Jenny, please see if this is okay!

Chapman BP

101 South Road

Harold and Archie Chapman left their family farm and purchased the former Smart's Auto Company, a Ford dealer, at this site. There is a check dated 1917 from Standard Oil, so this family business has been in operation for over 100 years! A fire destroyed the original building, and they rebuilt in 1924. Archie's son, Russ, joined the workforce in 1956 and purchased the business in 1959. The station was remodeled and an office was added. His sons, Rob and Dan, took over in 1995. A brand new building was constructed in 2000, and Rob maintains ownership at this location as well as a station in East Troy.
