

Ryan Hajewski

Admin · 15h · 🌐

My name is Ryan Hajewski, you may know me as the admin of Keep Eagle WI Rural, but I am also running for Town Supervisor here in the Town of Eagle.

I have lived all 38 years of my existence here in the Eagle WI area. For good or ill, my upbringing is tied to the Eagle community. I went to school within the Palmyra-Eagle School District and met my wife there. The current house I live in is the fourth location in Eagle I have lived. I have lived in it since 2019, but it is just down the road from the place that my parents' have lived since 1994, their second house in Eagle, which they moved to originally in 1982.

Both my parents lived and worked in Eagle and showed me how to be a part of the community.

I grew up with Krestans and Eagle Variety Store only a few doors down from my parents. I could hear the carols being played from St. Theresa's in winter and the beat of Kettle Moraine Days in the summer.

At eight years old-in 1993-, I attended my first Eagle Historical Society meeting in the old town hall/fire station.

My first Eagle Town Board Meeting was when Don Wilton was still the town chairman. I had never, though thought I would get involved in local politics, but talks of new ordinances around animal ownership affecting my neighbors in the Village of Eagle at that time pushed me to advocate for them, which led to the start of this Facebook group in February 2017.

I am a charter member of the Eagle Advancement Association and board member. I was on the board of the Eagle Historical Society. I was involved with starting the Eagle Pumpkin Party. I have run a booth at Kettle Moraine Days. In the past, I have volunteered at Turkey Dinners and fish fries at St. Theresa's Church.

As a Board Member, my primary concern will be to work together with the rest of the board to try and keep things moving through what promises to be a bit of change on the board. I promise to work with honesty and transparency to the fullest extent possible. I promise to work to Keep Eagle Rural, not just in advocating for Rural land uses, but in trying to promote the trust with landowners/groups that citizens should have with their local government. I hope to spur pre-emptive education utilizing all forms of communication that technology has gifted us with in order to aid in understanding. Education before condemnation.

I want look to see what the board can do to promote the businesses that Eagle wants and needs. Development of the business park with good businesses is an asset to the community and in keeping taxes low for both you and me.

My promise is to try and be a good student of the township. The community has raised me and I look to people from the past and the present to see where they can help me. I invite all of you to join in this wonderful adventure to help make Eagle the place we want it to be. Look to the lessons of the past to guide the future.

Now, when you in the Town of Eagle go to the polls on Tuesday, April 4th, you will see my name under town supervisor. There are two positions available, and two candidates. So both of us candidates are pretty certain to get in.

Nevertheless, I would prefer that you want to vote for me. I am Ryan Hajewski and I am ready to take on this job.
