.

Mrs. Dorothy Reese, Mrs. Donald Thayer and children, Whitewater and Corporal Jim Cory were dinner guests Saturday noon of Mr. and Mrs. Clifford Thayer.

Janice Ketterhagen, Madison and Bob Ketterhagen, Milwaukee were at the home of their parents, Mr. and Mrs. W. J. Ketterhagen over the week end.

Warren Reich has completed his course at the Signal Corps School and will be home for a week, after which he will leave for active duty.

Sunday guests of Mr. and Mrs. Clifford Thayer were Lieutenant and Mrs. Harland Wilbur, Norfolk, Virginia, Miss Helen Wilbur and Miss Dorothy Colbert, Milwaukee, Mrs. Donald Thayer and children and Mrs. Dorothy Reese, Whitewater and Donald Thayer of Milwaukee. The celebration was in honor of Donald's birthday.

Mr. and Mrs. Fisk Carlin, Milwaukee spent Sunday at the home of Alice and Fanny Carlin. Milwaukee spent Sunday at the home of Alice and Fanny Carlin.

In a letter from their son, Corporal Lawrence Thayer who has been on duty in Buna, New Guinea, he tells that he is well and safe and is now back in Australia.

The Village Board held a banquet on Tuesday evening at Reich's Hotel.

Mrs. Joshua Thayer entertained her two-table bridge club last Wednesday evening. Prizes were awarded to Mrs. Kenneth Elwood and Mrs. James Omdoll. Mrs. Woodrow Wilson won the traveling prize.

The Band Mothers held their meeting on Tuesday evening at the home of Mrs. Dennis Jones.

The Misses Evelyn and Ida Wappler spent the week-end in Whitewater visiting their mother.

Mr. and Mrs. Albert Ketterhagen and Dr. and Mrs. A. J. Ketterhagen, of Burlington, were Sunday guests of Mr. and Mrs. W. J. Ketterhagen.

Mrs. Tom Ritchey of Troy Center was a Sunday visitor at the Gregory-Ritchey home.

Miss Evelyn Wappler was a Milwaukee visitor on Monday.

—v—

About three-fourths of all sports equipment now being manufactured goes to members of the armed service and to those receiving pre-induction military training.

Mr. and Mrs. Archie Jenkins of near Waukesha transacted business in Palmyra Friday—they were also en route to Delavan to get their little daughter Jean who attends school there. Mrs. Jenkins will be remembered as Delys Meredith.

Mr. and Mrs. George Betke and son Donald spent Sunday with Mrs. Julius Bladow.

Miss Irene Hayes of Milwaukee was a week-end guest at the home of her parents, Mr. and Mrs. Frank Hayes.

The Misses Ella and Clara Hayes were Sunday guests at the Frank Hayes home.

—v—

**CELEBRATES 83rd BIRTHDAY**

Mrs. Sophia Wilcox, 83 years old Mrs. Sophia Wilcox of this Village, is celebrating her 83rd birthday this week, and was the recipient of many callers and cards of congratulation on reaching the 83rd milestone of her life. Mrs. Wilcox can be seen almost daily going about her duties of a housewife, does all her own shopping and puts to shame many of the younger generation. We too congratulate Mrs. Wilcox.

Mrs. Chas. Thayer is entertaining 3 tables of Contract Bridge Thursday evening. A desert luncheon will be served later in the evening.

Mrs. Sam Tutton, and son Floyd are Milwaukee visitors this week end.

—v—

**Record Pea Acreage**

If present planting intentions are carried out this spring, Wisconsin will have one-third of the nation's acreage of peas for canning, according to the Crop Reporting Service of the Wisconsin and United States Departments of Agriculture.

The indicated acreage for this state is 168,000 acres—8,000 more than planted last year and a new record. The prospective acreage is about 59,000 acres above the 1932-42 average.

The canning pea crop will be another of Wisconsin's many contributions to the war-food supply of the nation. Government orders are expected to take a large proportion of the crop. Farmers are being encouraged to expand their canning pea acreage with substantial increases in prices compared with those received for the 1942 crop.

Reports received by the United States Departments of Agriculture indicate that the total acreage of peas for canning to be planted will be five per cent above 1942.

—v—

**Wisconsin Wool Crop**

Wool production on Wisconsin farms last year totaled over 3 million pounds and brought the farmers a cash income of \$1,272,000, according to the Crop Reporting Service of the Wisconsin and United States Departments of Agriculture.

A somewhat larger wool crop was produced in the state in 1942 than in the previous year and prices to farmers averaged higher. The average clip per sheep was 7.4 pounds, the same as the average of sheep shorn last year is estimated at 422,000 head compared with 378,000 head in 1941.

Wool prices have risen during the war but have remained rather steady during the past year and a half. The average farm price for the 1942 Wisconsin wool crop was 41 cents per pound—only two cents more than the average for 1941.

With a larger production and somewhat higher wool prices, the cash income for the 1942 wool crop was 181,000 more than the returns from the 1941 crop.

—v—

**Joan Daisy Boltz**

Joan Daisy Boltz, daughter of Mr. and Mrs. Sidney Boltz of Helenville, Wis., born January 24, 1929 in the Town of Concord passed away March 15, 1943 at 10 a. m. at the Southern Colony and Training School at Union Grove, Wis., where she had resided for the past five years.

At a very early age, Joan suffered a serious illness which left her very frail and for the past few years she has been an invalid.

Surviving are her parents and one sister, Phyllis.

The remains was brought to the Smith Funeral Home, Palmyra Monday afternoon. Funeral services will be conducted Thursday at 2 p. m. from the Bakertown Church with Rev. Sam Dobbertin of the English Baptist Church of Merton, Wis. officiating.

Burial will be in Concord Church Cemetery.

