

EAGLE METHODIST CHURCH
(Budget for 1959-60)

Have you looked under your church lately?
If you would, you'd see that it runs on many
cylinders (people), and one of them is you!
If they all work, and work together, a lot
of power can be produced.

Let's see where an average member's giving will go. (Based on
an even division of the budget among our 148 members.)

The total budget is \$5592, and each member's share is \$37.78.
But, many members don't have separate incomes, so it might be
better to say that each family's share is \$69.90. Or better yet,
your share must be decided between you and God. Whatever it is,
it is needed for the work of Christ, through your church.
