Hello,

I am working of family genealogy on my father's side of the family Wilson-DeWolf and need help Identifying some photos. Since Elizabeth's husband Ebenezer was a founding pioneer of Eagle I thought there might be some other photos to help match the DeWolf family photo album. My grandmother had the album in her home in Hartland, which has been in family since the late 1800's. I originally thought that the photo's attached were of William C. Dewolf, Elizabeth's brother, and Mary DeWolf his wife; but finding another document I believe these are the photos of Ebenezer and Elizabeth. The photo's below are from the Wisconsin gemology society magazine 1941, and the pictures I have look strikingly similar to the people in the photo's published.