Some of the new

### Make Slip Covers for That Unusual Chair

THIS cover was a twofold conservation measure in the most literal sense. Its purpose was not to cover shabby upholstery but to protect handsome damask from everyday wear and tear, in a household where there were children. The substantial striped

cotton material chosen harmonizes perfectly with the rather elegant lines of the chair frame.

If you have an especially difficult chair to cover, you will save time by fitting a muslin pattern first. Then you can snip until it fits perfectly around arms and other supports and, if you make a mistake in the pattern just stitch a patch over it and start over again. Before removing the pattern from the chair, plan the openings so that they will lap neatly and be sure they are long enough. In the finished cover either bindings or facings may be used for irregular edges.

NOTE—This chair is from Mrs. Spears' Sewing Book 3, which also contains directions for smart new curtains, and numerous things to make from odds and ends, as well as new materials. To get copy of Book 3 send name and address with 15 cents in coins to:

MRS. RUTH WYETH SPEARS

### Confirming Jap's Death

The Japanese military authorities usually announce that a soldier or sailor is dead when he is only reported as missing and his fate is unknown, because his family would "lose face" if he had allowed himself to be captured. Often the authorities also send a sealed urn of ashes to the family to "confirm" his death.

**WHY SHOULD I GET ANY OTHER A, B, D VITAMINS BUT GROVE'S?**

And he's right! No need to pay big money when GROVE'S A, B, and D Vitamins cost only 25¢ for over two weeks' supply. The larger size is even more economical—only \$1.00 for over 10 weeks' supply. Each capsule supplies your daily protective requirements of essential Vitamins A and D plus famous B<sub>1</sub>. Unit for unit you can't get finer quality. Potency—quality guaranteed! ## HOUSEHOLD MEMOS... by Lynn Chambers

Today's Cake Fixings Are Simple, Food Saving (See Recipes Below)

### Bake Your Own!

Those of you who have chosen homemaking as a career can set aside a half day for baking your own goodies right in your own oven. There are a few things nicer than coming into a kitchen full of busy bustling, testing the cake, plumping fat loaves of bread on racks to cool, or packing cookies in fresh wax paper for pantry shelves—for those fine boys in the service!

When sugar rationing first came into the picture, most of us feared that it would not allow enough for home baking needs, but we have found ways to make sugar stretch. Or, perhaps we should say, corn syrups and honey to make baking possible.

With eggs up in price and fats becoming scarce, we have changed our recipes to fill these needs, too! Today's recipes may not call for the quantity of materials that yesterday's did, but they can make just as tempting a product.

#### \*Hot Water Sponge Cake. (Makes 2 8-inch layers)

- 1 cup sifted cake flour
- 1 1/2 teaspoons baking powder
- 1/4 teaspoon salt
- 2 eggs
- 1 cup sugar
- 1/2 teaspoon lemon juice
- 6 tablespoons hot water

Sift together flour, baking powder and salt. Beat eggs until thick and fluffy, about 10 minutes. Add sugar gradually, beating constantly until thick enough to hold a soft peak. Beat in lemon juice, add hot water, and beat until thick after each addition. Fold in flour in small amounts. Bake in ungreased tube pan or lightly greased layer-cake pans in a moderate (350-degree) oven. A tube cake takes 45 minutes to bake, layer cakes 25 to 30 minutes.

Ever tried a fragrant gingerbread baked in a ring? The slices can be fairly thin and the cake will really go far! Or, you can fill the center with apple sauce and serve as a dessert!

#### Gingerbread Ring.

- 1 cup molasses
- 1 cup sour milk
- 2 1/4 cups sifted flour
- 1 1/4 teaspoons baking soda
- 2 teaspoons ginger
- 1/2 teaspoon salt
- 1 egg, well beaten
- 1/2 cup melted shortening

Mix milk and molasses. Sift dry ingredients. Add to milk and molasses, then mix in egg and shortening and beat until smooth and

### Lynn Says:

**Tie a String Around Your Finger:** The technique's different when you do your own vegetables—and you must keep these pointers on tap if you would get the most out of them:

Peel potatoes thinly—their mineral treasures are hidden right under that skin.

Use green vegetables as soon as possible after buying. They lose quantities of their vitamin C just sitting and being exposed to air. Add dressing immediately to vegetables and fruits after cutting them. The coating prevents some vitamin loss.

Put away the soda box when cooking green vegetables. It's alkaline and destroys vitamins. Shell peas or lima beans only just before using. Wash leafy greens just before cooking. The percentage of vitamin loss will be lessened.

Start cooking frozen foods before thawing. It is believed that less vitamin C is destroyed by that method.

**This Week's Menu**  
Breaded Pork Tenderloin  
Seven Minute Cabbage

\*Hot Water Sponge Cake  
Peaches Beverage  
\*Recipe Given.

creamy. Pour into a greased pan and bake in a moderate oven 30 minutes.

It might be said of this cookie that it's spice and all things nice—but you'll notice I didn't say sugar, because it uses corn syrup:

#### Raisin Cookies.

- (Makes 50 to 60 cookies)
  - 1/2 cup shortening
  - 1 cup white corn syrup
  - 1 egg
  - 1/2 teaspoon cinnamon extract
  - 1 teaspoon vanilla
  - 2 1/2 cups flour
  - 1/2 teaspoon salt
  - 1/2 teaspoon baking soda
  - 2 teaspoons baking powder
  - 1 cup apple sauce
  - 1/2 cup chopped nuts
  - 1/2 cup chopped raisins
- Cream shortening with corn syrup and egg. Add flavorings. Sift dry ingredients together and add to creamed mixture. Alternate dry ingredients with apple sauce. Fold in chopped raisins and nuts. Drop by spoonfuls on a greased baking sheet and bake in a moderate oven 15 to 18 minutes.

