

Re the Eagle United Methodist Church

The new addition was built on the church in the mid 50's. This included the Fellowship Hall --- Three Sunday School Rooms --- Office & Remodeled Kitchen.

Five people were mainly involved in this project. ////Dexter Badinger Sr. (Carpenter) /// Sam Foster (Electrical Engineer) /// Roy Wambold (Carpenter) /// Ed Tucker (Masonry Contractor) /// Levi Baker (Farmer) – had the front end loader for digging the basement.

The land used to put the New Addition on was donated by Roy Wambold.