Who ever heard of carrots in cookies? Well, the surprise is a nice one, and the cookies are popping full of vitamins when you make:

#### Honey-Carrot Cookies.

- (Makes 5 dozen)
- 2 cups sifted flour
- 1 teaspoon baking powder
- 1/4 teaspoon soda
- 1/2 teaspoon salt
- 1/2 teaspoon cinnamon
- 1/2 teaspoon nutmeg
- 2 cups quick-cooking oatmeal
- 1 cup raisins
- 1 cup chopped nuts
- 1/2 cup shortening
- 1 cup strained honey
- 2 eggs, well beaten
- 1 cup grated raw carrot

Sift dry ingredients together. Sift again. Add oatmeal, raisins and nutmeats. Mix well. Cream shortening, add honey, creaming thoroughly. Add eggs, then carrots, beating well. Stir in dry ingredients and blend thoroughly. Drop by spoonfuls on a greased baking sheet. Flatten with a floured fork. Bake for 15 minutes in a 350-degree oven. Store only when cold.

Whole grain, especially oatmeal, is rich in that important morale vitamin, B<sub>1</sub>, or thiamin, as it is sometimes called.

#### Oatmeal Refrigerator Rolls.

- 1/2 cup shortening
- 3 tablespoons sugar
- 1 1/4 teaspoons salt
- 1/2 cup boiling water
- 1 cup quick-cooking oatmeal
- 1 cake yeast
- 1/2 cup lukewarm water
- 1 egg, beaten
- 2 1/4 cups all-purpose flour

Add boiling water to sugar, salt, shortening and oatmeal. Stir well. Cool to lukewarm. Soften yeast in lukewarm water, then add with beaten egg to oatmeal mixture. Stir in half of flour, add rest of flour. Place in a greased bowl. Cover with waxed paper and store in refrigerator. When needed, remove from refrigerator and form into cloverleaves in greased muffin tins. Cover and let rise in a warm place until almost double. Bake 12 to 15 minutes in a 425-degree oven.

Lynn Chambers welcomes you to submit your household queries to her problem clinic. Send your letters to her at Western Newspaper Union, 210 South Des-plaines Street, Chicago, Illinois. Don't forget to enclose a stamped, self-addressed envelope for your reply.

Released by Western Newspaper Union.

## HOUSEHOLD HINTS

An occasional application of oil will keep leather in chairs and suitcases from cracking.

Grease can be removed from an iron by rubbing it with corn meal.

Used brooms can be made stiff and clean by dipping them in a pail of boiling soda water, and drying them in the sun. If the broom is sprayed or sprinkled occasionally with a little kerosene, it gathers the dust much better.

Rub over the inside of a cushion with hard soap before you fill it. Then the points of the feathers will not come through.

It will help keep your shoes if you put them on shoe trees or stuff the toes with paper when they are not being worn. Always wipe them dry of moisture and dirt after exposure.

Children's Shoes should be plenty large when bought—but not large enough to slip around and rub the feet. When they get too small, they should be passed on to some one else, if they are not worn out, for wearing too-small shoes when a child may cause serious foot trouble all through later life.

## FIRST-AID to the AILING HOUSE

by Roger B. Whitman

Roger B. Whitman—WNU Features.

You may not be able to replace worn or broken household equipment. This is war. Government priorities come first. So take care of what you have... as well as you possibly can. This column by the homeowner's friend tells you how.

### ENAMELED TO NATURAL FINISH

Question: The house we bought has white enameled woodwork in the living room and dining room. How can I restore it to its natural finish?

Answer: You can take off the present finish with a commercial varnish and paint remover. Be careful to clean off all traces of the remover with benzine afterward. Both liquids are inflammable. Be careful of fire and have plenty of ventilation. Or you can use a hot solution of trisodium phosphate, three pounds to the gallon of water. This will soften the old finish so that you can scrape and wipe it off. Rinse thoroughly and allow to dry. You then can refinish with clear varnish, or whatever you wish. When using a paint remover, be sure to clean it all off after removing the paint; if any trace is left, it will continue to soften the new finish.

### Rust Spot on Tile Floor

Question: I kept a steel cabinet in my bathroom for quite a while. When I moved it to another room I found it had left a large rust spot on the tile floor. Scrubbing with scouring cleanser does not remove it. What should I use?

Answer: Dissolve one part sodium citrate in six parts of water, and add six parts of commercial glycerine. Mix a portion of this with enough powdered whiting, hydrated lime or other absorbing powder, to form a paste, and spread on the stain in a thick coat. When it is dry, replace with fresh paste or moisten with the remaining liquid. A week or more may be required for the complete removal of the stain.

### Covered Radiators

Question: I have metal covers on all the radiators; these are on top, but not the front and back. Does this lose much heat? I feel that the covers, besides keeping curtains cleaner, may divert the heat closer to the floors where our children play. We do not need the upper three or four feet in the room.

Answer: Heated air rises; therefore, in heating a room the warm air builds up from the ceiling down. A cover of any type on a radiator naturally would have a tendency to cut down the efficiency. The kind of cover you are now using does not reduce the heating efficiency of the radiator as much as a complete enclosure.

### Sticky Enamel

Question: Recently we removed the finish from a walnut table with paint remover, then refinished with two coats of white enamel. Newspaper print and lint from clothes stick to the top. We have waxed it, but it still remains sticky. Is there any remedy?

Answer: I make the guess that after removing the old finish you forgot to clean off the paint remover, which still is active in softening the new finish. You had better start over again by taking off all the finish; but this time clean off the paint remover with benzine (being extremely careful of fire). Sandpaper, if necessary, and refinish.

### Shutting Off Radiators

Question: I have a hot-water heating system. Would I save on fuel and not interfere with the flow of water—if I shut off the third-floor radiator and possibly one or two on the second floor? Would it be better to remove the radiators entirely?

Answer: You should disconnect each radiator and plug the branch or pipe at some place below the unheated space to keep it from freezing. In the average hot-water heating system, the cutting off of a radiator should not interfere with the operation of the rest of the radiators and will effect a saving of fuel.

### Freshening Up Leather Chairs

Question: What can be done with a maroon leather office set that fades when sat upon during warm weather? The color comes off also.

Answer: Begin by washing the leather (without using much water) with saddle soap, which can be had at a leather goods store. Rinse well and allow to dry. Then paint with good quality enamel, just as it comes in the can, without thinning.

### Heel Marks

Question: Could you tell me how to get rubber heel marks off my polished hardwood floor?

Answer: Wipe with turpentine and fine steel wool. If this does not remove the marks, put a little scratchless cleaning powder on a damp cloth and rub lightly. Then wipe with a clean, damp cloth and re-wax the spot.

### Timely Samplers to Beautify Your Home

TWO samplers—eloquent in thought, simple in execution—combine cross stitch with outline. Shield and bell are the dominant

figures on one; on the other, the flag and eagle. Each is 8 by 10 in. size, and both come on one transfer Z9477.

This pattern also brings outlines for the distinctive spear type hangers—these are cut from wood and painted. A cord of red or blue adds the final touch. Grand for gifts or your own use. The price of the transfer is 15 cents. Send your order to:

AUNT MARTHA  
Kansas City, Mo.  
Box 166-W  
Enclose 15 cents for each pattern desired. Pattern No. ....

### Converting Our Industry

The groundwork for the conversion of American industry to war production started as long ago as 1922 when the Army and Navy Munitions board was set up, and the army established ordnance offices in 13 important cities throughout the country, says Collier's. The board then began a survey of some 20,000 large industrial plants to determine what these companies could and would produce in case of war.

## Beware Coughs from common colds That Hang On

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.

### CREOMULSION for Coughs, Chest Colds, Bronchitis

## SNAPPY FACTS ABOUT RUBBER

Akron, Ohio had its beginning as the **WORLD'S RUBBER MANUFACTURING CAPITAL** in 1870 when its first rubber plant was started by Dr. B. F. Goodrich.

The switching of Dakar, French West Africa, to the side of the United Nations meant the establishment for the Allies of an important port for the shipment of cruciferous rubber, among other important war essentials.

Atabrine, the chemist's answer to the war time shortage of quinine, is serving to step up the collection of rubber in the malaria-infested jungles of Brazil. Here is a case of a synthetic product being used to stimulate the gathering of a natural product that is rapidly being replaced by synthetics in the United States.

Ordinary tires are now cured in molds at factories in 40 to 50 minutes. Before organic accelerators were developed by B. F. Goodrich it took about five hours to vulcanize a tire.

**WEEKLY NEWS ANALYSIS**

**Meat Ceilings to Check Black Market; Bismarck Sea Triumph Forecasts U. S. Drive to Sweep Japs From New Guinea; Small Firms Get Billions for War Work**

**(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.)**  
Released by Western Newspaper Union.

Even the most advanced air base in Tunisia gets its mail, as pictured above. This photo of the mailman arriving and being welcomed at an advanced U. S. air base of Gen. Dwight Eisenhower's army, should be an incentive to those on the home front to write and keep writing to loved ones no matter how far away on Uncle Sam's service they may be.

**BLACK MARKET: Action on Meat**

Action rather than words was the keystone of a program sponsored by the OPA and the department of agriculture to smash the black markets in meat.

First barrage laid down in this offensive was Price Administrator Prentiss M. Brown's order imposing specific retail price ceilings on meat, beginning with pork products. Second attack came in the announcement by Secretary of Agriculture Wickard of orders licensing livestock slaughterers as well as those who buy and sell livestock for slaughter.

Effective April 1, the meat ceilings were expected to check black markets and end an "unjust squeeze" on packers. Mr. Brown said they would also lay the groundwork for the start of meat rationing about April 15. Pork ceilings were to be followed by uniform regulations on beef and lamb.

When red meat rationing is undertaken, the order will include bacon, butter, cheese, lard and other cooking fats.

With prices uniform throughout a community on all cuts of meat, Brown said, it would be difficult for dealers to get rid of illicit meat at higher prices.

**RUSSIANS: Repeat Old History**

Back over the snowy Russian steppes where Napoleon's army perished long ago reeled the retreating German legions.

While the collapse of Nazi resistance at Rzhev had been of high immediate strategic importance to the Red command it was prophetic of further Nazi reverses, for with the whole German salient west of Moscow unhinged, the fate of Orel and Vyazma to the east virtually sealed.

The rapidity of the Russian advance was indicated by the capture soon afterward of Olenino 35 miles west of Rzhev giving control of the railway running from Moscow to Velikie Luki.

While German spokesmen described the Rzhev defeat as a strategic withdrawal to shorten Nazi lines, Allied military observers saw in it a threat to all Axis defenses from Smolensk to the Baltic sea.

**WAR COST: Exceeds 43 Billion**

More than \$43,830,452,651 was spent for war purposes in the first eight months of the current fiscal year, it was disclosed by the treasury department.

The war department spent the most for war—\$27,303,243,684. The navy spent \$11,502,653,956, the maritime commission \$1,685,143,236 and the war shipping administration \$733,211,740.

Expenditures by the government for all purposes during the eight-month period totaled \$47,500,944,727, while net revenue totaled \$9,512,808,497. The government's deficit for the eight months was \$38,084,682,608.

**HIGHLIGHTS . . . in the week's news**

**LONDON:** "Take a towel with you when you go visiting" was, in effect, what Britons were told in a new set of rationing regulations. In announcing towel concessions for factory and medical workers, Hugh Dalton, president of the Board of Trade, said that in future "we must be prepared to take our towel with us if we go away to stay, or if asked to do so, to the hairdresser."

**SMALL BUSINESS: Good News Ahead**

Good news for small business concerns was forthcoming from Charles E. Wilson, executive vice chairman of the War Production board when he announced that war contracts placed with smaller companies "will run into billions of dollars by the end of the year."

Wilson said that more than \$30,000,000 of work a week is being placed now with small business firms through the efforts of the Smaller War Plants corporation.

The WPP's program for small business, Wilson said, includes: 1—An increase in the number of prime contracts placed with small plants; 2—Widening of WPP's lending policy to make loans to small business easier; 3—Certification of more small plants to handle war contracts.

**BISMARCK SEA: Disaster for Japs**

Three facts of major significance to the future of the war in the Pacific emerged from the stunning victory of General MacArthur's bombers over the 22-ship Jap armada in the Bismarck sea, approaching New Guinea.

Fact No. 1 was that in sinking the 22 enemy ships and bagging 82 Jap planes, MacArthur's airmen proved that a force of land-based bombers manned by skilled pilots is more than a match for a sea-borne invasion force. Fact No. 2 was that the victory removed the danger of invasion to the Australian mainland for the time being at least. Fact No. 3 was that the enemy garrisons at Lae and Salamaua, New Guinea, would not now be reinforced, for it was estimated that 15,000 Jap troops perished when Yankee bombs sank their transports.

Military observers believed that one of the immediate results of the Jap disaster would be an increase in pressure by General MacArthur's armies besieging Lae and Salamaua with the object of driving the Japs entirely from New Guinea.

The clean-sweep character of the American triumph was summarized in General MacArthur's terse communique: "We have achieved a victory of such completeness as to assume the proportions of a major disaster to the enemy."

**NAVY: Predict 10% Losses**

A navy "big enough to dominate all seas over the world" was envisioned by Secretary Frank Knox, who added a warning that the American people must be prepared to expect a 10 per cent casualty rate in navy personnel before the war's end.

Secretary Knox and ranking naval officials unfolded a program for building up personnel strength to 2,250,000 by July, 1944, in testimony before the house subcommittee on naval appropriations. Appropriations totaling \$3,816,000,000 to implement this program were approved by the subcommittee.

The navy had 3,205 ships in commission on January 1, 1943, according to Rear Admiral Randall Jacobs, chief of the bureau of personnel. This number will be increased to approximately 4,100 by the end of the year, he added.

**NORTH AFRICA: Rommel in Reverse**

As Allied troops continued their drive in Tunisia, it became increasingly clear that Marshal Rommel's short-lived Kasserine Pass offensive had been a gamble. If he succeeded, he would follow it up. If he failed, he would waste no time in retiring. This was emphasized by the rapidity with which American and British forces had regained the ground lost in Rommel's first push.

Reports disclosed that some units of the British Eighth army had made contact with American troops in the Gafsa area of central Tunisia after circling the Mareth line from the south and advancing through the Chott Djerid marshes which had hitherto been regarded as impassable.

American forces pressing Rommel's retreat from the Kasserine pass were reported well beyond Sbeitla on the way to the Faid Pass, the key to German north-south communications.

In the northern mountains west of Axis-held Bizerte heavy Nazi attacks had bent the British lines back. The Allied air arm remained dominant over North Africa, however, and in the Mediterranean, sharp enemy losses to British submarines were reported. Seven Axis ships were sunk and nine others damaged.

**ABSENTEEISM: Wage Docking Urged**

"Hit them in the pocketbook. If you dock their wages you are hitting them where it hurts."

This was the prescription for curing the problem of persistent absenteeism by war plant workers proposed by Secretary of Navy Frank Knox. Testifying before the house naval affairs committee, Knox advocated remedial legislations covering both draft-age and non-draft-age workers.

A large share of the absenteeism is caused by men safe from the draft, he told the committee which was studying measures to require periodic reports to local draft boards on absentees of military age. Best results in curing absenteeism would be to deprive such workers of earnings for part of the time they were actually at work, he added.

**DRAFT: Fathers Go Soon**

Draft boards will begin inducting fathers into the armed forces in many areas of the United States about May 1, informed officials in Washington indicated. These officials added that they expected drafting of married men with children to be general throughout the country by early summer.

Acknowledging that some married men with children have already been inducted, selective service officials declared that most of these had acquired their dependents after December 8, 1941. Other fathers, it was said, may not be inducted without authorization from selective service headquarters. It was predicted, however, that such authorization would be forthcoming this spring.

**PIPELINES: Relief for East**

Blunt-spoken Harold L. Ickes, petroleum administrator, served notice that he had decided to build a 20-inch pipeline from Texas to the Middle West, despite the objection of

**PETROLEUM BOSS ICKES**

Midwest senators who had urged that any new pipeline construction should be instead, from the Middle West to the East Coast shortage area. This will be in addition to the recently completed 24-inch line.

Mr. Ickes assured the Middle West senators in testimony before a committee in Washington that he also hopes to complete a 20-inch pipeline from the Midwest to the East coast this year.

Meanwhile, he insisted, building the western end of the second pipeline first would speed the job and increase deliveries to the East coast of from 3,000,000 to 5,000,000 barrels during the most critical period of the shortage. This would provide the most effective method.

**CHILD LABOR: 2,780,000 Employed**

Reflecting the war's impact on the nation's labor supply, a report by the National Child Labor commission revealed that 2,780,000 youngsters of less than 18 years of age are employed either full or part time in industry and agriculture.

Citing a noticeable increase in illegal child labor, especially in night work, the report said that 580,000 of the group were in the 14 to 15-year age class and the remainder 16 and 17.

**Conservation Notes**

An opportunity to view the winter deer food problem that has become acute in Wisconsin as well as in other states will be presented to the public during a three-day tour of deer yards starting March 19. The tour has been arranged by a special citizens' committee, headed by Professor Aldo Leopold of the University. An invitation is extended to everyone interested in the problem to accompany the committee on any part of the tour or to take all of the inspection trips that will be made during the three days.

The first day's tour will start from the Trout Lake conservation headquarters at 9:00 a. m. Friday, March 19, and will take in Vilas county deer yarding areas. The second day's trip starts at 9:00 a. m. Saturday, March 20, from the Gerard hotel, Ladysmith, and will cover yards of Rusk county. The third day's trip will start from the Brule conservation department ranger station at 9:00 a. m. Sunday, March 21, for an inspection of the Brule and Flag deer yards in Douglas and Bayfield counties.

Besides Professor Leopold, members of the committee are: Dr. E. G. Ovtz, John O. Morland, Hayward; Miss Laona; Judge Asa K. Owen, Phillips; Joyce Larkin, Eagle River; Howard Quirt, Marshfield; Henry C. Kuehn, Milwaukee; Mrs. J. Henry E. Thomas, Sheboygan; J. R. Jacobson, Superior.

**HUNTER AWARDS**

Forty-five Wisconsin hunters won awards ranging from hunting clothes and other sportsmen's equipment to subscriptions to national sportsmen's magazines as a result of efforts of the Wisconsin conservation Congress to speed the filing of game census reports by hunters. The names of winning hunters were taken at random from the pile of about 100,000 game census report cards that had been filed with the conservation department. The gifts had been donated by a group of business houses.

**SPRING PLANS**

There are many signs of an approaching spring in the conservation department offices. Groups arranging for trees to be used in spring planting. Other groups starting preparation looking toward the year's pheasant stocking and the voice of the trout fisherman is being heard more frequently. Some trout fishermen want their season moved up two weeks to May 1 and Henry Stenzel and Henry Mochlenph, Milwaukee, are asking fellow fishermen to carry on personal campaigns of stream improvement while they fish this year.

**THE ACID TEST**

Conservation is due for its usual spring acid test within a few weeks prevention of forest fires and the control of those that do start. This year the man-hours that may be devoted to fighting forest fires could profitably be devoted to another job. Forest fires destroy needed war material. Starting forest fires is an effective way of impeding the war effort and with more than the usual emphasis the conservation department pleads -- don't.

**DUCK BLINDS**

Adolph Kannaberg of the public service commission has advised the conservation commission that, in his opinion, the proposal to permit the building of duck blinds in the water off private property would be illegal. The proposal has been urged by some sportsmen for several years.

**New Milk Regulations**

Wisconsin milk producers will save thousands of dollars as a result of the amendment of the Chicago board of health rules which heretofore have required tuberculin testing of cattle every three years. William O. Perdue, general manager of Pure Milk Products cooperative said at the Fond du Lac office following his conference last week with the health board when the amendment was approved.

Under the new regulations, producers who ship to Chicago will be required to have their cattle tested only every six years, similar to requirements of the Wisconsin law. This applies to sections of the state where the infection rate is less than two-tenths of one per cent.

The cooperative manager said that the frequent testing had caused hardship for many producers, who, in some instances, were required to have their cattle tested twice in a year to meet the state and Chicago requirements. The six year test meets the requirements of the federal bureau of animal industry and will not endanger public health because of the low infection rate.

In seeking the amendment, Perdue told the health board that the infection rate for 562,750 cattle tested in 29,362 herds in 1942, was .069 of one per cent or one reactor for each 1,433 cattle.

Pure Milk Products, which now has some 12,000 members and is in its 13th year, had been working on the problem for several months and enlisted the aid of other producer groups, including the Central Grade A Cooperative and the Pure Milk Association of Chicago.

**The Home Front**

To Thomas Jefferson, the independent, self-subsistent farmer, who operated a holding of moderate size was the ideal keystone for a healthy national life. More than ever, at this time we in Wisconsin have come to recognize that the average American farmer is one of the main props of our whole wartime economy.

Our war farmers, however, are far more than that. They provide energy giving foods for our fighting men and animal and vegetable fibers urgently needed for military purposes. To a much smaller extent, but not less importantly, they are helping to feed our fighting Allies and the people freed from Axis domination.

The triple demands on American agricultural products are so great that they can never be fully satisfied. We cannot, for example, send as much to our Allies and to the liberated peoples as they could well use. Our own armed services can expect to receive the full allotment of foods vital to their battle strength; civilians will get enough for their needs, but not everything they may want. Even to do so much will require a great amount of planning, an extraordinary productive effort by the farmers, and an equal display of voluntary self discipline and co-operation on the part of all consumers.

Granting deferment of farm workers from military service and bringing back to farms large numbers of workers who have left them will be only a partial solution to the problem of farm labor shortage.

Hundreds of thousands of volunteers of the U. S. Crop Corps must aid in taking up the labor slack, and in spite of preliminary training courses now being offered these volunteers, the farmer himself necessarily will be the master craftsman who will instruct amateurs in all the difficult skilled operations that go with farming.

It will not be easy, and it will take an unlimited fund of patience, but it has been done successfully in Great Britain, and it can be done here.

With winter drawing to a close the fuel situation is still tight and conservation of petroleum supplies in the midwest must continue. Stocks of fuel oil for civilian consumers are slightly more than one-third of normal for this period of the year. Fuel oil users who would be entitled to get extra rations of 100 gallons or more for heating will not receive these rations if they can obtain the extra heat from coal or wood stoves. If the use of substitute heaters is not possible, ration boards may take the exceptional cases into consideration and grant relief.

**LEGAL NOTICE**  
STATE OF WISCONSIN: CIRCUIT COURT: WAUKESHA COUNTY. STATE BANKING COMMISSION OF WISCONSIN, as Statutory Receiver for Bank of Eagle, a Delinquent State Banking Corporation.

Plaintiff,  
**NOTICE OF SALE**  
vs.  
EMMA B. ABENDROTH, sometimes written E. B. ABENDROTH, and L. H. VAN ALSTINE,  
Defendants.

By virtue of a judgment of foreclosure and sale made in the above entitled action and perfected on the 16th day of January, 1942, the undersigned, Sheriff of the County of Waukesha, State of Wisconsin, will sell at the east door of the Court House in the City of Waukesha, on the 12th day of April, 1943, at ten o'clock in the forenoon on that day, the real estate and mortgaged premises directed by said judgment to be sold and therein described as follows, to-wit:

All that part of the South East 1/4 (SE 1/4) of Section No. Twenty-six (26) Town Five (5) North, of Range Seventeen (17) East, described as follows: Commencing at a point where the Easterly line of a tract of land deeded to Gordon M. Day by deed dated Oct. 30th, 1922, and recorded in volume (183) of Deeds on page (173) intersects the shore of said Eagle Lake, said point being north (62) degrees and (52) minutes west and (126.52) feet distant from a stone monument on the southerly line of said section (26) located near the shore of said Eagle Lake, thence north (41) degrees and (25) minutes west along said Easterly line (297.59) feet and passing over a stone monument approximately (7) feet from said lake shore, this monument being referred to as Monument "A" for purpose of identification, being the place of commencement of the land to be described, thence north (48) degrees and (35) minutes East (25.73) feet, thence north (75) degrees East (63.32) feet to the Easterly line of a (20) foot drive way, now owned by Emma B. Abendroth, thence North (29) degrees and (45) minutes west along said driveway, (28.15) feet to the Southerly line of a certain (25) foot driveway, thence south (60) degrees and (15) minutes west along the southerly line of said driveway (90) feet to a stone monument thence south (37) degrees and (19) minutes east to the place of beginning.

Also commencing at the south easterly corner of the lot first above described, thence north (41) degrees and (25) min. west along the Easterly line (107) feet to a stake, thence southerly to the shore of said Eagle lake passing over a wooden stake which is south (59) degrees and (25) minutes West and (22.3) feet distant from monument "A", thence north-easterly along the shore of said Eagle lake to the place of beginning.

Also The East Twenty (20) feet of Lot No. Four (4), All of Lot No. Five (5) and All of Lot No. Six (6) excepting the East Twenty (20) feet thereof, situated in Lins and Eiring's Subdivision of Eagle Lake Park, in Section Twenty six (26), Town Five (5) North of Range Seventeen (17) East in Waukesha County, Wisconsin, according to the plat thereof as the same is recorded in the office of the Register of Deeds for Waukesha County, Wisconsin, said premises hereby conveyed being described by metes and bounds as follows: Commencing at a point on the North shore of Eagle Lake, Twenty (20) feet West of the Southeast corner of Lot No. Four (4) of Lins and Eiring's said Plat of Eagle Lake Park, and thence running Easterly along the Lake Shore one hundred and thirty four (134) feet, more or less to a point twenty (20) feet West of the South East corner of Lot No. Six (6) Thence Northerly and parallel with the East line of said Lot Six (6) Three hundred and six (306) feet more or less to the north line of said Lot (6) thence Westerly along the North line of Lots Six (6) Five (5) and Four (4) Two Hundred and ninety nine (299) feet more or less to a point twenty (20) feet west of the North east corner of Lot No. Four (4) thence Southerly and parallel with the East line of Lot No. Four (4) Two hundred and sixty (260) feet more or less to the place of beginning, Waukesha County, Wisconsin.

Said property will be sold subject to any outstanding taxes; the terms of said sale, cash.

Dated this 12th day of February, 1943.  
Martin E. Fromm,  
Sheriff, Waukesha County, Wisconsin.  
Jacobson, Malone & Hippenmeyer,  
Attorneys for Plaintiff,  
Waukesha, Wisconsin.

**Peardons Corner**  
By Mrs. Geo. Peardon

Edward Peardon and Robert Hohnke were Waukesha visitors one day last week.

Geo. Peardon and son Claude were Waukesha shoppers last Thursday. Guests Sunday at George Peardon's were Mr. and Mrs. Arthur Peardon and Joan Rockwell of Whitewater. Mr. and Mrs. Ivan Southard and children of Waukesha, Mr. and Mrs. David Weidendorf and children of East Troy and Mr. and Mrs. Ronald Thayer and children of Palmyra.

**Senator Wiley**  
**OUR PROBLEMS**

Washington (like the folks back home) is concerned with these problems: (a) winning through to victory which will necessitate complete unity at home and abroad; (b) the post-war issues; (c) manpower; (d) taxes and national debt.

These tremendous problems make it doubly necessary that we keep our feet on the ground and think calmly. This is no time for mental confusion. This is no time for getting mentally unhorsed because of the multitude of mistakes that occur in and out of government because of the inaptitude of individuals.

We must not let incidents like the recent statement of Ambassador Standley in Moscow upset our balance. His statement was a tempest in a teapot. That is all. And it may have been made with a purpose. This war has many fronts, including the psychological and propaganda front.

Russia, China, Britain, and our own country, are in the same boat. We must pull together through to victory, or we may all sink together in defeat.

We must beware of the propaganda of our enemies whose object it is to create disunity between us and our Allies, and create disunity on our home front. The future peace of the world may depend on how we demonstrate unity of action now. It is the job of each citizen to promote the war efforts and unity to the limit between the united nations. The post-war issues are economic, social and political. Sometime ago I introduced in the Congress a resolution calling for a joint committee of the House and the Senate to study social security problem of the nation and to bring but a bill.

The President last week sent to the Congress a post-war social security plan for America. He recommended that the federal government form a peace-time partnership with private owners, in such crucial industries as aircraft and shipbuilding, and his plan was for a cradle to the grave expansion of the social security system. I take it that this plan was in line with one of the four freedoms--freedom from fear.

There is no question but what the Congress must give consideration to this matter, but we want to make sure that we do not by legislation sabotage this American race. It is through the struggle and toil and hardship, perhaps danger, that a people develops. We must not breed a race soft and wrapped in cotton wool too delicate to stand rough weather. With courage and brains and vision within the framework of a realistic social security program, we can destroy much of the fear that exists because of unemployment and old age.

The American has always been the exponent of initiative, industry, thrift, and with these qualities coupled with a sane legislative program, we should be able to meet head on and solve many of our economic post-war problems.

**MANPOWER**

The manpower problem is giving Congress much concern. It looks now as if women will be drawn into the labor force in much greater numbers than heretofore, in order to make possible the war's demands for eleven million men. The farm has been pretty well drained of single men. It is estimated there are only 250,000 single men left on the farms in the whole country. Some of these if not essential to farming will be drafted.

Congress must do something before April 1st or the draft boards will be ordering up for induction all men, 18-38, regardless of whether they have dependants and who are in non-deferable occupations.

**DEVELOP DEHYDRATION**

The United States Department of Agriculture early last summer began to expand its program of vegetable dehydration. Specifications have been adopted on the dehydration of vegetables.

There is great interest in Washington today in considering all possible facilities which might be converted to vegetable dehydration. Experience so far indicates that food processing facilities, particularly canneries, are most suitable for dehydration because much of the machinery in those plants can be used for that work and also because the personnel are experienced in food processing.

The first consideration in locating dehydration plants is an adequate supply source of raw material.

The business reputation and financial standing of plant owners and their food processing experience is also considered by the Agriculture Department. Conversion of plants is limited to those requiring a minimum quantity of critical materials.

The Food Distribution Administration is purchasing dehydrated vegetables for lend-lease distribution and is prepared to negotiate for the delivery of dehydrated vegetables. The Army Quartermaster Corps is purchasing supplies of these commodities for the United States armed forces.

**FOOD AND FIBER PROBLEM**

There is a great need for war supplies of food and fiber. Tentative farm programs for 1943 have been set up to place special emphasis and incentive on getting maximum production of the right type of crops. The Department of Agriculture now contemplates underwriting the risk farmers have to take in raising new crops which they have not grown before.

**FARMERS ATTENTION!**

For prompt removal of your dead and disabled horses and cattle, call Big Bend 100, Ft. Atkinson 95, Whitewater 376 or Waukesha 5635 Reverse Charges. Highest cash prices paid.

**ARE YOU LOOKING** for Wall Paper? I have a fine line of Deko products at reasonable prices. Let me show you the samples and be convinced. Write or phone Isabel Engebretsen, Eagle, Wisconsin.

**FOR FIRE & TORNADO INSURANCE**  
We solicit your patronage  
Inquire of H. M. Loibl, Agency

**FOR SALE**—Shed, suitable for chicken coop or machine shed. Inquire at Quill Office.

**I Must Get a Man**

At once in this community to work with our District Manager. Must have car and be over 25 years of age. The work is essential to the war effort and in line with the program advocated by the Department of Agriculture. Permanent work, good pay for man who has lived on farm. Write care of this newspaper.

—v—

**A Week of the War**

The British Eighth Army's decisive defeat of Rommel before the Mareth but although land operations subsided somewhat, the Eighth Army increased its air patrol operations, attacking enemy tanks and motor transports which were retreating to the shelter of the line.

In Northern Tunisia, the British First Army contacted General von Arnim's forces in the region of Sed Jenane, and twice during the week stopped the Axis attacks cold. Von Arnim has made heavy sacrifices in trying to budge the British from the northern end of the Allied line, but his gains have been minor.

In Central and Southwestern Tunisia, other Allied gains were scored. Forces, advancing into Tunisia from the direction of the Mareth Line, effected a union with some of General Giraud's troops and occupied Tozeur, on the northwestern shore of Chott Dferid Salt Lake, and later Metlaoui, from which to strike at Gafsa.

**AIR COMBAT IN TUNISIA**

Air activity, though restricted by weather, continued over the entire line. Allied planes attacked enemy airfields near Tunis, carried out offensive patrols in the northern and central sectors, destroyed a number of Axis vehicles and planes in the Sed Jenane region, and attacked targets at Gafsa in the south. Discussing air combat in Tunisia, Secretary of War Stimpson said Allied planes continue to show to last week's score of 58 enemy planes downed at a loss of 31 Allied craft. In one day, he said, Flying Fortresses and Lockheed Lightnings without loss shot down 17 enemy fighters and crashed into the sea.

**TUNISIAN CASUALTIES**

In the same press conference, Secretary Stimpson set at 2,242 American casualties suffered in Tunisia in the week of February 14 to 20—the period of the Allies' retreat toward the Algerian border and their initial counterattack. This included 59 killed, 176 wounded and 2,007 missing, presumably taken prisoner. Losses during the past month have been substantial for both sides, he said, but the Allies probably have fared better than the enemy.

**AMERICAN RAIDS ON EUROPE**

Good results also have been clocked up by American planes in their daylight attacks on Axis-held Europe. In one day's raids against Rennes and Rouen in Brittany, U. S. bombers downed more than 20 Axis fighter planes with a loss of only four of the bombers, and Allied fighters, escorting the bombers on their missions, accounted for five more.
